Egypt - Pierre Loti 2005-12-01

The dwelling-places of the Apis, in the grim darkness beneath the Memphite desert, are, as all the world knows, monster coffins of black granite ranged in catacombs, hot and stifling as eternal stoves.-from "Chapter VI: In the Tombs of the Apis"Called one of the finest descriptive writers of his day, and certainly one of the most original, French writer and sailor Pierre Loti traveled the world in the late 19th century and painted what he saw in prose acclaimed as extraordinarily rhythmic and lyrical. This 1909 novel is a dreamlike reverie of a journey through Egypt just before it became overrun by Western tourists. For readers today, it serves as a window into a world forever lost.Also available from Cosimo Classics: Loti's Between Two Opinions.French writer LOUIS MARIE JULIEN VIAUD (1850-1923), aka Pierre Loti, served in the French navy, his experiences in which were the basis of much of his writing. He is also the author of An Iceland Fisherman, Madame Chrysantheme, and The Story of a Child.

Kingdom of Beauty - Kim Brandt 2007-06-29
A Study of the Weatherhead East Asian Institute, Columbia University Kingdom of Beauty shows that the discovery of mingei (folk art) by Japanese intellectuals in the 1920s and 1930s was central to the complex process by which Japan became both a modern nation and an imperial world power. Kim Brandt's account of the mingei movement locates its origins in colonial Korea, where middle-class Japanese artists and collectors discovered that imperialism offered them special opportunities to amass art objects and gain social, cultural, and even political influence. Later, mingei enthusiasts worked with (and against) other

groups—such as state officials, fascist ideologues, rival folk art organizations, local artisans, newspaper and magazine editors, and department store managers—to promote their own vision of beautiful prosperity for Japan, Asia, and indeed the world. In tracing the history of mingei activism, Brandt considers not only Yanagi Muneyoshi, Hamada Shōji, Kawai Kanjirō, and other well-known leaders of the folk art movement but also the often overlooked networks of provincial intellectuals, craftspeople, marketers, and shoppers who were just as important to its success. The result of their collective efforts, she makes clear, was the transformation of a once-obscure category of pre-industrial rural artifacts into an icon of modern national style.

Flaubert's Tentation - Mary Orr 2008-11-13
"This is the first comprehensive study in English of Flaubert's least well-known masterpiece, the final version of his *Tentation de saint Antoine* (1874). By assuming no prior knowledge of the work, its versions, debates, or contexts, Mary Orr opens up new readings of the seven tableaux which comprise it, and new ways of interpreting the whole. Newcomers and specialists are therefore invited to contemplate afresh this central work in Flaubert's oeuvre and in nineteenth-century French studies." "For specialists in nineteenth-century French literature and in Flaubert studies, this book challenges received critical wisdom on a number of fronts. Flaubert's 'realism', 'anti-clericalism', and 'orientalism' are all remapped through the text's unlikely protagonist-visionary speaking to the religious and scientific controversies of nineteenth-century France."--BOOK JACKET.

Tintoretto - Tom Nichols 2015-10-01
Jacopo Tintoretto (1518–94) is an ambiguous figure in the history of art. His radically unorthodox paintings are not readily classifiable, and although he was a Venetian by birth, his standing as a member of the Venetian school is constantly contested. But he was also a formidable maverick, abandoning the humanist narratives and sensuous color palette typical of the great Venetian master, Titian, in favor of a renewed concentration on core Christian subjects painted in a rough and abbreviated chiaroscuro style. This generously illustrated book offers an extensive analysis of Tintoretto's

greatest paintings, charting his life and work in the context of Venetian art and the culture of the Cinquecento. Tom Nichols shows that Tintoretto was an extraordinarily innovative artist who created a new manner of painting, which, for all of its originality and sophistication, was still able to appeal to the shared emotions of the widest possible audience. This compact, pocket edition features sixteen additional illustrations and a new afterword by the author, and it will continue to be one of the definitive treatments of this once grossly overlooked master.

Henry Black - Ian McArthur 2013

Unique among foreigners in 19th-century Japan, Australian-born professional storyteller (rakugoka) Henry Black (1858-1923) enthralled audiences with his adaptations of novels by Charles Dickens, Mary Braddon, and Fortune de Boisgobey. These tales, later produced as books, brought notions of European modernity to many ordinary Japanese. Henry Black also acted kabuki roles, managed an orchestra, performed magic and hypnotism, lived with his Japanese male lover, drank heavily, and practiced tea ceremonies. His voice was recorded for the London Gramophone Company on the first disc-shaped recordings made in Japan. In the 1870s, Black joined the pro-democracy movement, promoting equal rights and an elected assembly. His later affiliation with the San'yu guild of storytellers, under the professional name of Kairakutei Burakku, enabled him to promote the

movement's aims through his stories. He became a naturalized Japanese and was shunned by his own family. This is the first full-length English-language account of Henry Black. Translating Black's narrated adaptations and drawing on newspapers and diary entries, author Ian McArthur demonstrates Black's individual contribution to the modernization of Meiji-era (1868-1912) Japan. (Series: Monash Asia Series) *** "McArthur paints a portrait of a complex period in history and a complex man who was truly 'a Japanese of European descent.' Highly recommended." - Choice, Vol. 51, No. 8, April 2014~

