*Impeachment in the Nigerian Presidential System* - Omololu Fagbadebo 2020-08-26

This book explores the politics associated with the exercise of the legislative power of impeachment as intended by the drafters of the Constitution in Nigeria. It interrogates the exercise of the power of impeachment with

reference to the intended purpose and examines its failures in the cases of impeachment in the country. It analyzes the interplay of power in the governing institutions in Nigeria's political system, which involved the understanding of a web of interactions among elites within a political structure relating with others outside

its sphere of operation. It presents an analysis of the politics associated with impeachment within the framework of the activities of different political actors operating in different political structures assigned to perform certain statutory roles in the political system. The book shows how the selective use of impeachment provisions as instrument of political vendetta and harassment has weakened the potency of this oversight power of the legislature thereby engendering accountability problem in the Nigerian presidential system.

**Failing Law Schools** - Brian Z. Tamanaha  
2012-06-18

On the surface, law schools today are thriving. Enrollments are on the rise, and their resources

are often the envy of every other university department. Law professors are among the highest paid and play key roles as public intellectuals, advisers, and government officials. Yet behind the flourishing facade, law schools are failing abjectly. Recent front-page stories have detailed widespread dubious practices, including false reporting of LSAT and GPA scores, misleading placement reports, and the fundamental failure to prepare graduates to enter the profession. Addressing all these problems and more in a ringing critique is renowned legal scholar Brian Z. Tamanaha. Piece by piece, Tamanaha lays out the how and why of the crisis and the likely consequences if the current trend continues. The out-of-pocket cost of obtaining a law degree at many schools now approaches \$200,000. The average law school graduate's debt is around \$100,000—the highest it has ever been—while the legal job market is the worst in decades, with the scarce jobs offering starting salaries well below what is

needed to handle such a debt load. At the heart of the problem, Tamanaha argues, are the economic demands and competitive pressures on law schools—driven by competition over U.S. News and World Report ranking. When paired with a lack of regulatory oversight, the work environment of professors, the limited information available to prospective students, and loan-based tuition financing, the result is a system that is fundamentally unsustainable. Growing concern with the crisis in legal education has led to high-profile coverage in the Wall Street Journal and the New York Times, and many observers expect it soon will be the focus of congressional scrutiny. Bringing to the table his years of experience from within the legal academy, Tamanaha has provided the perfect resource for assessing what’s wrong with law schools and figuring out how to fix them. *Directory of Corporate Counsel, Fall 2020 Edition (2 vols)* - Wolters Kluwer Editorial Staff 2020-08-21

**Nigerian Legal Methods** - C. C. Ohuruogu  
2013-09-27

This text is a collection of writings on assigned topics by some scholars and lecturers in the Faculty of Law at Benson Idahosa University and those invited from outside the university. The idea to write a text for use in the study of legal methods for law students was borne out of the desire to present a range of updated material in this area of study. The focus of this text is Nigeria. The book is written in simple, easy-to-understand language, and meant essentially for law students in the first year of the five year course in Law, as structured by the National Universities Commission (NUC). Nevertheless, persons who are in need of information or

education on different aspects of the Nigerian legal process will also find aspects of the text useful. The contributors come from diverse backgrounds and experiences, which is reflected in their styles of presentation. However, each has endeavoured to present the assigned topic in such a form as to enhance comprehension by the primary beneficiaries. The inclusion of chapters on advocacy and mootng skills, as well as examination skills and strategies, makes this text unique, and allows it to offer more detailed analysis than existing texts in Nigeria provide.

