The Historical Archaeology of Virginia from

Initial Settlement to the Present - Clarence
R. Geier 2017-02-10

The book includes six chapters that cover
Virginia history from initial settlement through

the 20th century plus one that deals with the important role of underwater archaeology. Written by prominent archaeologists with research experience in their respective topic areas, the chapters consider important issues of Virginia history and consider how the discipline of historic archaeology has addressed them and needs to address them . Changes in research strategy over time are discussed , and recommendations are made concerning the need to recognize the diverse and often differing roles and impacts that characterized the different regions of Virginia over the course of its historic past. Significant issues in Virginia history needing greater study are identified.

Tourism - Roy A.. Cook 2013-11-01

This title views the tourism industry from a business perspective - examining the management, marketing and finance issues most important to industry members. Chapters reveal an integrated model of tourism and address consumer behaviour, service quality and

personal selling. Readings and integrative cases close each part and end-of-chapter exercises offer application activities for students.

Cape Gelidonya: a Bronze Age Shipwreck - George Fletcher Bass 1967

King of the Mississippi - Mike Freedman
2019-07-09

A biting, hilarious literary satire of war, business, and contemporary masculinity, set in the cutthroat-but-ridiculous world of management consulting *King of the Mississippi* is an incisive, uproarious dissection of contemporary male vanity and delusion, centered around a "war" for dominance of a prestigious Houston consulting firm. On one side of the conflict is Brock Wharton, an old money ex-jock whose delight in telling clients to downsize is matched only by his firm conviction that people like himself deserve to run the world. On the other is Mike Fink, a newly hired wily former soldier trying to ride his veteran

status to the top of a corporate world that lionizes "the troops" without truly understanding them. Brock and Mike are mortal enemies on sight, bitterly divided not only by background and class but by diametrically opposed (yet equally delusional) visions of what it means to "be a man." And as their escalating conflict spirals out of control, it will take them all the way from the hidebound boardrooms and gladiatorial football fields of Texas to the vapid and self-serving upper echelon of Silicon Valley, to the corporatized battlefield of Iraq, all the while serving as a ruthlessly funny takedown of the vacuity and empty machismo of corporate life and alpha-male culture in modern America. Devastatingly witty, unapologetically scathing, and ultimately surprisingly moving, King of the Mississippi marks the arrival of a unique and scintillating new voice in American fiction, one that boldly punctures the myths of American manhood like no one has since the heyday of *The Bonfire of the Vanities* and *American Psycho*.

The Bomb Vessel Granado 1742 - Peter Goodwin 2005-04-21

The 'Granado' was one of twelve bomb vessels built to supplement the British fleet at the outbreak of the War Of Jenkins' Ear in 1739.

Bomb vessels were a specialization of the warship into a 'floating siege engine', carrying huge shell-firing mortars for the purpose of bombarding stationary targets. This volume is of special use to both the scratch-build modeller and the reader of C.S.Forester who wants to know more about bomb vessels. It also provides insights about Jack Aubrey's first command, since the Sophie was also a 14 gun brig-sloop with a quarterdeck and stern windows. The aim of this book is to provide the finest documentation of this important and unusual vessel type ever produced, through a complete set of superbly executed line drawings offering enthusiasts a novel insight into ship design and construction. It includes a service and design history and a pictorial section emphasising close-up and on-board photographs.

Orreries, Clocks, and London Society - Tony Buick 2021-01-24

Orreries—mechanical models of the Solar System and its motions—are found everywhere. They appear in paintings, on computers, across natural landscapes, and in museums all over the world. The more you look, the more you find, yet their significance is often overlooked aside other great astronomical inventions. This book reclaims the history of the orrery, offering a fascinating look into its evolution over the centuries. With a particular focus on London society and clockmakers, it weaves together historical narrative with practical know-hows and scientific fact, showing how the orrery changed from a fanciful toy to a high-tech instrument to a vessel for art and education. The first edition, *Orrery*, explained what an orrery is

and how it got its name. This revised edition goes several steps further, tracing the instrument back to the time of Ptolemy and forward to planetariums and star projectors. In addition, it features new sections on how to construct your own orrery at home. This book will appeal to anybody interested in astronomical mechanical devices, scientific instruments, horology, or the history of clocks.

