The Democratic Paradox - Chantal Mouffe 2009-06-09

From the theory of 'deliberative democracy' to the politics of the 'third way', the present Zeitgeist is characterized by attempts to deny what Chantal Mouffe contends is the inherently conflictual nature of democratic politics. Far from being signs of progress, such ideas constitute a serious threat to democratic institutions. Taking issue with John Rawls and Jürgen Habermas on one side, and the political tenets of

Blair, Clinton and Schröder on the other, Mouffe brings to the fore the paradoxical nature of modern liberal democracy in which the category of the 'adversary' plays a central role. She draws on the work of Wittgenstein, Derrida, and the provocative theses of Carl Schmitt, to propose a new understanding of democracy which acknowledges the ineradicability of antagonism in its workings.

Case Studies in Archaeological Predictive Modelling - Philip Verhagen 2007-01

Dutch archaeology has experienced profound changes in recent years. This has led to an increasing use of archaeological predictive modelling, a technique that uses information about the location of known early human settlements to predict where additional settlements may have been located. Case Studies in Archaeological Predictive Modelling is the product of a decade of work by Philip Verhagen as a specialist in geographical information systems at RAAP Archeologisch Adviesbureau

BV, one of the leading organizations in the field; the case studies presented here provide an overview of the field and point to potential future areas of research.

Koevoet - Jim Hooper 2013-02-15

Koevoet! has been an global bestseller since its release over 20 years ago. This new edition goes far beyond the original in capturing the courage, fear and intensity of South Africa's deadly bush war. Never before had an outsider been given unrestricted access to Koevoet, the elite South West African Police counterinsurgency unit - also known as Operation K and officially as the South West Africa Police Counter Insurgency Unit (SWAPOL-COIN). Author Jim Hooper spent a total of five months embedded with the semi-secret and predominantly black 'Ops K', which climaxed with one of the most vicious and determined infiltrations ever mounted by the communist-backed South West Africa People's Organization (SWAPO). Crossing regularly into Angola in pursuit of the insurgents, he saw friends die next to him and was twice wounded himself. This updated edition, drawing on the recollections and diaries of the men he rode with, will fascinate yet another generation of readers. In assembling this work, Jim Hooper had the opportunity to re-connect with so many of the men who allowed this outsider to ride with them. All of which brought a new intensity and poignancy. It also reminded Jim Hooper how privileged he was to have been witness to Koevoet's war. This stunning work is a tribute to Koevoet and the legend they created. "Hooper is a careful reporter, but also a born writer; his vivid word-pictures drag you in and hold you. He skillfully conveys his initially unwelcoming reception by an operational unit; the long, frustrating grind of search operations in punishing terrain and climate; the extraordinary bush skills of the Ovambo policemen; the shock of sudden contact, and its aftermath." Martin Windrow "Jim Hooper's account of South Africa's successful "Ops K" in Namibia against South West Africa's People's Organization guerrillas should be required reading. The classic narrative is as timely today as it was twenty years ago." Charles D. Melson, Chief Historian, U.S. Marine Corps University. "This expanded edition is a skillfully woven mosaic of personal accounts from those involved and

what he experienced during combat with Koevoet. The use of new material from those he rode with lays bare the realities of war, the fears and emotions that ebb and flow in the heat of combat, and the courage one finds to bring the battle to the enemy" Piet Nortje, Author of 32 Battalion "Koevoet describes in great detail the men, both black and white, and their mine-protected cross-country vehicles which were years ahead of anything in use by other western forces, the dedicated helicopter support units and the tactics used to bring an elusive guerrilla force to battle." Paul French, Author of Shadows of a Forgotten Past: To the Edge with the Rhodesian SAS and Selous Scouts.

The Autumn of the Middle Ages - Johan Huizinga 1996-03-15

This translation corrects such errors, recreating the second Dutch edition - which represents Huizinga's thinking at its most important stage - as closely as possible. Everything that was dropped or rearranged has been restored. Prose quotations appear in French, with translations printed at the bottom of the page. Mistranslations have been corrected.

The Reality of Symbols - Jan Baptist Bedaux 1990

"Bedaux brings the discussion of meaning in northern painting back to the basics: the description of real objects, the evocation of everyday associations, the employment of standard visual metaphors, symbols and allegories. With the first publication of an eighteenth-century iconographical program drawn up by the Hague painter Mattheus Verheyden, he demonstrates the continued importance of allegory, that stepchild of iconography." -- Cover page 4.

Fiela's Child - Dalene Matthee 2012-10-02

A child wanders too far into the Knysna Forest ... he never returns. Nine years later government officials working on a census find a white child living with a Coloured family in the mountains beyond the forest. They take him away from the stricken Fiela, who has brought him up as her son, and give him back to his 'original' family. Stunned and helpless, Benjamin waits for Fiela to reclaim him. But, powerless against authority, Fiela never comes. Benjamin has to grow up before he can go in search of the truth ...

