Complete Works of Jules Verne (illustrated): A Journey To The Centre Of The Earth, From The Earth To The Moon, The Floating Island, The Children Of Capitan Grant, Twenty Thousand Leagues Under The Sea - Jules Verne 2020-08-27

Jules Verne, a 19th-century French author, is famed for such revolutionary science-fiction novels as "Around the World in Eighty Days" and "Twenty Thousand Leagues Under the Sea". He has sometimes been called the "Father of Science Fiction", a title that has also been given to H. G. Wells and Hugo Gernsback. In all, Verne authored more than 60 books (most notably the 54 novels comprising the "Voyages Extraordinaires"), as well as dozens of plays, short stories and librettos. He conjured hundreds of memorable characters and imagined countless innovations years before their time, including the submarine, space travel, terrestrial flight and deep-sea exploration. Verne is generally considered a major literary author in France and most of Europe, where he has had a wide influence on the literary avant-garde and on surrealism. Verne has been the second most-translated author in the world since 1979, ranking between Agatha Christie and William Shakespeare. Some of the works appear only in their original French texts, due to copyright restrictions. Le labyrinthe - Joël Pagé 2014-07-22
 Quelque part dans la forêt de l'Arrière-pays se

trouverait un labyrinthe. Lieu de tous les rêves,
 de tous les dangers et de toutes les chimères,
 personne ne sait s'il existe. Le labyrinthe sert de
 prétexte pour fertiliser l'imagination et les rêves,
 influencer sur les arts. Tombe dans l'inconscient, on
 lui prêterait une forme de pensée, la puissance
 d'une déité. Personne ne l'a traversé sans perdre
 la vie; mais des rumeurs tenaces courent. Un
 homme, Camelot, en aurait découvert l'entrée et
 l'aurait exploré pour devenir ce presque-
 vagabond qui vend des colifichets merveilleux,
 puis disparaît pendant des mois avant de
 revenir, des lueurs pleins les yeux. Dans ce récit
 plurivoque ou méandres labyrinthiques et
 méandres de la pensée se font écho, l'auteur
 nous livre un texte essentiel sur l'acte de
 création, ses conséquences et les sacrifices qu'il
 demande.

Empire's Legacy - John W.P. Veugelers
 2019-10-25

Many argue that globalization and its
 discontents explain the strength of populism and

nativism in contemporary Europe, Latin America, and the United States. In France, though, an older potential born of imperialism has propelled the far right of Jean-Marie and Marine Le Pen. To explain how the National Front gained a foothold in France, Empire's Legacy connects local politics with historical developments that span nearly two centuries. Its analysis hinges on the idea of political potential: the possibility that a social group will support a movement, pressure group, political party, or other organized option. Starting from the French conquest of Algeria, John W.P Veugelers follows the career of a potential, showing how it erupted into support for the National Front in Toulon, the largest city under the far right of any postwar European democracy. Relying on archival research, electoral surveys, and personal interviews, Veugelers shows that voluntary associations, interest-group politics, and patron-client relations knit together a far-right affinity bequeathed by French imperialism. Veugelers examines the possibilities and limits of far-right power at the local level, moreover, and the barriers that effective, scandal-free government pose to extremist success. Exploring new terrain in the study of contemporary politics, Empire's Legacy makes the case for a subcultural approach that connects social networks to symbolic codes.

Corpus - Jean-Luc Nancy 2009-08-25

How have we thought "the body"? How can we think it anew? The body of mortal creatures, the body politic, the body of letters and of laws, the "mystical body of Christ"—all these (and others) are incorporated in the word Corpus, the title and topic of Jean-Luc Nancy's masterwork. Corpus is a work of literary force at once phenomenological, sociological, theological, and philosophical in its multiple orientations and approaches. In thirty-six brief sections, Nancy offers us at once an encyclopedia and a polemical program—reviewing classical takes on the "corpus" from Plato, Aristotle, and Saint Paul to Descartes, Hegel, Husserl, and Freud, while demonstrating that the mutations (technological, biological, and political) of our own culture have given rise to the need for a new understanding of the body. He not only tells the story of this cultural change but also explores the promise and responsibilities that such a new understanding entails. The long-awaited English translation is a bold, bravura rendering. To the title essay are added five closely related recent pieces—including a commentary by Antonia Birnbaum—dedicated in large part to the legacy of the "mind-body problem" formulated by Descartes and the challenge it poses to rethinking the ancient problems of the corpus. The last and most poignant of these essays is "The Intruder," Nancy's philosophical meditation on his heart transplant. The book also serves as the opening move in Nancy's larger project called "The deconstruction of Christianity."

Performing the Pied-Noir Family - Aoife Connolly 2020-10-16

Performing the Pied-Noir Family: Constructing Narratives of Settler Memory and Identity in Literature and On-Screen sheds new light on the memory community of the pieds-noir from the Algerian War (1954-1962) as it continues to resonate in France, where the subject was initially repressed in the collective psyche. Aoife Connolly draws on theories of performativity to explore autobiographical and fictional narratives by the settlers in over thirty canonical and non-canonical works of literature and film produced from the colony's imminent demise up to the

present day. Connolly focuses on renewed attachment to the family in exile to facilitate a comprehensive analysis of settler masculinity, femininity, childhood, and adolescence and to uncover neglected representations, including homosexual and Jewish voices. Connolly argues that findings on the construction of a post-independence identity and collective memory have broader implications for communities affected by colonization and migration. Scholars of literature, film, Francophone studies, and film studies will find this book particularly useful.

