The Colors of Clay - Beth Cohen 2006

"The catalogue ... is truly excellent and makes an important contribution to the study of Greek Art." --Bryn Mawr Classical Review "An overwhelming volume. The subject matter ... is described in great detail in nine chapters. Essential." --Choice This catalogue documents a major exhibition at the Getty Villa that was the first ever to focus on ancient Athenian terracotta vases made by techniques other than the well-known black- and red-figure styles. The exhibition comprised vases executed in bilingual, coral-red gloss, outline, Kerch-style, white ground, and Six's technique, as well as examples with added clay and gilding, and plastic vases and additions. The Colors of Clay opens with an introductory essay that integrates the diverse themes of the exhibition and sets them within the context of vase making in general; a second essay discusses conservation issues related to several of the techniques. A detailed discussion of the techniques featured in the exhibition precedes each section of the catalogue. More than a hundred vases from museums in the United States and Europe are described in depth.

Dynamics of Power in Dutch Integration Politics - Justus Uitermark
2012-09-01

De manier waarop integratie, moslims en minderheden werd besproken en bestuurd veranderde drastisch tussen 1990 en 2005. Maar hoe veranderde het integratiedebat precies, en waarom? En hoe werkten die veranderingen door in het beleid van steden als Amsterdam en Rotterdam? Dit boek gebruikt nieuwe methodes en data om die vragen te beantwoorden. Een analyse van opinieartikelen laat zien dat culturalisten (debatdeelnemers die stellen dat onze 'verlichte', 'liberale', Nederlandse cultuur moet worden beschermd tegen etnische en Islamitische minderheidsculturen) hechtere relaties onderhouden en meer achter hun leiders staan dan hun (talrijke maar gefragmenteerde) tegenstanders. De veranderende machtsverhoudingen in het debat blijken niet één op één door te werken in het lokale beleid. In de periode dat Leefbaar Rotterdam de gemeenteraad domineerde (2002-2006) zijn migrantenorganisaties over de hele linie eerder versterkt dan verzwakt.

Pucker Free Seams - Prabir Jana & Y P Garg 2020-06-01

Pucker or Puckering is the most used (abused?) term in the garment manufacturing industry. Pick up any quality controllers report, and the first thing that will strike your eye will be "...Puckering in armhole, ...Puckering in neckline binding, ...control Puckering in bottom hem..." the list is endless. Buying office quality controllers are as enamoured of this term as much as manufacturers abhor it. What is it that makes it so distasteful? Why does it occur? How can it be controlled? While there are numerous leaflets, documents and articles available on pucker, we have found that the majority of them lay great stress on "inherent pucker" (only material parameters). In this booklet have tried to include process parameters as well as sewing of lightweight fabrics. All said and done, the problem is so intricately interdependent that exhaustive compilation is well nigh impossible. We are sure this booklet will help manufacturers to understand the rationale behind this publication and we will consider our effort successful if enthusiastic readers regularly inform us about newer methods to tackle the problem.

Water+Ink Coloring Book Winter 2020 - Kim Winberry 2019-07-22

I begin my paintings with a sketch and application of colorful/bright pigment and water to the paper. I disrupt the blends with salt or water, watching as one color blossoms in water, as another color starts to travel across the paper. I utilize India Ink to demarcate changes, also adding swirls other artifacts, in the aim to achieve whimsy. My coloring books are my paintings! I run the paintings through filters and drop the color from them, leaving the lines so that you can add your own color. But wait, there's more... I've added an Augmented Reality component to this. Wonder what colors I used for that piece in the corner there? Take out your phone, download the Zappar app from your app store and "zap" the code. What happens? At the very least an image of the original painting will pop up and you can see what it looks like, side by side with the coloring page. Beyond that, you'll meet Mist, my liaison to the AR world. She will be a recurring character in all my AR work. Stay tuned and enjoy.

The participating artists are B Team, Conrad Bakker, Nick Cave, Cat Chow, Sonya Clark, Gabriel Craig, Theaster Gates, Cynthia Giachetti, Ryan Gothrup, Sabrina Gschwandtner, Lauren Kalman, Christy Matson, James Melchert, Yuka Otani, Sheila Pepe, Michael Rea, Anne Wilson, Saya Woolfalk, and Bohyun Yoon.

Writing Tricksters - Jeanne Rosier Smith 2022-07-15

Writing Tricksters examines the remarkable resurgence of tricksters—ubiquitous shape-shifters who dwell on borders, at crossroads, and between worlds—on the contemporary cultural and literary scene. Depicting a chaotic, multilingual world of colliding and overlapping cultures, many of America's most successful and important women writers are writing tricksters. Taking up works by Maxine Hong Kingston, Louise Erdrich, and Toni Morrison, Jeanne Rosier Smith accessibly weaves together current critical discourses on marginality, ethnicity, feminism, and folklore, illuminating a "trickster aesthetic" central to non-Western storytelling traditions and powerfully informing American literature today. This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, Voices Revived makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1997.
