Tacitus, Annals, 15.20-23, 33-45 - Mathew Owen 2013-09-23

e emperor Nero is etched into the Western imagination as one of ancient Rome's most infamous villains, and Tacitus' Annals have played a central role in shaping the mainstream historiographical understanding of this flamboyant autocrat. This section of the text plunges us straight into the moral cesspool that Rome had apparently become in the later years of Nero's reign, chronicling the emperor's fledgling stage career including his plans for a grand tour of Greece; his participation in a city-wide orgy climaxing in his publicly consummated 'marriage' to his toy boy Pythagoras; the great fire of AD 64, during which large parts of central Rome went up in flames; and the rising of Nero's 'grotesque' new palace, the so-called 'Golden House', from the ashes of the city. This building project stoked the rumours that the emperor himself was behind the conflagration, and Tacitus goes on to present us with Nero's gruesome efforts to quell these mutterings by scapegoating and executing members of an unpopular new cult then starting to spread through the Roman empire: Christianity. All this contrasts starkly with four chapters focusing on one of Nero's most principled opponents, the Stoic senator Thrasea Paetus, an audacious figure of moral fibre, who courageously refuses to bend to the forces of imperial corruption and hypocrisy. This course book offers a portion of the original Latin text, study aids with vocabulary, and a commentary. Designed to stretch and stimulate readers, Owen's and Gildenhard's incisive commentary will be of particular interest to the students of Latin at both A2 and undergraduate level. It extends beyond detailed linguistic analysis and historical background to encourage critical engagement with Tacitus' prose and discussion of the most recent scholarly thought.

The Black Notebook - Patrick Modiano 2016-09-27

From the winner of the Nobel Prize in Literature, a writer's notebook unlocks memories of a love formed and lost in 1960s Paris. In the aftermath of Algeria's war of independence, Paris was a city rife with suspicion and barely suppressed violence. Amid this tension, Jean, a young writer adrift, met and fell for Dannie, an enigmatic woman fleeing a troubled past. A half century later, with his old black notebook as a guide, he retraces this fateful period in his life, recounting how, through Dannie, he became mixed up with a group of unsavory characters connected by a shadowy crime. Soon Jean, too, was a person of interest to the detective pursuing their case—a detective who would prove instrumental in revealing Dannie's darkest secret. The Black Notebook bears all the hallmarks of this Nobel Prize-winning literary master's unsettling and intensely atmospheric style, rendered in English by acclaimed translator Mark Polizzotti (Suspended Sentences). Once again, Modiano invites us into his unique world, a Paris infused with melancholy, uncertain danger, and the fading echoes of lost love “A literary...Simenon. An atmospheric, smoky, sepia-toned whodunit, though more for fans of Camus than Chandler.”—Kirkus Reviews “Modiano’s folklore is set out from the beginning...and sheer magic follows once more.”—Vogue “The prose—elliptical, muted, eloquent—falls on the reader like an enchantment...No one is currently writing such beautiful tales of loss, melancholy, and remembrance.”—Independent “Both carefully wrought and superbly fluid, sustained by pure poetry.”—Le Monde

World Drug Report 2008 - United Nations Office on Drugs and Crime 2008-06-26

The Report continues to provide in depth trend analysis of the four main drug markets in its first section. In addition, to mark the one hundred year anniversary of the Shanghai Opium Commission, and one hundred years of international drug control, the Report contains an in-depth look at the development of the international drug control system. The Report also contains a small statistical annex which provides a detailed look at production, prices and consumption. As in previous years, the present Report is based on data obtained primarily from the annual reports questionnaire (ARQ) sent by Governments to UNODC in 2007, supplemented by other sources when necessary and where available. Two of the main limitations herein are: (i) that ARQ reporting is not systematic enough, both in terms of number of countries responding and of content, and (ii) that most countries lack the adequate monitoring systems required to produce reliable, comprehensive and internationally comparable data. National monitoring systems are,

however, improving and UNODC has contributed to this process.

L'innovation prédatrice en droit de la concurrence - Thibault Schrepel 2019-01-24

L'innovation est la clé de voûte des économies numériques, mais elle est aussi parfois un prétexte pour maquiller des pratiques qui, ayant l'apparence de réelles innovations, sont en réalité des stratégies anti-concurrentielles qui ont pour objectif d'éliminer la concurrence sans pour autant être bénéfiques aux

consommateurs. Pour cette raison, reconnaître un régime propre à l'innovation prédatrice est l'un des impératifs juridiques de ce début de 21^e siècle. Les pratiques qui s'y rattachent surviennent quotidiennement et visent à altérer le fonctionnement des produits et des technologies tierces. Ces pratiques concernent donc l'ensemble des entreprises qui opèrent sur les marchés technologiques, et, de fait, tous les consommateurs. Les règles actuelles de droit de la concurrence ne permettent d'appréhender qu'une faible partie des pratiques d'innovation prédatrice. Cette inadaptabilité de la règle de droit met également en danger les dirigeants et chefs d'entreprise qui peuvent être sanctionnés par les juges et autorités de concurrence sur des fondements peu éclairés. Il est donc urgent que l'innovation prédatrice soit reconnue comme étant une pratique anti-concurrentielle indépendante. Le marché, une fois émancipé de ces stratégies prédatrices, ne s'en trouvera que plus libre. Cet ouvrage, en plus de présenter une typologie des pratiques d'innovation prédatrice, propose pour la première fois la création d'un régime dédié. Il constitue, à ce titre, un indispensable pour qui s'intéresse aux problématiques concurrentielles liées aux nouvelles technologies.
