Itinéraire de Paris À Jérusalem (English Edition)

- François-René de Chateaubriand 2015-11-01
Itinéraire de Paris à Jérusalem
- François-René de Chateaubriand. A translation into English by A. S. Kline. Published with selected illustrations. Chateaubriand set out on his travels to the Middle East in the summer of 1806, returning via Spain in 1807.

His trip was ostensibly to provide background material for his work *Les Martyrs*, a Christian epic in prose, but may also have helped to resolve certain problems in his private life. He travelled to Greece and Constantinople on his way to Jerusalem, returning through Egypt, Tunisia and Spain. His record of the journey often contrasts the meagre contemporary state of

civilisation in Greece, Turkey and the Holy Land with the richness of classical antiquity and the Christian past. While not purporting to offer fresh archaeological evidence, he established a 'tourist route' through that antiquity which many other travellers would follow. He was, in his own words, "...in some ways the last visitor to the Turkish Empire in its previous form" before the progressive revolutions of the Eastern Question gradually weakened Ottoman control. As always, Chateaubriand enriches his narrative with extensive quotations and vivid moral and philosophical perceptions, to create a colourful and resonant self-portrait of the intelligent wealthy European traveller, in touch with the ancient world through Christian and Classical writers, and dismayed by the present but stimulated and inspired by the past. His account of Jerusalem is fascinating, and he was one of the last travellers to visit the Church of the Holy Sepulchre before the damaging fire of

1808. This new, modern translation conveys the verve and flow of his narrative while, for the first time, identifying within the text all the quotations and sources of Chateaubriand references. Despite the estimation of Cardinal de Bausset, formerly Bishop of Alais, that Chateaubriand was "...the first and only traveller who has no need of etchings and drawings to bring places and monuments which recall beautiful memories and grand images before his readers' eyes" this new edition also collates a selection of engravings and lithographs from nineteenth-century travelogues by celebrated artists such as Edward Dodwell Esq, F.S.A, Thomas Allom Esq, William Henry Bartlett, David Roberts R.A. and Louis Haghe. Silent Majorities (1978) may be the most important sociopolitical manifesto of the twentieth century: it calls for nothing less than the end of both sociology and politics. Disenfranchised revolutionaries (the Red Brigades, the Baader-Meinhof Gang) hoped to reach the masses directly through spectacular actions, but their message merely played into the hands of the media and the state. In a media society meaning has no meaning anymore; communication merely communicates itself. Jean Baudrillard uses this last outburst of ideological terrorism in Europe to showcase the end of the "Social." Once invoked by Marx as the motor of history, the masses no longer have sociological reality. In the electronic media society, all the masses can do--and all they will do--is enjoy the spectacle. In the Shadow of the Silent Majorities takes to its ultimate conclusion the "end of ideologies" experienced in Europe after the Soviet

invasion of Hungary and the death of revolutionary illusions after May 1968. Ideological terrorism doesn't represent anything anymore, writes Baudrillard, not even itself. It is just the last hysterical reaction to discredited political illusions.

The Changing Soul of Europe - Helena Vilaça
2016-03-23

This book paves the way for a more enlarged discussion on religion and migration phenomena in countries of Northern and Southern Europe. From a comparative perspective, these are regions with very different religious traditions and different historical State/Church relations. countries, levels of secularization are higher. In the last decades, both Northern and Southern Europe have received strong flows of newcomers. From this perspective, the book presents through various theoretical lenses and empirical researches the impact mobility and consequent religious transnationalism have on multiple aspects of culture and social life in societies where the religious landscapes are increasingly diverse. The chapters demonstrate that we are dealing with complex scenarios: different contexts of reception, different countries of origin, various ethnicities and religious traditions (Catholics, Orthodox and Evangelical Christians, Muslims, Buddhists). Having become plural spaces, our societies tend to be far more concerned with the issue of social integration rather than with that of social identities reconstruction in society as a whole, often ignoring that today religion manifests itself as a plurality of religions. In

short, what are the implications of newcomers for the religious life of Europe and for the redesign of its soul?

