-First critical examination of the history of Portuguese art jewelry -Includes many interviews with artists -Accompanies an exhibition at Museu Calouste Gulbenkian, Lisbon, 19 July - 16 September 2019 In this book, Cristina Filipe offers a critical examination, from a social and art historical perspective, of some of the artists and contexts that contributed to the transformations in Portuguese jewelry from the vanguard of the 1960s to the early twenty-first century - a decisive period in which the term 'jewelry' itself was redefined. In addition, Contemporary

Jewellery in Portugal contextualizes the international scene, reflecting on how Portuguese artists responded to these external influences. What jewelry was made? Who made it? What were the underlying trends and creative references? These are some of the questions that this book seeks to answer through the analysis of artist interviews and exhaustive factual research, accompanied by a visual narrative mirroring the changes in contemporary jewelry in Portugal.

**Memoirs of a Book Thief** - 2019-04-11

Paris in the 1950s: the reign of Sartre and existentialism. Daniel Brodin--bibliophile, book thief, self-proclaimed poet--enters the heated atmosphere of the Cafe Serbier, home of the Parisian literati. A poetry night is taking place and, when one luminary suggests giving the floor to an unknown, Daniel impulsively puts himself forward. Under pressure, he recites not one of his own surrealist poems but an obscure piece of Italian verse he's certain no one will know. It's plagiarism--but it's a triumph. At last, success. Daniel's recital marks his entrance into the Parisian avant-garde: a band of cultured rogues and pseudo-revolutionaries for whom life is a playground for art, and planning a robbery has as much value as writing a book. In this milieu, the wine is good and the girls are beautiful. But can success last if it is founded on plagiarism and theft?

**The Rejection of Consequentialism** - Samuel Scheffler 1994-08-11

In contemporary philosophy, substantive moral theories are typically classified as either consequentialist or deontological. Standard consequentialist theories insist, roughly, that agents must always act so as to produce the best available outcomes overall. Standard deontological theories, by contrast, maintain that there are some circumstances where one is permitted but not required to produce the best overall results, and still other circumstances in which one is positively forbidden to do so. Classical utilitarianism is the most familiar consequentialist view, but it is widely regarded as an inadequate account of morality. Although Professor Scheffler agrees with this assessment, he also believes that consequentialism seems initially plausible, and that there is a persistent air of paradox surrounding typical deontological views. In this book, therefore, he undertakes to reconsider the rejection of consequentialism. He argues that it is possible to provide a rationale for the view that agents need not always produce the best possible overall outcomes, and this motivates one departure from consequentialism; but he shows that it is surprisingly difficult to provide a satisfactory rationale for the view that there are times when agents must not produce the best possible overall outcomes. He goes on to argue for a hitherto neglected type of moral conception, according to which agents are always permitted,

but not always required, to produce the best outcomes.

**Attack on Titan: Kuklo Unbound** - Ryo Suzukaze 2018-12-04

A prequel to the blockbuster Attack on Titan series, Before the Fall is a three volume young adult fiction fantasy novel series set years before the events that transpire with Eren and Mikasa. Together, the second and third volumes of Before the Fall are yet another prequel story and they are for the most part separate from the story of Angel and Wall Maria. In this collection we are introduced to a new character, Kuklo, who was found as a baby crying in a mass of Titan vomit, amidst the dead titan corpses. He is called "a child of titan" and is essentially hated by the people inside the walls. Kuklo, despite his horrible beginnings and a single-functioning eye, also seems to grow unnaturally fast. He parts himself from his past and gambles on the fate of humanity by enlisting in the Survey Corps. This group functions primarily outside of the safety of the walls. And here with his strength and determination Kuklo survives and thrives. But to accomplish this he gets his hands on the Vertical Maneuvering Equipment. Although the gear is still imperfect and causes a troublesome incident for Kuklo, he fights the titans. Whether it is because it is his fate to fight them, or it is because of his past, he fights against them.
