The Leader in Me - Stephen R. Covey 2012-12-11

Children in today's world are inundated with information about who to be, what to do and how to live. But what if there was a way to teach children how to manage priorities, focus on goals and be a positive influence on the world around them? The Leader in Me is that programme. It's based on a hugely successful initiative carried out at the A.B. Combs Elementary School in North Carolina. To hear the parents of A. B Combs talk about the school is to be amazed. In 1999, the school debuted a programme that taught The 7

Habits of Highly Effective People to a pilot group of students. The parents reported an incredible change in their children, who blossomed under the programme. By the end of the following year the average end-of-grade scores had leapt from 84 to 94. This book will launch the message onto a much larger platform. Stephen R. Covey takes the 7 Habits, that have already changed the lives of millions of people, and shows how children can use them as they develop. Those habits -- be proactive, begin with the end in mind, put first things first, think win-win, seek to understand and then to be understood, synergize, and sharpen the saw -- are critical skills to learn at a young age and bring incredible results, proving that it's never too early to teach someone how to live well.

One Vote, Two Votes, I Vote, You Vote - Bonnie Worth
2019-08-06

The Cat in the Hat looks at how, why, and who we vote for in a rhyming, nonfiction book that's perfect for Election Day, President's Day, and year-round reading—now with 16 bonus-pages of kid-friendly voting activities! Written in

simple rhyme, this Cat in the Hat's Learning Library Book introduces early readers to the concept and practice of voting—with a focus on the American Presidency! Revised to include 16 pages of activities showing kids how to hold their own elections, it's an ideal choice for reading and talking about voting—whether for classroom pet or leader of the free world! Readers will learn the basic principles of democracy; how political parties are made; why Election Day is held in early November; and much more. Fans of the hit PBS show *The Cat in the Hat Knows a Lot About That!* will be delighted to see the Cat knows as much about history and civic responsibility as he does about science!

The Mexican Outsiders -
Martha Menchaca 2010-01-01
People of Mexican descent and Anglo Americans have lived together in the U.S. Southwest for over a hundred years, yet relations between them remain strained, as shown by recent controversies over social services for undocumented aliens in California. In this study, covering the Spanish colonial period to the present day, Martha Menchaca delves deeply into interethnic relations in Santa Paula, California, to document how the residential, social, and school segregation of Mexican-origin people became institutionalized in a representative California town. Menchaca lived in Santa Paula during the 1980s, and interviews with residents add a vivid human dimension to her book. She argues that social segregation in Santa Paula has evolved into a system of social apartness—that is, a cultural

system controlled by Anglo Americans that designates the proper times and places where Mexican-origin people can socially interact with Anglos. This first historical ethnographic case study of a Mexican-origin community will be important reading across a spectrum of disciplines, including anthropology, sociology, race and ethnicity, Latino studies, and American culture.

Congress, the Press, and Political Accountability - R. Douglas Arnold 2013-10-31
Congress, the Press, and Political Accountability is the first large-scale examination of how local media outlets cover members of the United States Congress. Douglas Arnold asks: do local newspapers provide the information citizens need in order to hold representatives accountable for their actions in office? In contrast with previous studies, which largely focused on the campaign period, he tests various hypotheses about the causes and consequences of media coverage by exploring coverage during an entire congressional session. Using three samples of local newspapers from across the country, Arnold analyzes all coverage over a two-year period--every news story, editorial, opinion column, letter, and list. First he investigates how twenty-five newspapers covered twenty-five local representatives; and next, how competing

newspapers in six cities covered their corresponding legislators. Examination of an even larger sample, sixty-seven newspapers and 187 representatives, shows why some newspapers cover legislators more thoroughly than do other papers. Arnold then links the coverage data with a large public opinion survey to show that the volume of coverage affects citizens' awareness of representatives and challengers. The results show enormous variation in coverage. Some newspapers cover legislators frequently, thoroughly, and accessibly. Others--some of them famous for their national coverage--largely ignore local representatives. The analysis also confirms that only those incumbents or challengers in the most competitive races, and those who command huge sums of money, receive extensive coverage.