The Rule of Law in the Real
World - Paul Gowder
2016-02-09

In *The Rule of Law in the Real World*, Paul Gowder defends a new conception of the rule of law as the coordinated control of power and demonstrates that the rule of law, thus understood, creates and preserves social equality in a state. In a highly engaging, interdisciplinary text that moves seamlessly from theory to reality, using examples ranging from Ancient Greece through the present, Gowder sheds light on how societies have achieved the rule of law, how they have sustained it in the face of political upheaval, and how it may be measured and developed in the future. *The Rule of Law in the Real World* is an essential work for scholars, students, policymakers, and anyone else who believes the rule of law is critical to the proper functioning of society.

Space and the Postmodern

**Fantastic in Contemporary
Literature** - Patricia Garcia
2015-04-24

Arising from the philosophical conviction that our sense of space plays a direct role in our apprehension and construction of reality (both factual and fictional), this book investigates how conceptions of postmodern space have transformed the history of the impossible in literature. Deeply influenced by the work of Jorge Luis Borges and Julio Cortázar, there has been an unprecedented rise in the number of fantastic texts in which the impossible is bound to space — space not as scene of action but as impossible element performing a fantastic transgression within the storyworld. This book conceptualizes and contextualizes this postmodern, fantastic use of space that disrupts the reader's comfortable notion of space as objective reality in favor of the concept of space as socially mediated, constructed, and conventional. In an illustration of the transnational nature of

this phenomenon, García analyzes a varied corpus of the Fantastic in the past four decades from different cultures and languages, merging literary analysis with classical questions of space related to the fields of philosophy, urban studies, and anthropology. Texts include authors such as Julio Cortázar (Argentina), John Barth (USA), J.G. Ballard (UK), Jacques Sternberg (Belgium), Fernando Iwasaki (Perú), Juan José Millás (Spain,) and Éric Faye (France). This book contributes to Literary Theory and Comparative Literature in the areas of the Fantastic, narratology, and Geocriticism and informs the continuing interdisciplinary debate on how human beings make sense of space.

The End of the Spanish Empire, 1898-1923 - Reader in Contemporary Spanish Studies Lse Sebastian Balfour 1997

This is an account of Spain's disastrous war with the United States in 1898, in which she lost the remnants of her old empire. The book also analyzes the ensuing political and social crisis in Spain from the loss of empire, through World War I, to the military coup of 1923.

Is all human behavior based on self-interest? Many social and biological theories would argue so, but such a perspective does not explain the many truly heroic acts committed by people willing to risk their lives to help others. Kristen Monroe boldly lays the groundwork for a social theory toward altruism by examining the experiences described by altruists themselves.

Deadly Embrace - Sebastian Balfour 2002

'Deadly Embrace is not only a well-written and thoroughly documented book but also a necessary and vital contribution to the study of the turbulent and often violent first four decades of twentieth century Spain.' -Francisco J. interpretations of figures obscured by their reputations... he offers an important interpretative revision of the bulk of the campaigns of 1924-27 against Abdel Krim and his 'Republic of the Rif', underlining the calculated use of poisonous gases... his argument is innovative and very convincing.' -Enric Ucelay-Da Cal, Times Literary Supplement

Drawing on documents buried in archives for decades and interviews with war veterans, some over 100 years old, Sebastian Balfour demolishes traditional interpretations of the Spanish colonial and civil wars. Throwing fresh light on military cultures, racism, and the experience of the soldier in war, from the early twentieth century to the 1930s, he reveals the extraordinary brutality of the colonial war in Morocco and the export of that brutality to Spain in the Civil War. Above all the author exposes for the first time the story of the chemical warfare waged by Spain against Moroccans resisting the

invasions of their lands.