Strands of Utopia - Michael G Kelly 2017-12-02
"The poetic is an abiding yet elusive qualification within the discursive system of twentieth-century French literature. No longer amenable to formal assignment, its recurrences delimit a shifting, multi-layered practice of artistic and intellectual (self-) invention. This study attempts to outline certain durable properties of that practice by confronting it with the complex theoretical and spatial metaphor of utopia. Drawing, in particular, upon the oeuvres of Victor Segalen (1878-1919), René Daumal (1908-44) and Yves Bonnefoy (b. 1923), it traces poetic work - work done in support of poetic difference - along the social, physical and textual axes of what is argued to be a sustained and radically inclusive utopian practice within the literary field. The complex utopian quality of poetic work is linked to the cultural persistence of the poetic as a simple attribute within literary practice. In uncovering this link, the study encourages revised understandings of both the poetic and the utopian in the modern French literary context."

L'Aube... à pied® - Fédération française de la randonnée pédestre 2009

L'Aube est un département aux multiples facettes. A l'ouest, les rondeurs du Pays d'Othe cachent de vastes vergers. A l'est, en Champagne humide, la région des grands lacs est devenue un pôle touristique en même temps qu'un haut lieu de protection de l'environnement. Il faut croire que l'endroit est plaisant vu du ciel, puisque sur les bords d'eau se pavanent de plus en plus d'oiseaux : grues cendrées, oies des moissons, bernaches... Enfin, plus au sud, les plateaux du Barrois offrent un vin fameux, fleuron de la gastronomie locale, aussi célèbre que l'andouillette de Troyes, à savourer grillée au cœur même de la cité médiévale des comtes de Champagne.

Catholicism, Politics and Society in Twentieth-century France - Kay Chadwick 2000-01-01

Catholicism, once the protean monster, still functions as a complex component of French identity. No consideration of modern France would be complete without reference to the enduring impact and influence of Catholicism on the life of the nation. This volume sets out to

capture some of the variety and significance of the Catholic phenomenon in twentieth-century secular France, and to express something of its extraordinary vitality and interest. Each contribution focuses on a specific theme or period crucial to an understanding of the role played by French Catholics and their Church. Collectively, these studies reveal that Catholics were involved in almost every event of consequence and voiced an opinion on almost every issue. Equally, the volume offers a collage of insights which reflects the fragmentation of Catholic activity and attitudes as the century progressed. Being Catholic in modern France no longer means the espousal of a particular political or social agenda. Nor does it necessarily mean regular and traditional religious observance, or even strict adherence to the dictates of the Church. Modern French Catholicism truly has many mansions.

La splendeur des dieux: Quatre études iconographiques sur l'hellénisme égyptien (2 vols) - Gaëlle Tallet 2020-12-29

Dans *La Splendeur des dieux*, Gaëlle Tallet aborde la question de la transformation des divinités égyptiennes à l'époque gréco-romaine et de l'hellénisation de leur iconographie en interrogeant les enjeux de l'élaboration d'un hellénisme proprement égyptien, et les stratégies qu'il recouvre. In *La Splendeur des dieux*, Gaëlle Tallet provides a full reappraisal of the transformation of Egyptian deities and of their Hellenized depiction in Graeco-Roman times, and questions the issues and strategies at stake behind the elaboration of an Egyptian Hellenicity.

Sur quel pied danser? - 2005-01-01

La danse a inspiré la littérature, et la littérature a inspiré la danse. Mais comment fonctionne exactement l'articulation entre les deux, et quelles sont les conséquences de leur réciprocité ? Cet ouvrage analyse ce lien depuis la Renaissance jusqu'à l'époque moderne, de d'Aubigné à Francis Ponge, de la danse macabre à la théorie de Laban. La relation entre danse et

littérature est variable : parfois elle se fonde sur un principe esthétique, parfois sur un principe thématique, ou bien sociologique. Quelque soit la nature de ce rapport, ce livre démontre qu'il est durable et riche de sens. Les moyens d'expression de la danse et de la littérature sont radicalement différents, aussi éloignés les uns des autres que l'on puisse imaginer. Entre l'abstraction du langage et la matérialité du corps, le fossé paraît infranchissable. Ceci n'est qu'apparence. Mots et mouvements se complètent, les uns aidant à la compréhension des autres. Ce livre relate le désir à travers les siècles d'explorer cette inspiration mutuelle.

The Memory of Colonialism in Britain and France - Itay Lotem 2021-03-12

This book explores national attitudes to remembering colonialism in Britain and France. By comparing these two former colonial powers, the author tells two distinct stories about coming to terms with the legacies of colonialism, the role of silence and the breaking thereof. Examining memory through the stories of people who incited public conversation on colonialism: activists; politicians; journalists; and professional historians, this book argues that these actors mobilised the colonial past to make sense of national identity, race and belonging in the present. In focusing on memory as an ongoing, politicised public debate, the book examines the afterlife of colonial history as an element of political and social discourse that depends on actors' goals and priorities. A thought-provoking and powerful read that explores the divisive legacies of colonialism through oral history, this book will appeal to those researching imperialism, collective memory and cultural identity.
