Building Maintenance - Brian J.B. Wood 2009-09-28

Maintaining a building is expensive: it costs many times more to run a building than to build it, yet maintenance is often accorded a low priority. Building Maintenance covers the technical aspects of maintenance for undergraduate students on built environment courses, particularly building surveying and facilities management. It addresses the major questions regarding maintenance activities and shows that maintenance should be considered seriously at the design stage. Extensive case studies illustrate what can go wrong, how to put matters

right and how to get it right first time.

Planning Guide for Maintaining School Facilities - Tom Szuba 2003

This title is no longer available in print. However, please visit the NCES website at <http://nces.ed.gov/pubsearch/pubsinfo.asp?pubid=2003347> to view an electronic version of the text. As America's school buildings age, we face the growing challenge of maintaining the nation's education facilities at a level that enables our teachers to meet the needs of the 21st century learners. This tool has been developed to help readers better understand why and how to develop, implement, and evaluate a facilities maintenance plan. It focuses on: maintenance as a vital task in the responsible management of an education organization, the needs of an education audience, strategies and procedures for planning, implementing, and evaluating maintenance programs, a process to be followed, rather than a canned set of "one size fits all" solutions, and recommendations based on "best practices", rather than mandates. The document offers recommendations on the following important issues, which serve as chapter headings: Introduction to School Facilities Maintenance Planning Planning for School Facilities Maintenance Facilities Audits (Knowing What You Have) Providing a Safe Environment for Learning Maintaining School Facilities and Grounds Effectively Managing Staff and Contractors Evaluating Facilities Maintenance Efforts

Building an Emergency Plan - 2000-02-03

Building an Emergency Plan provides a step-by-step guide that a cultural institution can follow to develop its own emergency preparedness and response strategy. This workbook is divided into three parts that address the three groups generally responsible for developing and implementing emergency procedures—institution directors, emergency preparedness managers, and departmental team leaders—and discuss the role each

should play in devising and maintaining an effective emergency plan. Several chapters detail the practical aspects of communication, training, and forming teams to handle the safety of staff and visitors, collections, buildings, and records. Emergencies covered include natural events such as earthquakes or floods, as well as human-caused emergencies, such as fires that occur during renovation. Examples from the Barbados Museum and Historical Society, the Museo de Arte Popular Americano in Chile, the Mystic Seaport Museum in Connecticut, and the Seattle Art Museum show how cultural institutions have prepared for emergencies relevant to their sites, collections, and regions.

Locating, Analyzing and Evaluating Real Estate Properties - Dave Ravindra 2010-03-16

Success is something that we all wish to achieve. We all have potential to be successful, however potential is nothing if not realized and acted upon. We have all seen the infomercials, read the articles, and heard of people from all walks of life making hundreds of thousands of dollars through real estate. The key to their success in real estate is knowledge and action, not just understanding how to buy and sell property or how to word clauses. These are important, however true success will continue to elude you unless you truly understand the concepts involved in locating, analyzing and evaluating real estate properties. Within the context of these pages you will be enlightened on the concepts and techniques involved in properly locating real estate, analyzing your new found real estate and correctly evaluating that real estate. Any real estate investor, whether they are new to the field or have been active for many years will and can benefit from this book.