Theories of Sustainable Development - Judith C. Enders 2014-10-24

While sustainability has become a buzzword in discussions about the environment and development, work on theories of sustainable development has received much less attention. However, theory is vital as understanding the origins and development of the concept is the key to achieving successful implementation of sustainability. This book offers an interdisciplinary collection of research articles on the theories of sustainable development, drawing on a wide range of subjects including history, politics, governance, complex systems, economics and philosophy. It advocates viewing sustainable development not only as the establishment of a permanent, globally practicable and future-capable mode of life and economics, but as a complex array of problems involving a wide range of social-scientific and humanistic disciplines. This innovative approach means that the book is oriented toward current problems, not toward the established academic boundaries, and it draws out lessons that are relevant for those studying and working in sustainability across the world. This book will be of great interest to researchers and students of sustainable development and environmental politics, as well as practitioners working with sustainable development in politics, business,

administration, and civil society organizations. *Watsuji Tetsuro's Rinrigaku* - Watsuji Tetsuro 1996-01-01

Watsuji Tetsuro's *Rinrigaku* (literally, the principles that allow us to live in friendly community) has been regarded as the definitive study of Japanese ethics for half a century. In Japan, ethics is the study of human being or *ningen*. As an ethical being, one negates individuality by abandoning one's independence from others. This selflessness is the true meaning of goodness.

Global Sustainability, Cultural Perspectives and Challenges for Transdisciplinary Integrated Research - Benno Werlen 2015-05-28

This book offers new perspectives of transdisciplinary research, in methodological as well as theoretical respects. It provides insights in the two-fold bio-physical and the socio-cultural global embeddedness of local living conditions on the basis of selected empirical studies from Latin America, Asia, Africa, Australia and Europe. The theoretical foundations of ecological research and sustainability policies were developed at the end of the nineteenth century. They are largely based on investigations of living spaces and the evolution and differentiation of varied life forms. This perspective is embedded in the practical and theoretical European problem situations of the past and lacks social and cultural differentiation. The transformation of spatial and natural relations as a result of the globalization process is so radical that new theories are needed to solve 21st century ecological problems. Moreover, in view of the lack of an ontologically sound and promising strategy for transdisciplinary problem solving, as well as an acceptable consideration of the power of cultural schemas relating to natural living's interpretations, there is a strong need to focus on sustainable social practices, habits and

routines, rather than on predominantly living spaces or eco-topes. This book elaborates on the transdisciplinary approach by reflecting on the theoretical heritage and a global perspective of sustainability, by focusing on the primary role of a social approach in sustainability research and by putting emphasis on cultural dimension of sustainability. It postulates that global sustainability is grounded in a global understanding of our everyday activities.

Passenger Rail Franchising - Great Britain. Parliament. House of Commons. Transport Committee 2006

It is thirteen years since the Railways Act 1993 started the process of privatising British Rail, replacing it with one company owning and managing the infrastructure, an open-access system for freight services and a series of twenty-five passenger franchises let to private companies for a specified period of time. This period has seen almost continuous change, and there is now a new 'triumvirate' framework with the Department for Transport, the Office of Rail Regulation and Network Rail in place, with the third generation of franchises in the process of being let and the number being reduced to nineteen. The Committee's report examines the current franchising system, focusing on the coherence of its objectives, the effectiveness of the process for awarding franchises and the

management of franchise agreements, and whether more competition and vertical integration is needed. Findings include that the current system represents a policy muddle which lacks a coherent framework for the development of good services and delivery of value for money for passengers and taxpayers. The only way the Government can increase capacity and improve services for the long-term is to drop the dogmatic pursuit of competition in its decision-making as to what the private and public sectors can and should do in future. The Government's forthcoming long-term strategy for the railways will need to address these issues, and to set out a structure and a strategy capable of securing quality passenger rail services to meet demand over the next half a century.

Wake Up, Woods - Michael A. Homoya 2019-10

Early in the year, our North American forests come to life as native wildflowers start to push up through patches of snow. With longer days and sunlight streaming down through bare branches of towering trees, life on the forest floor awakens from its winter sleep. Plants such as green dragon, squirrel corn, and bloodroot interact with their pollinators and seed dispersers and rush to create new life before the trees above leaf out and block the sun's rays. Wake Up, Woods showcases the splendor of our warming forests and offers clues to nature's annual springtime floral show as we walk in our parks and wilderness areas, or even in shade gardens around our homes. Readers of Wake Up, Woods will see that Gillian Harris, Michael Homoya and Shane Gibson, through illustrations and text, present a captivating look into our forests' biodiversity, showing how species depend on plants for food and help assure plant reproduction. This book celebrates some of nature's most fascinating moments that happen in forests where we live and play.