PT Boats at War - Norman Polmar 1999

A study of the development, construction and use, by the United States Navy, of patrol boats as attack vessels and torpedo launchers. It charts their military career from the Second

World War, through the Vietnam War up to and including the boats' retirement due to advances in missile technology.

The Business of Tourism - J. Christopher Holloway 1983

Maritime Archaeology - Lawrence E. Babits 2013-11-11

This volume initiates a new series of books on maritime or underwater archaeology, and as the editor of the series I welcome its appearance with great excitement. It is appropriate that the first book of the series is a collection of articles intended for graduate or undergraduate courses in underwater archaeology, since the growth in academic opportunities for students is an important sign of the vitality of this subdiscipline. The layman will enjoy the book as well. Academic and public interest in shipwrecks and other submerged archaeological sites is indicated by a number of factors. Every year there are 80 to 90 research papers presented at

the Society for Historical Archaeology's Conference on Historical and Underwater Archaeology, and the Proceedings are published. Public interest is shown by extensive press coverage of shipwreck investigations. One of the most important advances in recent years has been the passage of the Abandoned Shipwreck Act of 1987, for the first time providing national-level law concerning underwater archeological sites. The legislation has withstood a number of legal challenges by commercial treasure salvors, a very hopeful sign for the long-term preservation of this nonrenewable type of cultural resource. The underwater archaeological discoveries of 1995 were particularly noteworthy. The Texas Historical Commission discovered the Belle, one of La Salle's ships, and the CSS Hunley was found by a joint project of South Carolina and a private nonprofit organization called NUMA.

Memlinc - Hans Memling 1905

Guide to the Winterthur Library - Joseph Downs Collection of Manuscripts & Printed Ephemera 2003

This guide to the Joseph Downs Collection of Manuscripts and Printed Ephemera, named for Winterthur's first curator, provides descriptive information for the primary research material held in the collection. The Downs Collection acquires materials from the mid seventeenth century through the twentieth century that document American lifestyles, concentrating on the domestic scene and activities within the household and art. It includes such items as diaries, business accounts of craftsmen whose products decorated dwelling houses, family papers, tax records, construction of homes, artists' sketchbooks, wills and household inventories, children's toys and games, and scrapbooks and journals. Items from individuals famous in American history rest alongside materials from people who led routine lives yet still contributed to the development of America.

An extensive microform collection, including copies of material owned by other public repositories and private individuals, supplements the manuscript holdings.

Hardcover is un-jacketed.

The Ancestral Power of Amulets, Talismans, and Mascots - Nigel Pennick 2021-05-04

- Looks at the age-old spiritual principles, folklore, and esoteric traditions behind the creation of magical objects as well as the use of numbers, colors, sigils, geometric emblems, knots, crosses, pentagrams, and other symbols • Explores hundreds of artifacts, such as hagstones, Norse directional amulets, car hood

mascots, objects made from bones and teeth, those connected with plants and animals, charms associated with gambling, and religious relics • Includes photos of artifacts from the author's extensive collection Offering an illustrated exploration of the origins and history of amulets, lucky charms, talismans, and mascots, including photos of unique and original artifacts from his extensive collection, Nigel Pennick examines these objects from a magical perspective, from ancient Egypt to the present. He looks at the age-old spiritual principles, folklore, and esoteric traditions behind their creation as well as the use of numbers, colors, sigils, geometric emblems, knots, crosses, pentagrams, and other symbols. Pennick explores magical charms and objects manufactured from bones, teeth, claws, and horns and those that include symbols of the human body. He also discusses religious relics as well as the combining of charms to make more powerful objects, from the bind runes of

the Norse and the crowns of ancient Egypt to the Mojo hand and the medicine pouch. Revealing the lasting power of amulets, talismans, charms, and mascots, Pennick shows that these objects and symbols have retained their magic across the centuries.

Greyhounds of the Sea - Carl C. Cutler 1984

Patrol and Rescue Boats on Puget Sound - Chuck Fowler 2011

The history of impressive battleships, aircraft carriers, and submarines on Puget Sound has been well chronicled. However, the story of the smaller, fast patrol and rescue boats that have protected its vast inland waters is largely unknown. This book, through more than 200 rare images and engaging text, reveals the fascinating story. It covers Navy, Coast Guard, and Army Air Force craft in the sound, including the famed patrol torpedo boats of World War II. Featuring evocative photographs from the National Archives, as well as veterans' personal collections, this book highlights these military craft, their proud crews, and essential wartime and peacetime operations.

