Historical Atlas of Medieval Music - Vera Minazzi 2019-08-31

Music is rooted in the heart of Western culture. The absence of music from the usual publications of medieval history and history of art of the Middle Ages is understandable, considering the rarity of sources. And yet, throughout the last decades, an intense activity of historico-musicological research has been carried out internationally by a select group of specialized scholars. The ambitious goal of this work is to set medieval music within its historical and cultural context and to provide readers interested in different disciplines with an overall picture of music in the Middle Ages; multi-faceted, enjoyable, yet scientifically rigorous. To achieve this goal, the most prominent scholars of medieval musicology were invited to participate, along with archaeologists, experts of acoustics and architecture, historians and philosophers of medieval thought. The volume offers exceptional iconography and several maps, to accompany the reader in a fascinating journey through a network of places, cultural influences, rituals and themes.

Geometry of the Passions - Remo Bodei 2018-08-08

The passions have long been condemned as a creator of disturbance and purveyor of the temporary loss of reason, but as Remo Bodei argues in *Geometry of the Passions*, we must abandon the perception that order and disorder are in a constant state of collision. By means of a theoretical and historical analysis, Bodei interprets the relationship between passion and reason as a conflict between two complementary logics. *Geometry of the Passions* investigates the paradoxical conflict-collaboration between passions and reason, and between individual and political projects. Tracing the roles passion and reason have played throughout history, including in the political agendas of Descartes, Hobbes, and the French Jacobins, *Geometry of the Passions* reveals how passion and reason may be used as a vehicle for affirmation rather than self-enslavement.

Japanese Women Don't Get Old or Fat - Naomi Moriyama 2005-11-08

The Uses of Enchantment - Bruno Bettelheim 2010-05-11

Winner of the National Book Award and National Book Critics Circle Award "A charming book about enchantment, a profound book about fairy tales."—John Updike, *The New York Times Book Review* Bruno Bettelheim was one of the great child psychologists of the twentieth century and perhaps none of his books has been more influential than this revelatory study of fairy tales and their universal importance in understanding childhood development. Analyzing a wide range of traditional stories, from the tales of Sindbad to "The Three Little Pigs," "Hansel and Gretel," and "The Sleeping Beauty," Bettelheim shows how the fantastical, sometimes cruel, but always deeply significant narrative strands of the classic fairy tales can aid in our greatest human task, that of finding meaning for one's life.

The Ebb-Tide - Robert Louis Stevenson 2021-06-21

The Ebb-Tide (1894) is a novel by Robert Louis Stevenson and Lloyd Osbourne. Published the year of Stevenson's death from tuberculosis, the last of three collaborations between the legendary Scottish storyteller and his stepson is a story of adventure, friendship, and greed. Although less popular than other titles in Stevenson's body of work, the novel has been recognized for its pointed critique of British and

American imperialism in the South Pacific. Tossed by the waves of fate, three beggars frequent the ports of Tahiti in search of money and food for survival. When a merchant schooner devastated by smallpox docks at Papeete in need of new officers, the only men willing to take the job are Davis, Herrick, and Huish. A former sea captain, Davis takes charge of the vessel filled with crates of champagne, but soon the men find their cargo too tempting to leave untested. As the crew descends into drunkenness, Huish—the only beggar born into poverty, the only one among them who understands the value of a job—takes control of the schooner. As they near their final destination, as the men begin to worry about the missing cargo and lack of food, a plot to overthrow the officers takes form. With a beautifully designed cover and professionally typeset manuscript, this edition of Robert Louis Stevenson and Lloyd Osbourne's *The Ebb-Tide* is a classic work of adventure fiction reimagined for modern readers.

The Book of Disquiet - Fernando Pessoa
2010-12-09

Sitting at his desk, Bernardo Soares imagined himself free forever of Rua dos Douradores, of his boss Vasques, of Moreira the book-keeper, of all the other employees, the errand boy, the post boy, even the cat. But if he left them all tomorrow and discarded the suit of clothes he wears, what else would he do? Because he would have to do something. And what suit would he wear? Because he would have to wear another suit. A self-deprecating reflection on the sheer distance between the loftiness of his feelings and the humdrum reality of his life, *The Book of Disquiet* is a classic of existentialist literature.

The Comrade from Milan - Rossana Rossanda
2020-10-27

In this much-lauded memoir, acclaimed for its blend of literary elegance and political passion, Rossana Rossanda, a legendary figure on the Italian left, reflects on a life of radical commitment. Active as a communist militant in the Italian Resistance against fascism during World War Two, Rossanda rose rapidly in its aftermath, becoming editor of the Communist Party weekly paper and a member of parliament. Initially a party loyalist, she was critical of the party's conservatism in the face of new radical

movements and moved into opposition during the late 1960s. The breach widened after she and others publicly opposed the Soviet invasion of Czechoslovakia, and were expelled in 1969. She went on to help found the influential paper *il manifesto*, which remains the most critical daily in Berlusconi's Italy. Her unique experience enables her to reconstruct that period with flair and authority. She paints a revealing picture of fascism, communism, post-war reconstruction and the revolts that shook Europe in the 1960s. In *The Comrade from Milan*, one of the most influential intellectuals of the European Left relives the storms of the twentieth century. Both cool-headed and precise, Rossanda provides a rare insight into what it once meant to be politically engaged.

