**The Heart of the Leopard Children** - Wilfried N'Sondé  
2016-07-11

A nameless young man lives in the housing projects outside of Paris. When he was a child, his parents moved with him from the Congo to France, hoping in vain to escape poverty and violence. His best friend, Drissa, is in a psychiatric hospital and now Mireille, his girlfriend, the woman with whom he has shared his childhood and hopes, has left him to reconnect with her Jewish roots in Israel. During a night out to drown the pain of his heartache, there is a fight with a policeman, the policeman dies, and the young man is arrested and taken to jail. Between police beatings and abrupt interrogations, his memory becomes his sole ally to escape from the exiguous space in which he is confined. Half-conscious and delirious, he reflects on his journey from the land of his ancestors to his life in the projects with Drissa and Mireille. In *The Heart of the Leopard Children*, N'Sondé explores the themes of love and pain, belonging and uprooting, desire and fear—all with an implacable and irresistible

accuracy. Wilfried N'Sondé's first novel awakens the reader with an urban symphony of desire and lost love, attuned to the violence that accompanies the struggle for social ascension and a sense of belonging, and the paralyzing sentiment of betrayal that inhabits a young man caught between traditions and cultures. Awarded the Prix des Cinq Continents de la Francophonie and the Prix Senghor for the originality of his work, the author captures the sounds, rhythms and pleas of a young man who pulls on the alarm from his prison cell to warn against the multiple barriers of confinement that risk the future of certain sectors of French youth today.

**Walker Evans** - Walker Evans 2001

"As novelist and poet Andrei Codrescu points out in the essay that accompanies this selection of photographs from the Getty Museum's collection, Evans's photographs are the work of an artist whose temperament was distinctly at odds with Beals's impassioned

rhetoric. Evans's photographs of Cuba were made by a young, still maturing artist who - as Codrescu argues - was just beginning to combine his early, formalist aesthetic with the social concerns that would figure prominently in his later work."--Jacket.