The Conquerors - André Malraux 1992

The Conquerors describes the struggle between the Kuomintang and the Communists in the Cantonese revolution of the 1920s. It is both an exciting war story and a gallery of intellectual portraits: a ruthless Bolshevik revolutionary, a disillusioned master of propaganda, a powerful Chinese pacifist, and a young anarchist. Each of these "conquerors" will be crushed by the revolution they try to control. In a new Foreword, Herbert R. Lottman discusses the political background of the book, and the extent to which Malraux invented the history he wrote about. "[The Conquerors] is a valuable introduction to Malraux himself, who would, like his fictional counterpart, become an amalgam of talents as novelist, essayist, Leftist and Gaullist, Resistance hero and art critic. He was among the most 'universal' of French men of letters."—Choice "The novel can be enjoyed as a remarkable

Pragmatic Justifications for the Sustainable City - Meg Holden 2017-03-16

What can justice and sustainability mean, pragmatically speaking, in today's cities? Can justice be the basis on which the practices of city building rely? Can this recognition constitute sustainability in city building, from a pragmatic perspective? Today, we are faced with a mountain of reasons to lose hope in any prospect of moving closer to justice and sustainability from our present position in civilization.

Pragmatic Justifications for the

Sustainable City: Acting in the Common Place offers a critical and philosophical approach to reevaluating the way in which we think and talk about the "sustainable city" to ensure that we neither lose the thread of our urban history, nor the means to live well amidst diversity of all kinds. By building and rebuilding better habits of urban thinking, this book promotes the reconstruction of moral thinking, paving the way for a new urban sustainability model of justice. Utilizing multidisciplinary case studies and building upon anti-foundationalist principles, this book offers a pragmatic interpretation of sustainable development concepts within our emerging global urban context and will be a valuable resource for both undergraduate and postgraduate students, as well as academics and professionals in the areas of urban and planning policy, sociology, and urban and environmental geography.

The Hatred of Music - Pascal Quignard 2016-03-28

Throughout Pascal Quignard's distinguished literary career, music has been a recurring obsession. As a musician he organized the International Festival of Baroque Opera and Theatre at Versailles in the early 1990s, and thus was instrumental in the rediscovery of much forgotten classical music. Yet in 1994 he abruptly renounced all musical activities. The Hatred of Music is Quignard's masterful

exploration of the power of music and what history reveals about the dangers it poses. From prehistoric chants to challenging contemporary compositions, Quignard reflects on music of all kinds and eras. He draws on vast cultural knowledge—the Bible, Greek mythology, early modern history, modern philosophy, the Holocaust, and more—to develop ten accessible treatises on music. In each of these small masterpieces the author exposes music’s potential to manipulate, to mesmerize, to domesticate. Especially disturbing is his scrutiny of the role music played in the concentration camps of Nazi Germany. Quignard’s provocative book takes on particular relevance today, as we find ourselves surrounded by music as never before in history.

A Comparative History of Literatures in the Iberian Peninsula - Fernando Cabo Aseguinolaza 2010-05-26
A Comparative History of Literatures in the Iberian Peninsula is the second comparative history of a new subseries with a regional focus, published by the Coordinating Committee of the International Comparative Literature Association. As its predecessor for East-Central Europe, this two-volume history distances itself from traditional histories built around periods and movements, and explores, from a comparative viewpoint, a space considered to be a powerful symbol of inter-literary relations. Both the geographical pertinence and its symbolic condition are obviously discussed, when not even contested. Written by an international team of

researchers who are specialists in the field, this history is the first attempt at applying a comparative approach to the plurilingual and multicultural literatures in the Iberian Peninsula. The aim of comprehensiveness is abandoned in favor of a diverse and extensive array of key issues for a comparative agenda. *A Comparative History of Literatures in the Iberian Peninsula* undermines the primacy claimed for national and linguistic boundaries, and provides a geo-cultural account of literary inter-systems which cannot otherwise be explained. **Nouveau Larousse illustré** - Pierre Larousse 1898

The Diffusion of Social Movements - Rebecca Kolins

Givan 2010-07-19

It is widely recognized that social movements may spread - or 'diffuse' - from one site to another. Such diffusion, however, is a complex and multidimensional process that involves different actors, networks, and mechanisms. This complexity has spawned a large body of literature on different aspects of the diffusion process, yet a comprehensive framework remains an elusive target. This book is a response to that need, and its framework focuses on three basic analytical questions. First, what is being diffused? Second, how does diffusion occur? Finally, what is the impact of diffusion on organizational development and shifts in the scale of contentious politics? This volume suggests that diffusion is not a simple matter of political contagion or imitation; rather, it is a creative and strategic process marked by political learning, adaptation, and innovation.