Caught on a Train - Carlo Gébler 2001

Diving under the sea, gasping over bewitched butter, or flying on a eagle's back to land on the moon ... Three magical tales of good and evil. Which is best? Caught in a first-class compartment, Archie, the kitchen boy on the Dublin-Achill railway, must decide a winner. A simple choice? Not all, because the sinister Mr. Cink wants to be the champion -- at any cost. *Physiologus* - 1979

One of the most popular and widely read books of the Middle Ages, "*Physiologus*" contains allegories of beasts, stones, and trees both real and imaginary, infused by their anonymous author with the spirit of Christian moral and mystical teaching. Accompanied by an introduction that explains the origins, history, and literary value of this curious text, this volume also reproduces twenty woodcuts from the 1587 version. Originally composed in the fourth century in Greek, and translated into dozens of versions through the centuries, "*Physiologus*" will delight readers with its ancient tales of ant-lions, centaurs, and hedgehogs and their allegorical significance. An elegant little book . . . still diverting to

look at today. . . . The woodcuts reproduced from the 1587 Rome edition are alone worth the price of the book.OCOOC Raymond A. Sokolov, "New York Times Book Review"

History - Elsa Morante 2015-02-24

History was written nearly thirty years after Elsa Morante and Alberto Moravia spent a year in hiding among remote farming villages in the mountains south of Rome. There she witnessed the full impact of the war and first formed the ambition to write an account of what history - the great political events driven by men of power, wealth, and ambition - does when it reaches the realm of ordinary people struggling for life and bread. The central character in this powerful and unforgiving novel is Ida Mancuso, a schoolteacher whose husband has died and whose feckless teenage son treats the war as his playground. A German soldier on his way to North Africa rapes her, falls in love with her, and leaves her pregnant with a boy whose survival becomes Ida's passion. Around these two other characters come and go, each caught up by the war which is like a river in flood. We catch glimpses of bombing raids, street crimes, a cattle car from which human cries emerge, an Italian soldier succumbing to frostbite on the Russian front, the dumb endurance of peasants who have lived their whole lives with nothing and now must get by with less than nothing.

Forbidden Harbor - Teresa Radice 2019-09-15

In the summer of 1807, the Explorer, a ship from Her Majesty's Navy recovers a young shipwreck off the coast of Siam, Abel, who can only remember his name. He soon becomes friends with the first officer, acting as a captain because the commander of the ship has apparently absconded with the ship's treasure. Abel returns to England with the Explorer and finds accommodation at the inn run by the three fugitive captain's daughters. Well before he can recover his memory, however, he will discover something deeply disturbing about himself, and he will understand the true nature of some of the people who helped him. A haunting and intense book that digs into the soul of the protagonists as well as the reader, with a generous helping of good ol' fashioned salty adventure along with many a shanty sung and a sprinkling of magic dust. Presented in a handsome old style, with a worn-looking hardcover, as if taken from a ship

captain's library. An uplifting, enthralling escape.

The High Medieval Dream Vision - Kathryn Lynch 1988-06-01

In the High Middle Ages, the dream narrative was an enormously popular and influential form. Along with the romance, it was perhaps the genre of the age. It has come down to us in such classics twelfth to fourteenth-century classics as *The Divine Comedy*, the *Romance of the Rose*, *Piers Plowman*, Chaucer's early poetry, and the works of Guillaume de Machaut. This book redefines the dream vision by attending to its role in philosophical debate of the time, a conservative role in defense of the high medieval synthesis of reason and revelation. Lynch shows how the epistemological basis of this synthesis and the theories of visions that emerged from it drew on Arabic commentaries of Aristotle. These theories informed poetic visions modeled on Boethius's *Consolation of Philosophy*, a work she discusses in detail before turning to Alain de Lille, Jean de Meun, and Dante. A final section, on John Gower's *Confessio Amantis* shows how fourteenth and fifteenth-century writers extended and finally moved beyond the conventional form of the dream vision.

The Wall of the Earth - Giorgio Caproni 1992

"The work of Giorgio Caproni has been translated into French, German, and Chinese, among others, but this collection is his first book-length English publication. His works are finely tuned to modern man's preoccupations with existence in a world deprived of certainties (for example, the existence or inexistence of God). Most are touched by experiences such as the Second World War and its atrocities, the Resistance Movement, or the death of loved ones, events that represent the conviction of a subject that will do its best to survive all adversity, uncompromised" -- from the Introduction by Pasquale Verdicchio

The Flavors of Modernity - Gian-Paolo Biasin

2017-03-14

From Rabelais's celebration of wine to Proust's madeleine and Virginia Woolf's boeuf en daube in *To the Lighthouse*, food has figured prominently in world literature. But perhaps nowhere has it played such a vital role as in the Italian novel. In a book flowing with descriptions of recipes, ingredients, fragrances, country gardens, kitchens, dinner etiquette, and even hunger, Gian-Paolo Biasin examines food images in the modern Italian novel so as to unravel their function and meaning. As a sign for cultural values and social and economic relationships, food becomes a key to appreciating the textual richness of works such as Lampedusa's *The Leopard*, Manzoni's *The Betrothed*, Primo Levi's *Survival in Auschwitz*, and Calvino's *Under the Jaguar Sun*. The importance of the culinary sign in fiction, argues Biasin, is that it embodies the oral relationship between food and language while creating a sense of materiality. Food contributes powerfully to the reality of a text by making a fictional setting seem credible and coherent: a Lombard peasant eats polenta in *The Betrothed*, whereas a Sicilian prince offers a monumental macaroni timbale at a dinner in *The*

Leopard. Similarly, Biasin shows how food is used by writers to connote the psychological traits of a character, to construct a story by making the protagonists meet during a meal, and even to call attention to the fictionality of the story with a metanarrative description. Drawing from anthropology, psychoanalysis, sociology, science, and philosophy, the author gives special attention to the metaphoric and symbolic meanings of food. Throughout he blends material culture with observations on thematics and narrativity to enlighten the reader who enjoys the pleasures of the text as much as those of the palate.
