Strategic Management Control - Fredrik Nilsson 2020-06-30

Strategic management control differs from traditional management control in several important respects. First, it supports both strategy formulation and strategy implementation. Second, it is to a large extent based on non-financial information. Third, it deals with both the long and short term and supports not only tactical, but also strategic and operational decision-making. Fourth, and perhaps most importantly, strategic management control is designed for, and adapted to, each organisation's unique strategies. In this context, the book emphasises the importance of dialogues. The authors argue that it is unwise to assume that decisions taken at the top of the organisation will automatically be executed and obeyed throughout the organisation. Instead, they highlight the importance of dialogue and collaboration, both between hierarchical levels within the organisation and between actors in the network. Such communication is essential to making management control processes both strategic and successful. The book follows a clear

structure, from the design of strategies to the everyday evaluation and discussion of performance and results. Though primarily intended for professionals working in strategy and management control at organisations, it will also benefit students and academics interested in strategy and management control.

A Semiotic Analysis of the Short Stories of Leonid Andreev, 1900-1909 - Stephen Hutchings 1990

This book applies the techniques of semiotic analysis to a selection of short stories by Leonid Andreev in an attempt to offer one answer to the problems of categorizing Andreev's unique art and placing it within a literary-evolutionary perspective. Drawing on a range of literary theory from early Russian Formalism onwards, the study proceeds from one level to another according to a principle of 'degree of abstraction', so that each level constitutes firstly an independent account of Andreev's texts in itself, and secondly one stage in an overall analysis.

The Short Story - Valerie Shaw 2014-07-21

Throughout this text, Valerie Shaw addresses two key questions: 'What are the special satisfactions afforded by reading short stories?' and 'How are these satisfactions derived from each story's literary techniques and narrative strategies?'. She then attempts to answer these questions by drawing on stories from different periods and countries - by authors who were also great novelists, like Henry James, Flaubert, Kafka and D.H. Lawrence; by authors who specifically dedicated themselves to the art of the short story, like Kipling, Chekhov and Katherine Mansfield; by contemporary practitioners like Angela Carter and Jorge Luis Borges; and by unfairly neglected writers like Sarah Orne Jewett and Joel Chandler Harris.

The Short Story in South Africa - Rebecca Fasselt 2022-03-25

This book considers the key critical interventions on short story writing in South Africa written in English since the year 2000. The short story genre, whilst often marginalised in national literary canons, has been central to the trajectory of literary history in South Africa. In recent years, the short story has undergone a significant renaissance, with new collections and young writers making a significant impact on the contemporary literary scene, and subgenres such as speculative fiction, erotic fiction, flash fiction and queer fiction expanding rapidly in popularity. This book examines the role of the short story genre in reflecting or championing new developments in South African writing and the ways in which traditional boundaries and definitions of the short story in South Africa have been reimagined in the present. Drawing together a range of critical interventions, including scholarly articles, interviews and personal reflective pieces, the volume traces some of the aesthetic and thematic continuities and discontinuities in the genre and sheds new light on questions of literary form. Finally, the book considers the place of the short story in twenty-first century writing and interrogates the ways in which the short story form may contribute to, or recast ideas of, the post-apartheid or post-transitional. The perfect guide to contemporary short story writing in South Africa, this book will be essential reading for researchers of African literature.

Modernism, Postmodernism, and the Short Story in English - Jorge Sacido 2012

How can the short story help to redefine modernism, postmodernism and their interrelationship? What is the status of the short story in modern

literary history? These are the central questions that the essays collected in this volume try to answer from different perspectives through readings of short fiction in English and accounts of the genre's theorisations. The essays by a group of international scholars tackle theoretical issues that are central in approaches to both "movements" such as periodisation, autonomy, high vs. popular literature, totality vs. fragmentation, surface vs. depth, ot

Short Story - Paul March-Russell 2009-05-15

This new general introduction emphasises the importance of the short story to an understanding of modern fiction. In twenty succinct chapters, the study paints a complete portrait of the short story - its history, culture, aesthetics and economics. European innovators such as Chekhov, Flaubert and Kafka are compared to Irish, New Zealand and British practitioners such as Joyce, Mansfield and Carter as well as writers in the American tradition, from Hawthorne and Poe to Barthelme and Carver. Fresh attention is paid to experimental, postcolonial and popular fiction alongside developments in Anglo-American, Hispanic and European literature. Critical approaches to the short story are debated

and reassessed, while discussion of the short story is related to contemporary critical theory. In what promises to be essential reading for students and academics, the study sets out to prove that the short story remains vital to the emerging culture of the twenty-first century.