In Pursuit of Universalism - Alicia Volk 2010

"Volk's impressive study rethinks the East-West binary often reiterated in discussions of Japanese modernism by reinserting local aspects into the universalizing tendencies of modernism itself. The book makes an important contribution to the growing literature on modern Japanese art history by providing an alternative comparative framework for understanding the global development of modernism that decenters Euro-America. Rigorously historical in her critique, Volk destabilizes our understanding of the Japanese experience of modernity through the prism of Yorozu's singular vision of the self, leaving us questioning conventional wisdom and contented to wobble."--Gennifer Weisenfeld, Duke University "In Volk's affectingly stunning and deeply reflective study of the Japanese artist Yorozu Tetsugorō's work between 1910-1930, we have a profoundly historical reminder of how modernism everywhere struggled to meet the demands of the new with the readymades of received artistic practices. In this study of Yorozu's utopian universalist project, Volk has imaginatively broadened our understanding of the modernist moment and perceptively captured its global program to unify art and life, contemporary culture and history."--Harry Harootunian, author of *Overcome by Modernity:*

The Library at Night - Alberto Manguel 2011-07-27

In the tradition of *A History of Reading*, this book is an account of Manguel's astonishment at the variety, beauty and persistence of our efforts to shape the world and our lives, most notably through something almost as old as reading itself: libraries. *The Library at Night* begins with the design and construction of Alberto Manguel's own library at his house in western France - a process that raises puzzling questions about his past and his reading habits, as well as broader ones about the nature of categories, catalogues, architecture and identity. Thematically organized and beautifully illustrated, this book considers libraries as treasure troves and architectural spaces; it looks on them as autobiographies of their owners and as statements of national identity. It examines small personal libraries and libraries that started as philanthropic ventures, and analyzes the unending promise - and defects - of virtual ones. It compares different methods of categorization (and what they imply) and libraries that have built up by chance as opposed to by conscious direction. In part this is because this is about the library at night, not during the day: this book takes in what happens after the lights go out, when the world is sleeping, when books become the rightful owners of the library and the reader is the interloper. Then all daytime order is upended: one book calls to another across the shelves, and new alliances are created across time and space. And so, as well as the best design for a reading room and the makeup of Robinson Crusoe's library, this book dwells on more "nocturnal" subjects: fictional libraries like those carried by Count Dracula and Frankenstein's monster; shadow libraries of lost

and censored books; imaginary libraries of books not yet written. The Library at Night is a fascinating voyage through the mind of one of our most beloved men of letters. It is an invitation into his memory and vast knowledge of books and civilizations, and throughout – though mostly implicitly – it is also a passionate defence of literacy, of the unique pleasures of reading, of the importance of the book. As much as anything else, The Library at Night reminds us of what a library stands for: the possibility of illumination, of a better path for our society and for us as individuals. That hope too, at the close, is replaced by something that fits this personal and eclectic book even better: something more fragile, and evanescent than illumination, though just as important.

Ourika - Claire de Duras duchesse de Duras
2022-06-02

This French novella narrates the experiences of a Senegalese girl who, after being rescued from slavery, is raised by a noble French family during the French Revolution. She remains unaware of her difference because of being raised in a privileged household until she overhears a conversation that makes her conscious of her race and of the discrimination it faces. After learning about her roots, Ourika lives not as a French woman but as a black person. The story then presents the struggles she faces with her newly discovered identity as an educated African lady in eighteenth-century Europe. Claire de Duras wrote this best-seller twenty-five years before the abolition of the slave trade in France. This period was a time when not a lot of women published their work, so Duras published *Ourika* anonymously. It marks an important event in European literature as it is the first novel set in Europe to have a black female protagonist. Despite being a short story, this work addresses the themes of race, nationality, interracial love.

By Fire, By Water - Mitchell James Kaplan
2010-05-18

Recipient of the Independent Publishers Award for Historical Fiction (Gold Medal), the Foreword Book of the Year Award for Historical Fiction (Bronze Medal), and an honorable mention in the category of General Fiction for the Eric Hoffer Award. Luis de Santángel, chancellor to the court and longtime friend of the lusty King Ferdinand, has had enough of the Spanish Inquisition. As the power of Inquisitor General Tomás de Torquemada grows, so does the brutality of the Spanish church and the

suspicion and paranoia it inspires. When a dear friend's demise brings the violence close to home, Santángel is enraged and takes retribution into his own hands. But he is from a family of conversos, and his Jewish heritage makes him an easy target. As Santángel witnesses the horrific persecution of his loved ones, he begins slowly to reconnect with the Jewish faith his family left behind. Feeding his curiosity about his past is his growing love for Judith Migdal, a clever and beautiful Jewish woman navigating the mounting tensions in Granada. While he struggles to decide what his

reputation is worth and what he can sacrifice, one man offers him a chance he thought he'd lost...the chance to hope for a better world. Christopher Columbus has plans to discover a route to paradise, and only Luis de Santángel can help him. Within the dramatic story lies a subtle, insightful examination of the crisis of faith at the heart of the Spanish Inquisition. Irresolvable conflict rages within the conversos in *By Fire, By Water*, torn between the religion they left behind and the conversion meant to ensure their safety. In this story of love, God, faith, and torture, fifteenth-century Spain comes to dazzling, engrossing life.
