Best Practices for Credit-Bearing Information Literacy Courses -

Christopher Vance Hollister 2014-05-14

This work is a collection of previously unpublished papers in which contributing authors describe and recommend best practices for creating, developing and teaching credit-bearing information literacy (IL) courses at the college and university level. Contributors include academic librarians from universities, four-year colleges and community colleges to demonstrate successful IL course endeavors at their respective institutions. It includes several case studies of both classroom and online IL courses; some are elective and some required, some are discipline-specific and others are integrated into academic programs or departments. Contributors discuss useful and effective methods for developing, teaching, assessing and marketing courses. Also included are chapters on theoretical approaches to credit bearing IL courses and their history in higher education. Organized around three themes, create, develop and teach, this book provides practitioners and administrators with a start-to-finish guide to best practices for credit-bearing IL courses. [Jouissance](#) - Néstor A. Braunstein 2020-08-01

A comprehensive discussion of an important but elusive Lacanian concept within the field of psychoanalysis, as well as its relevance for philosophy, literature, gender, and queer studies. Whether inscribed within the context of capitalist or neoliberal logic and its imperative to "enjoy," as a critique of all forms of heteronormativity, a liberating force in a positive reading of biopolitics, the point of inflection in the ethics of psychoanalysis, or articulated in the knot of the sinthome, the concept of jouissance is either the diagnosis, response, or solution for a wide range of contemporary discontents. Why does jouissance occupy such a central place in contemporary psychoanalytic discourse? What is jouissance the name for? Originally published in Spanish in 1990, later expanded and translated into French and Portuguese, with multiple reprints in all three languages, this book addresses both theoretical and clinical applications of jouissance through a comprehensive overview of key terms in Lacan's grammar. Néstor A. Braunstein also examines it in relation to central debates within the fields of psychoanalysis, philosophy, queer theory, and literary studies to further explore the implications of Lacan's concept for contemporary thought. Néstor A. Braunstein is an Argentine Mexican psychoanalyst, author, professor, and editor who has published extensively on psychoanalysis, philosophy, visual arts, and literature, and whose work has been translated into French and Portuguese. In English, his work appears in *The Cambridge Companion to Lacan*. Silvia Rosman teaches at the University of Illinois, Chicago. Her books include *Being in Common: Nation, Subject, and Community in Latin American Literature and Culture*.

[Project Based Teaching](#) - Suzie Boss 2018-09-20

It's no secret that in today's complex world, students face unparalleled demands as they prepare for college, careers, and active citizenship. However, those demands won't be met without a fundamental shift from traditional, teacher-centered instruction toward innovative, student-centered teaching and learning. For schools ready to make such a shift, project-based learning (PBL) offers a proven framework to help students be better equipped to tackle future challenges. Project Based Teachers encourage active questioning, curiosity, and peer learning; create learning environments in which every student has a voice; and have a mastery of content but are also comfortable responding to students' questions by saying, "I don't know. Let's find out together." In this book, Suzie Boss and John Larmer build on the framework for Gold Standard PBL originally presented in *Setting the Standard for Project Based Learning* and explore the seven practices integral to Project Based Teaching: Build the Culture Design and Plan Align to Standards Manage Activities Assess Student Learning Scaffold Student Learning Engage and Coach For each practice, the authors present a wide range of practical strategies and include teachers' reflections about and suggestions from their classroom experiences. This book and a related series of free videos provide a detailed look at what's happening in PBL classrooms from the perspective of the Project Based Teacher. Let's find out together. The Culture of Print - Roger Chartier 2014-07-14

The leading historians who are the authors of this work offer a highly original account of one of the most important transformations in Western culture: the change brought about by the discovery and development of printing in Europe. Focusing primarily on printed matter other than books, *The Culture of Print* emphasizes the specific and local contexts in which printed materials, such as broadsheets, flysheets, and posters, were used in modern Europe. The authors show that festive, ritual, cultic, civic, and pedagogic uses of print were social activities that involved deciphering texts in a collective way, with those who knew how to read leading those who did not. Only gradually did these collective forms of appropriation give way to a practice of reading--privately, silently, using the eyes alone--that has become common today. This wide-ranging work opens up new historical and methodological perspectives and will become a focal point of debate for historians and sociologists interested in the cultural transformations that accompanied the rise of modern societies. Originally published in 1989. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905. *Critical Terms for the Study of Gender* - Catharine R. Stimpson 2014-07-11