Moments of Grace - Laurie Blefeld 2018-04-18
Sharing our stories, who we are, what we love, how we feel, why we fear, connects us to one another. Weaving moments of grace with spiritual practices that have grounded her through life's challenges, Laurie Blefeld invites the reader into her sacramental stories. You will find yourself in Laurie's stories and reclaim bits and pieces of your own. "Our days are a stream of moments - some devastating, some down to earth and some filled with ineffable meaning. Laurie Blefeld has written a book full of tender moments that warm the heart and remind us to be grateful for and conscious of how laced with grace our lives really are. This is a book to enjoy and treasure."-Gunilla Norris, author of *Sheltered in the Heart and Companions on the Way: A Little Book of Heart-full Practices* "Laurie's transformational stories, told in her authentic and lyrical voice, are evocative of the highs and lows in everyone's life. Laurie's generous prose connects us to her family's living

history - and through it to our own. She is a natural spiritual teacher. Moments of Grace is luminous, warm, comforting and filled with such good practices."- Dr. Joan Borysenko, from the Foreword

California on Stone - Harry Twyford Peters 1976

La Belle - James E. Bruseth 2017-03-03

In 1995, Texas Historical Commission underwater archaeologists discovered the wreck of La Salle's La Belle, remnant of an ill-fated French attempt to establish a colony at the mouth of the Mississippi River that landed instead along today's Matagorda Bay in Texas. During 1996-1997, the Commission uncovered the ship's remains under the direction of archaeologist James E. Bruseth and employing a team of archaeologists and volunteers. Amid the shallow waters of Matagorda Bay, a steel cofferdam was constructed around the site, creating one of the most complex nautical archaeological excavations ever attempted in

North America and allowing the archaeologists to excavate the sunken wreck much as if it were located on dry land. The ship's hold was discovered full of everything the would-be colonists would need to establish themselves in the New World; more than 1.8 million artifacts were recovered from the site. More than two decades in the making, due to the immensity of the find and the complexity of cataloging and conserving the artifacts, this book thoroughly documents one of the most significant North American archaeological discoveries of the twentieth century.

European Civilization Since the Middle Ages - Edward R. Tannenbaum 1965

This book is designed to give the reader an up-to-date account of the history of European civilization from its medieval origins to the present. Its theme is the interplay among individuals, groups, and cultures within a common civilization. Each of these "protagonists" has shaped the others without

losing its identity or autonomy.

The Quest for Longitude - Longitude Symposium 1996

The Quest for Longitude is a book for students and for teachers, for collectors and for scholars, and for the thousands of people who, having enjoyed Sobel's Longitude, desire a well-illustrated reference that describes in detail the many fascinating devices and the intriguing characters who, by solving the ancient problem of finding longitude at sea, changed the world forever. 250 illustrations, 120 in color.

Sissy Dreams: From Boyfriend to Girlfriend - Paul Zante

Receiving a text from Sasha, my girlfriend, at work was always risky. Especially when she wanted to know if her girlfriend was horny. A short and sweet (and filthy) story.

The Lost Boys of Zeta Psi - Laurie A. Wilkie 2010

"Laurie Wilkie is making an important statement about the culture of fraternities, saving them

from uncritical celebration on the one hand and the 'Animal House' image on the other. She has given us a fascinating case study in the value and importance of the archaeology of the recent past."--Matthew Johnson, author of Ideas of Landscape "A fresh look at fraternity life, offering a nuanced view of its social benefits and shortcomings. This is an insightful and innovative interdisciplinary contribution to the emergent field of contemporary archaeology as well as to masculinity studies."--Mary Beaudry, author of Findings: The Material Culture of Needlework and Sewing

10,000 Famous Freemasons - William
Denslow 2007-06

This is volume one of four. This very rare and long out of print biographical work is a must for any Mason with a desire for Masonic research. This is NOT a photocopy of the original work, but a completely new, re-type set edition. While a few editorial changes have been made the work is for the most part as it was when first published. The largest change is the addenda that was at the end of the 4th edition. The addenda was a collection of corrections and additions to the work. We have incorporated the corrections and additions into the work itself removing the need for the addenda. DON'T FORGET: This is a FOUR book set with each book sold separately. The ISBNs are:
1887560319, 1887560793, 1887560424 &
1887560068.
