**Electrical Engineering for Students with Full Constructional Details of All the Appliances Described and Carefully Selected Questions Enabling the Student to Test His Knowledge from Time to Time** - Selimo Romeo Bottone 1904

*Electrical Machines & Power Systems (Problems With Solutions)* - C S Indulkar 2012

This book contains problems in Electrical Machines & Power Systems (Problems with Solutions). I have used these and other problems in the class room for many years. In most of the solutions I have deliberately avoided giving theoretical explanations, because an average student should know the theory well before attempting to solve any problem. However, in each chapter, I have provided a brief introduction related to

the chapter so that students are made aware of the contents of the chapter before reading the problems and their solutions. The introduction related to each chapter contains Objective type Questions and their answers. The introductions contains brief notes on the topics of the chapters and also include Indian Standards for testing and maintenance of substation, equipments, transformer, overhead lines, underground cables and materials.

*Electrical and Electronic Principles and Technology* - John Bird  
2017-03-31

This practical resource introduces electrical and electronic principles and technology covering theory through detailed examples, enabling students to develop a sound understanding of the knowledge required by technicians in fields such as electrical engineering, electronics and telecommunications. No previous background in engineering is assumed, making this an ideal text for vocational courses at Levels 2 and 3, foundation degrees and introductory courses for undergraduates.

Gas Journal - 1924

**IT Principles for Office 2000** - David Broughton 2004

This series provides all the knowledge and skills students need to complete level 2 qualifications. Written in simple, clear language using Office 2000 applications, the titles are full of exercises to help students get to grips fast with the skills they need for assessment.

**Data Systems** - 1968

*Pulp and Paper Magazine of Canada* - 1962

**British Books in Print** - 1898