"Gender systems pervade and regulate human lives—in law courts and operating rooms, ballparks and poker clubs, hair-dressing salons and kitchens, classrooms and playgroups. . . . Exactly how gender works varies from culture to culture, and from historical period to historical period, but gender is very rarely not at work. Nor does gender operate in isolation. It is linked to other social structures and sources of identity." So write women's studies pioneer Catharine R. Stimpson and anthropologist Gilbert Herdt in their introduction to *Critical Terms for the Study of Gender*, laying out the wide-ranging nature of this interdisciplinary and rapidly changing field. The sixth in the series of "Critical Terms" books, this volume provides an indispensable introduction to the study of gender through an exploration of key terms that are a part of everyday discourse in this vital subject. Following Stimpson and Herdt's careful account of the evolution of gender studies and its relation to women's and sexuality studies, the twenty-one essays here cast an appropriately broad net, spanning the study of gender and sexuality across the humanities and social sciences. Written by a distinguished group of scholars, each essay presents students with a history of a given term—from bodies to utopia—and explains the conceptual baggage it carries and the kinds of critical work it can be made to do. The contributors offer incisive discussions of topics ranging from desire, identity, justice, and kinship to love, race, and religion that suggest new directions for the understanding of gender studies. The result is an essential reference addressed to students studying gender in very different disciplinary contexts.

How to Read a Book - Mortimer J. Adler 2011-05-10

CHRONICLE OF THE TWENTY-FOUR GENERALS OF THE ORDER OF FRIARS MINOR - ARNALD OF SARRANT 2013-09-26

The history of the Order of Friars Minor during the first one and a half centuries of its existence is maybe the most studied period of the 800 years of Franciscan presence in the Church. The publication of the *Sources for the lives of Saint Francis and Saint Clare of Assisi* in all the main European languages has been of considerable help to spread the historical knowledge regarding Francis of Assisi and his movement and make it available to the average reader. Among these *Sources*, the *Chronica XXIV Ministrorum Generalium Ordinis fratrum Minorum* by Arnald of Sarrant merits particular attention. It tells the story of the Franciscan Order from the time of Saint Francis till the beginning of the Western Schism in 1378, and therefore contains valuable information regarding the initial period of Franciscan history. Unfortunately it is not easily available in translation because of its voluminous nature. In fact, it covers a total of 712 pages of the third volume of *Analecta Franciscana*, published by the Franciscan editors of Quaracchi in 1897. Our aim has been that of embarking on the arduous task of translating this voluminous work of history into English from the original Latin. This translation is the fruit of three years of work, and we are now happy to present it to the general public. Because of its voluminous nature we intend to divide it into 5 sections, four of which cover the 575 pages of text and one the appendixes. The whole 575 page *Chronicle* is here available in 4 sections covering respectively the following historical periods: (1) Saint Francis and the early Franciscan fraternity; (2) The Generals from brother Elias as vicar (1227) to Saint Bonaventure (1274); (3) The Generals from Jerome of Ascoli (1274) to Michael of Cesena (1328); (4) The Generals from Gerard Eudes (1329) to Leonard of Giffoni (1378). A last section will be the translation of the appendixes. The translation is enriched by footnotes and explanations on the various historical events narrated and on the personages of the *Chronicle*. Our aim has been simply that of providing a readable translation, without pretending to be scholars of mediaeval Latin. We hope that the service we are offering at such an enormous cost of time and personal effort will be of benefit both to students of Franciscan history as well as to those who are qualified to correct its inaccuracies, and who we gratefully thank for their eventual advice and corrections

Geography and Revolution - David N. Livingstone 2010-08-15

A term with myriad associations, revolution is commonly understood in its intellectual, historical, and sociopolitical contexts. Until now, almost no attention has been paid to revolution and questions of geography. *Geography and Revolution* examines the ways that place and space matter in a variety of revolutionary situations. David N. Livingstone and Charles W. J. Withers assemble a set of essays that are themselves revolutionary in uncovering not only the geography of revolutions but the role of geography in revolutions. Here, scientific revolutions—Copernican, Newtonian, and Darwinian—ordinarily thought of as placeless, are revealed to be rooted in specific sites and spaces. Technical revolutions—the advent of print, time-keeping, and photography—emerge as inventions that transformed the world's order without homogenizing it. Political revolutions—in France, England, Germany, and the United States—are notable for their debates on the nature of political institutions and national identity. Gathering insight from geographers, historians, and historians of science, *Geography and Revolution* is an invitation to take the where as seriously as the who and the when in examining the nature, shape, and location of revolutions.

The Darkening Ecliptic - Ern Malley 2018-10-01

In 1944 the Australian literary world was rocked by a hoax which was to become a worldwide scandal. Ern Malley, deceased motor mechanic and poet, was the invention of two Sydney poets, James McAuley and Harold Stewart, who were intent on proving that modern poetry was a sham. The work of Malley comprised lines and words selected randomly, everywhere from Shakespeare to an American report on the drainage of the breeding grounds of mosquitoes. Max Harris published the poetry in the literary magazine *Angry Penguins* but when the deception was revealed he was mercilessly lampooned, tried and convicted of publishing 'indecent advertisements'. This definitive edition contains all of the poems, a new introduction by artist Albert Tucker, and historical background by Max Harris, John Reed and Colin Wilson; augmented by the unique contribution of drawings and etchings by Garry Shead.