Ladybird Tales: Classic Stories to Share - 2015-10-01

Ladybird has published fairy tales for over forty-five years, bringing the magic of traditional stories to each new generation of children. These classic stories are based on the original Ladybird retellings by Vera Southgate, with beautiful new illustrations of the kind children like best - full of richness and detail. An essential part of any child's bookshelf, Ladybird Tales are perfect for sharing together and creating memories to treasure forever. This beautiful treasury brings together five of everyone's favourite fairy tales: Hansel and Gretel, Cinderella, Aladdin, Snow White and the Seven Dwarfs, and Puss in Boots.

Leonardo Pisano (Fibonacci) - L. E. Sigler 2014-06-28

The Book of Squares by Fibonacci is a gem in the mathematical literature and one of the most important mathematical treatises written in the Middle Ages. It is a collection of theorems on indeterminate analysis and equations of second degree which yield, among other results, a solution to a problem proposed by Master John of Palermo to Leonardo at the Court of Frederick II. The book was dedicated and presented to the Emperor at Pisa in 1225. Dating back to the 13th century the book exhibits the early and continued fascination of men with our number system and the relationship among numbers with special properties such as prime numbers, squares, and odd numbers. The faithful translation into modern English and the commentary by the translator make this book accessible to professional mathematicians and amateurs who have always been intrigued by the lure of our number system.

Potential Development Using Thinking Tools - Cas Olivier 2019-09-12

Educators need to empower learners to be prepared for the Fourth Industrial Revolution, to be thinkers with the ability to pioneer the future. This book cracks teaching and learning myths that led to learners being perceived as knowledge duplicators instead of being knowledge creators. Thinking tools move the focus of learning from mastering content to critical thinking. This requires the critical thinking toolkit, which is the mothership of all thinking. It engages learners' forever-wandering minds with the learning task at hand, which is the substitute for the traditional expectations of "paying attention" and "memorising". When employing thinking tools, learners become thinking engineers—taking ownership of what they must discover, create or solve. Within this paradigm of teaching, teachers directly engage with learners' brains, which goes beyond learner-centred teaching and defining learning as visual, auditory or kinaesthetic. The book is based on examples of thinking tools sessions.

EU Missions and Peacebuilding - Vladimir Kmec 2021-12-22

This book analyses the European Union's (EU) approach to peacebuilding in its Common Security and Defence Policy (CSDP) missions, and explores how this approach impacts the EU's role in international conflict management. Peacebuilding carried out through CSDP instruments has become central to the self-conception of the EU as an actor in international conflict management. EU missions and operations have, for the most part, been deployed to promote peacebuilding efforts in post-conflict situations, in particular through capacity-building, reforms and rebuilding of state structures. This book focuses explicitly on the peacebuilding dimension of the CSDP while exploring why and how the EU has adopted peacebuilding in its CSDP actions as a norm and a practice. It analyses how peacebuilding in EU missions is

conceptualised, designed, governed and implemented. The book examines the extent to which EU missions and operations reflect a normative and practical commitment of the EU to peacebuilding – that is to say, the extent to which CSDP instruments have been shaped by international peacebuilding norms and EU foreign policy. Drawing on empirical insights from decision- and policymaking processes in Brussels as well as from missions in Mali and in Bosnia and Herzegovina, this book offers critical perspectives on the EU's role as an international peacebuilding actor. This book will be of much interest to students of European security, EU policy, peace and conflict studies, security studies and international relations.

Oor 'n motorfiets, 'n zombiefliet - Jaco Jacobs 2013-10-02

Martin Retief se hele lewe verander toe sy pa een middag stilhou om aandete te koop. Maar dan ontmoet Martin vir Drikus. Drikus wat aan 'n siekte ly en sy eie zombiefliet wil maak. Wat volg is 'n avontuur vol skouhoenders, skelms, mooi meisies, wiskunde, kammabloed en zombies.

Image Analysis in Earth Sciences - Renée Heilbronner 2013-07-03

Image Analysis in Earth Sciences is a graduate level textbook for researchers and students interested in the quantitative microstructure and texture analysis of earth materials. Methods of analysis and applications are introduced using carefully worked examples. The input images are typically derived from earth materials, acquired at a wide range of scales, through digital photography, light and electron microscopy. The book focuses on image acquisition, pre- and post-processing, on the extraction of objects (segmentation), the analysis of volumes and grain size distributions, on shape fabric analysis (particle and surface fabrics) and the analysis of the frequency domain (FFT and ACF). The last chapters are dedicated to the analysis of crystallographic fabrics and orientation imaging. Throughout the book the free software Image SXM is used.