**The Problem With Immigrants** - Derek Laud  
2015-01-27

In modern Britain, barely a day goes by without a politician, pundit, paper or pub-goer launching into a tirade about 'the problem with immigrants' and what should be done to tackle it. High unemployment, overcrowded schools, benefit scrounging, housing shortages, stretched healthcare services ... pretty much every issue facing the country today seems to be pinned on immigration - but is it really a problem at all? In this fascinating book, Derek Laud sets out to challenge the widespread misconceptions and prejudices surrounding those who have relocated to the UK. He examines the social,

economic and cultural impact of immigration across the centuries, and addresses the question of why some ethnic communities struggle here while others thrive. An insightful, thought-provoking and timely examination of one of the most significant issues of our time, this is an indispensable and refreshingly nuanced contribution to the immigration debate.

*Social Justice and Legal Education* - Chris Ashford  
2019-01-15

Recent years have seen social justice emerge as a powerful driver for work, both in law schools and the legal services sector. However, questions remain about how that term is understood and given meaning within the legal academy and beyond. This edited collection explores the meanings that have emerged and might subsequently be developed, together with a practical exploration of projects that have sought to bring the social justice agenda to life in law schools and in communities around the world. Over the course of eighteen chapters, this

volume engages with a range of social justice and legal education themes, including clinical legal education, innocence projects, access to justice, cause lawyering, LGBTQ identities, and sustainability in law schools. In addition, it also explores themes of ethics and values in contemporary legal education in Africa, Australia, North America, and the UK.

*Interreligious Curriculum for Peace Education in Nigeria* - Isaiah Ekundayo Dada 2019-04-18

Nigeria, a country under a military regime for several years, transitioned to a civilian regime in

May 1999. Since this change, violent conflicts between Christians and Muslims have continued to erupt. They constitute one of the gravest dangers facing Nigeria, a country with a population of 189 million people. What have Nigerian religious leaders done about this situation, especially in educational circles? Have they received formal educational training to understand the causes of this violence and especially how to provide alternatives for more peaceful relations within Nigeria? Does the current educational system in Nigeria provide the main ingredients for the promotion of a culture of peace? The absence and neglect of interreligious peace education as part of a peace education core program and the lack of an interreligious curriculum for peace education in the training of religious leaders are the two problems contributing towards the lack of effectiveness of religious leaders in promoting less violent and more peaceful living. The solution to the problem is proposed in this book

entitled Interreligious Curriculum for Peace Education in Nigeria. The book develops a one-year curriculum, building on Yoruba, Islamic & Christian conceptions of peace, and teaches how to create safe, caring, spiritual, peaceful and successful interfaith relationships between all Nigerian religious communities. In the long term, the book helps to educate religious leaders to contribute, in themselves and with the help of their respective religious communities, to reducing the growing religious violence in Nigeria.

Lawyering With Integrity: Essays In Honour of Ernest Ojukwu, SAN - Sam Erugo 2018-05-20

**"Eat the Heart of the Infidel"** - Andrew Walker 2018-04-01

Boko Haram's appetite for violence and kidnapping women has thrust them to the top of the global news agenda. In a few years they all but severed parts of Nigeria-Africa's most populous state and largest economy-from the hands of the government. When Boko Haram speaks, the world sees a grimacing ranting

demagogue who taunts viewers claiming he will 'eat the heart of the infidels' and calling on Nigerians to reject their corrupt democracy and return to a 'pure' form of Islam. Thousands have been slaughtered in their campaign of purification which has evolved through a five-year bloody civil war. Civilians are trapped between the militants and the military and feel preyed upon by both. Boko Haram did not emerge fully formed. In Northern Nigeria, which has witnessed many caliphates in the past, radical ideas flourish and strange sects are common. For decades, Nigeria's politicians and oligarchs fed on the resources of a state buoyed by oil and turned public institutions into spoons for the pot. When the going was good it didn't matter. But now a new ravenous force threatens Nigeria.

