Modern Loss - Rebecca Soffer 2018-01-23

Inspired by the website that the New York Times hailed as "redefining mourning," this book is a fresh and irreverent examination into navigating grief and resilience in the age of social media, offering comfort and community for coping with the mess of loss through candid original essays from a variety of voices, accompanied by gorgeous two-color illustrations and wry infographics. At a time when we mourn public

figures and national tragedies with hashtags, where intimate posts about loss go viral and we receive automated birthday reminders for dead friends, it's clear we are navigating new terrain without a road map. Let's face it: most of us have always had a difficult time talking about death and sharing our grief. We're awkward and uncertain; we avoid, ignore, or even deny feelings of sadness; we offer platitudes; we send sympathy bouquets whittled out of fruit. Enter Rebecca Soffer and Gabrielle Birkner, who can help us do better. Each having lost parents as young adults, they co-founded Modern Loss, responding to a need to change the dialogue around the messy experience of grief. Now, in this wise and often funny book, they offer the insights of the Modern Loss community to help us cry, laugh, grieve, identify, and—above all—empathize. Soffer and Birkner, along with forty guest contributors including Lucy Kalanithi, singer Amanda Palmer, and CNN's Brian Stelter, reveal their own stories on a wide range of topics including triggers, sex, secrets, and inheritance. Accompanied by beautiful hand-drawn illustrations and witty "how to" cartoons, each contribution provides a unique perspective on loss as well as a remarkable life-affirming message. Brutally honest and inspiring, Modern Loss invites us to talk intimately and humorously about grief, helping us confront the humanity (and mortality) we all share. Beginners welcome.

[What Do We Tell the Children?](#) - Joseph M. Primo 2013-09-17

One out of seven children will lose a parent before they are 20. The statistics are sobering, but they are also a call for preparedness. However, pastors and counselors of all types are often at a loss when dealing with a grieving child. Talking to adults about death and grief is difficult; it's all the more challenging to talk to children and teens. The stakes are high: grieving children are high-risk for substance abuse, promiscuity, depression, isolation, and suicide. Yet, despite this, most of these kids grow up to be normal or exceptional adults. But their chance to become healthy adults increases with the support of a loving community. Supporting grieving children requires intentionality, open communication, and patience. Rather than avoid all conversations on death or pretend like it never happened, normalizing grief and offering support requires us to be in-tune with kids through dialogue as they grapple with questions of "how" and "why." When listening to children in grief, we often have to embrace the mystery, offer love and compassion, and stick with the basics. The author says, "We don't have to answer the why and how for them, but we can assure our children that God is with us as we suffer. We can do so by doing good for others and pointing out all of those moments when someone has done something good for us. I believe that most of the time that's as far as we will get, and that is okay."

The Moon Is Always Round - Jonathan Gibson 2019-09-23

Even young children want answers to the hard questions about God and suffering. In *The Moon Is Always Round*, seminary professor and author Jonathan Gibson uses the vivid imagery of the moon to explain to children how God's goodness is always present, even when it might appear to be obscured by upsetting or difficult circumstances. In this beautiful, full-color illustrated book, he allows readers to eavesdrop on the conversations he had with his young son in response to his sister's death. Father and son share a simple liturgy together that reminds them that, just as the moon is always round despite its different phases, so also the goodness of God is always present throughout the different phases of life. A section in the back of the book offers further biblical help for parents and caregivers in explaining God's goodness to children. Jonathan Gibson reminds children of all ages that God's goodness is present in the most difficult of times, even if we can't always see it.

The Death of Cupcake - Susan Nicholas, MD 2020-10-12

The Death of Cupcake: A Child's Experience with Loss exposes the intersection of grief and consciousness from a child's perspective. It opens a conscious dialog about life and loss, reminding parents and children of their infinite nature. It allows children to view death as a liberation, and for many the final unconscious moment of their human existence. Through the lens of consciousness lies the realization that many children are not given the space to make closure when a loved one transitions because physical death is not easily discussed. Furthermore, many children are excluded from funeral or burial proceedings. Thereby, the unresolved feelings and emotions surrounding the death of a close family member, friend, or beloved pet are often carried over into adulthood. *The Death of Cupcake* elevates our collective perspective surrounding loss to overcome the false fears of finality.

The Purple Balloon - Chris Raschka 2012-06-27

When a child becomes aware of his pending death (children tend to know long before the rest of us even want to consider it), and is given the opportunity to draw his feelings, he will often draw a blue or purple balloon, released and unencumbered, on its way upward. Health-care professionals have discovered that

this is true, regardless of a child's cultural or religious background and researchers believe that this is symbolic of the child's innate knowledge that a part of them will live forever. . . . In disarmingly simple and direct language, accompanied by evocative potato print illustrations, Raschka in conjunction with Children's Hospice International (CHI), creates a moving, sensitive book that is also a phenomenally useful

tool to talk about death. The message of the book is clear: talking about dying is hard, dying is harder, but there are many people in your life who can help. Children's Hospice International (CHI), a nonprofit organization founded in 1983, is paving the way for the establishment of children's hospice and related services worldwide.
