A New Landlord and Tenant - Peter Sparkes 2001-02-13

This book is designed to complement the author's A New Land Law, integrating with that work in its simplified terminology, and emphasising a three-fold functional classification of leases - short residential tenancies, long residential leases and commercial leases.

Rented housing is treated as a unified whole, with particular prominence being given to shorthold arrangements. The book includes reference to the changes to the allocation and homelessness regimes proposed by Part II of the Homes Bill 2000. It also considers the impact of the Human Rights Act 1998, the changes to repossession procedures implemented by the Woolf Reforms, and the year 2000 bumper crop of decisions on housing law. Leasehold tenure is undergoing dramatic changes. The book draws a functional distinction between long residential leases and rental arrangements, based on the registrability of long leases, their freedom from rent controls and security of tenure, special controls of management and forfeiture, and enfranchisement rights. Extensive coverage is given to the Commonhold and Leasehold Reform Bill 2000, introduced into the House of Lords in December 2000, and promising improvements in the enfranchisement schemes, additional management controls, and a commonhold scheme. Topics on commercial leases (business and agricultural) given special attention include the reasonable recipient principle for the construction of notices, a decision on the effect on a sub-tenant of an upwards notice to quit by his head tenant, and Law Commission proposals on the Termination of Tenancies (1999).

Letters of Comfort - Anton P. Trichardt 2011-12-01

This book presents the first thoroughgoing analysis of the contractual effect of letters of comfort as it appears in both common law and civil law systems. The commentary draws on cases from a wide variety of jurisdictions and on the full range of legal scholarship on the subject in several languages. Among the specific issues and topics raised along the way are the following: the typology of letters of comfort; the legal nature of letters of comfort; the use of letters of comfort in corporate group and banking practice; the economic explanation for the use of letters of comfort; the contractual effect of letters of comfort in French law; 'ten commandments' of letters of comfort; Clearly evoking the tension between business needs, the law, and judicial application, the book analyses what happens when the relationship between a lender and a creditor breaks down, or the latter becomes insolvent, and courts or arbitrators are asked to determine the legal status of a comfort letter. This is an area of practice in which lawyers in any field of business activity are inevitably concerned, and in which useful guidance is scarce. For this reason this detailed analysis will be very welcome.