**Azinge: Born to Serve** - Ifeoha Azikiwe  
2022-06-08

Epiphany Chigbogu Azinge is an erudite Professor of Constitutional Law with admirable scholarly attributes: 42 years at the bar; 42 years in crowded lecture halls, impacting knowledge and building prodigies at the Bar and Bench. "Born To Serve" chronicles the "Aba Boy" at 66, and his services from formative years to retirement as Director General, Nigerian Institute of Advanced Legal Studies, - "Nigerian Law Abode," - the apex of legal education in Nigeria. He is currently among the jurists of the Commonwealth Secretariat Arbitral Tribunal in London, representing Nigeria. Every stage of his life is eventful. At St. Patrick's College, Asaba, he once declared a "state of emergency" as a school prefect, and graduated tops. At the London School of Economics where he acquired his doctorate, he became popular as "Zinge," due to his intellect, and earned a distinction. He has grown unimaginably in status to become a man of exemplary character and great achievements in public administration,

philanthropy and service to God and humanity. Azinge served three attorneys general, and ministers of justice as special assistant and legal adviser at Nigeria's most challenging period in history, covering draconian military regimes of Ibrahim Babangida and Sani Abacha. He recalls sadly, June 12 1993, the execution of the "Ogoni Nine," and the Bakassi border dispute that Nigeria lost to Cameroun.

Republican Populist - Charles J. Holden  
2019-10-28

Typically a maligned figure in American political history, former vice president Spiro T. Agnew is often overlooked. Although he is largely remembered for his alliterative speeches, attacks on the media and East Coast intellectuals, and his resignation from office in 1973 in the wake of tax evasion charges, Agnew had a significant impact on the modern Republican Party that is underappreciated. It is impossible, in fact, to understand the current internal struggles of the Republican Party

without understanding this populist "everyman" and prototypical middle-class striver who was one of the first proponents of what would become the ideology of Donald Trump's GOP. Republican Populist examines Agnew's efforts to make the Republican Party representative of the "silent majority." Under the tutelage of a group of talented speechwriters assigned to Agnew by President Richard Nixon including Pat Buchanan and William Safire, Agnew crafted the populist-tinged, anti-establishment rhetoric that helped turn the Republican Party into a powerful national electoral force that has come to define American politics into the current era. A fascinating political portrait of Agnew from his pre-vice presidential career through his scandal-driven fall from office and beyond, this book is a revelatory examination of Agnew's role as one of the founding fathers of the modern Republican Party and of the link between Agnew's "people's party" and the fraught party of populists and businessmen today.

**Terrorism** - David Lowe 2018-03-09

**Terrorism: Law and Policy** provides a comprehensive socio-legal analysis of issues related to terrorist activity. Aimed at both undergraduate and postgraduate students, the book takes a comparative approach to the law related to terrorism in a number of states, mainly those in Europe, North America, Australia and New Zealand. Beginning with an examination of the background to various currently active terrorist groups, the book focuses on those groups which are currently active and which pose a threat to security, especially at the international level. The chapters take the reader through the legal definitions of terrorism contained in various states' statutory provisions and examine how the courts have interpreted terrorism in those states' jurisdictions. The main aim of any terrorist investigation is prevention and so the

book examines the various statutory preventative measures that states have introduced and explores the legal issues surrounding surveillance, terrorism intelligence exchange, radicalisation, use of social media, quasi-criminal provisions, asset-freezing and the nexus between terrorist activity and organised crime. Bringing together a number of themes related to terrorism and security from a uniquely legal perspective, this book builds a comparative picture of the legal counter-terrorism interventions states are adopting to increase co-operation and adopt a more united approach in the face of the international terrorism threat.

*After the JD* - Ronit Dinovitzer 2004

"The After the JD project will track the professional lives of more than 5,000 lawyers during their first ten years after law school.

While most of the project will unfold in coming years, the data presented here provide a first snapshot of the stratified random national sample, based on questionnaires administered two to three years into the new lawyers' careers. The findings presented here will be elaborated and augmented through face-to-face interviews with a sub-sample of roughly 10% of the survey respondents. Building on this first wave, the future work of AJD will employ follow-up questionnaires and personal interviews six and ten years into the respondents' careers. When completed, it will be the first national study of the factors -- personal and professional -- that account for the wide spectrum of legal careers and experiences"--Introduction.