Sovjetregisseur en filmtheoreticus Sergei M. Eisenstein werkte in 1946 en 1947 een jaar voor zijn dood aan een algemene geschiedenis van de cinema. De manier waarop hij de geschiedschrijving van de cinema benadert, is tegelijk fascinerend in haar ambitie en uiterst modern in haar methode. Eisenstein presenteert hier een virtuele wereldkaart van alle aan de bioscoop gerelateerde media, en ontwikkelt op hetzelfde moment een methode voor het schrijven van een geschiedenis die net als de cinema is gebaseerd op montage. De teksten van Eisenstein worden begeleid door een reeks kritische essays, geschreven door enkele van 's werelds meest gekwalificeerde Eisensteinkenners.

Toxic Loopholes - Craig Collins
2010-03-08

The EPA was established to enforce the environmental laws Congress enacted during the 1970s. Yet today lethal toxins still permeate our environment, causing widespread illness and

even death. Toxic Loopholes investigates these laws, and the agency charged with their enforcement, to explain why they have failed to arrest the nation's rising environmental crime wave and clean up the country's land, air and water. This book illustrates how weak laws, legal loopholes and regulatory negligence harm everyday people struggling to clean up their communities. It demonstrates that our current system of environmental protection pacifies the public with a false sense of security, dampens environmental activism, and erects legal barricades and bureaucratic barriers to shield powerful polluters from the wrath of their victims. After examining the corrosive economic and political forces undermining environmental law making and enforcement, the final chapters assess the potential for real improvement and the possibility of building cooperative international agreements to confront the rising tide of ecological perils threatening the entire planet.

Objectivity in Journalism -

studies, and has been the
subject of intensive historical

the first study of its kind,
Steven Maras surveys the
different viewpoints and
perspectives on objectivity.
Going beyond a denunciation

arguments made in the area.
Structured around key
questions, the book considers
the origins and history of
objectivity, its philosophical
influences, the main objections

discussion to include

Democratic Deconsolidation in

Southeast Asia - Marcus Mietzner 2021-05-31

In 2016, Freedom House recorded the eleventh consecutive year of declining democratic freedoms, adding material to the growing political science literature on a global democratic recession. Southeast Asia is no exception in this regard. During the last decade, one previously democratic country experienced a full democratic reversal (Thailand), another has seen the rise of a populist with openly neo-authoritarian tendencies (the Philippines) and yet another has begun a slow but perceptible process of democratic deconsolidation (Indonesia). At the same time, semi-authoritarian regimes such as Singapore and Malaysia have defied predictions of a possible democratic trajectory and the fully authoritarian regimes of Vietnam, Laos and Brunei have firmly held on to power. Initially hopeful democratic transitions, finally, have ended either in autocracy (Cambodia) or in uncertainty (Myanmar).

What explains this failure of democratization efforts in Southeast Asia? Why have autocracies proved so resistant to democratic opening? And what can the Southeast Asian experience tell us about the drivers of the global democratic recession.

Impossible Exchange - Jean Baudrillard 2012-01-16

Working his way through the various spheres and systems of everyday life—the political, the juridical, the economical, the aesthetic, the biological, among others—he finds that they are all characterized by the same non-equivalence, and hence the same eccentricity. Literally, they have no meaning outside themselves and cannot be exchanged for anything. Politics is laden with signs and meanings, but seen from the outside it has no meaning. Schemes for genetic experimentation and investigation are becoming infinitely ramified, and the more ramified they become the more the crucial question is left unanswered: who rules over life? death? Baudrillard's conclusion is that the true formula of contemporary nihilism lies here: the nihilism of value itself. This is our fate, and from this stem both the happiest and the most baleful consequences. This book might be said to be the exploration, first, of the 'fateful' consequences, and subsequently—by a poetic transference of situation—of the fortunate, happy consequences of impossible exchange.