**The Law of Debtors and Creditors** - Elizabeth Warren 1991

**State-Sanctioned Violence** - Melvin Delgado 2020

"A book on a controversial topic such as U.S.

state sanctioned violence questions many of our basic assumptions we hold true. The importance of violence is well attested to by Oxford University Press devoting a Book Series on Interpersonal Violence. However, state sanctioned violence in the U.S. is not, for example. The saying "The truth will set you free, but first it will make you miserable" comes to mind in writing this book because it holds personal meaning for me that goes beyond being a social worker and a person of color (Latinx). The basic premise and interconnectedness of the themes in this book were reinforced and expanded in the course of writing. Bonilla-Silva (2019, p. 14) states "We are living, once again, in strange racial times," and yes, indeed, we are. My hope is that readers appreciate the numerous threads between themes, some of which have not gotten close attention by the general public and scholars. Harris and Hodge (2017), for example, adeptly interconnect environmental, food, and school-to-pipeline

among urban youth of color, illustrating how oppressions converge. Future scholarship will connect even more dots to create the mosaic that constitutes state sanctioned violence. I was relieved to see the extent of scholarship on the topics addressed in this book. Bringing together this literature, public reports, and the experiences from those currently dealing with state sponsored violence, allowed for a consistent narrative to unfold. Writing a book is always a process of discovery. There is a body of scholarship to buttress the central arguments of this book, but no such literature addressing the structural interconnectedness of the types of state sanctioned violence for social work. The socio-political interactional consequences of place, time, people, and events, sets a social-political context that is understood by social workers and makes our mission distinctive because of this grounding. Viewing state sanctioned violence, including its laws and policies, within this prism allows us to develop a

vision or charge that can unite us, as well as a deeper commitment to working with oppressed groups in seeking social justice. Social work is not exempt from having a role in state sanctioned violence. We only to delve into the profession's history and evolution to appreciate how we have reinforced a state sanctioned violence agenda, wittingly or unwittingly. Practice is never apolitical; they either support a state sanctioned violence narrative or resist it with counter-narratives. Social work must be vigilant of how we support state violence. Practice is never apolitical; they either support a state sanctioned violence narrative or resist it with counter-narratives"--

Essay from the year 2020 in the subject Law - Tax / Fiscal Law, grade: 5.0, University of Lagos (Law), course: Tax Law, language: English, abstract: The digital market, having grown to be one of the most lucrative globally, has prompted the desires of governments across the world to tax the profit that emerges from their territory because of these digital activities. However, due

to the lack of physical presence of the Non-Resident Companies (being the major suppliers of digital services in Nigeria), taxation of the said activities have proven difficult. Being a key factor necessitating the shift from the old regime of taxing NRCs under section 13 of Companies Income Tax Act (CITA), to the enactment of the Finance Act 2019 which came into force on 13 January 2020.

**Campaigning for Children** - Jo Becker

2017-08-15

Advocates within the growing field of children's rights have designed dynamic campaigns to protect and promote children's rights. This

expanding body of international law and jurisprudence, however, lacks a core text that provides an up-to-date look at current children's rights issues, the evolution of children's rights law, and the efficacy of efforts to protect children. Campaigning for Children focuses on contemporary children's rights, identifying the range of abuses that affect children today, including early marriage, female genital mutilation, child labor, child sex tourism, corporal punishment, the impact of armed conflict, and access to education. Jo Becker traces the last 25 years of the children's rights movement, including the evolution of international laws and standards to protect children from abuse and exploitation. From a practitioner's perspective, Becker provides readers with careful case studies of the organizations and campaigns that are making a difference in the lives of children, and the relevant strategies that have been successful—or not. By presenting a variety of approaches to

deal with each issue, this book carefully teases out broader lessons for effective social change in the field of children's rights.
