*History of Oakland County, Michigan* - Thaddeus D. Seeley

Oakland county is peculiarly fortunate in the variety of her charms and riches, to which truth these pages bear witness. With her landscape beauties and sunny lakes, she is drawing thousands to her who seek restful homes and profitable investments. At the same time, her soil is fertile and invites the practical farmer, dairyman and horticulturist, while in the urban centers, the industrial and commercial interests have obtained a firm foothold and assure livelihood and profit to the citizen. No county in the state has better schools, and, as will be made plain in the progress of this history, in no section has woman had a more extended or elevating influence. In a word, Oakland is unexcelled as a home county; no more need be said to the good American, whether of native or foreign blood.

**Confessions of an 83-Year-Old Sage: The GLAD-SAD-MAD of Life** - Helene Hadsell  
2021-11-05

Join Helene Hadsell each day as she has breakfast, goes about her morning routine, and regales you, dear reader, with her serious, silly, and sermonish observations about the GLAD-SAD-MAD of life in her third book of wit and

wisdom. She shares her secrets in a vibrant, warm, and folksy manner, unique only to her. GLAD - Helene was grateful for every moment her life held. All of them. She was GLAD she was blessed to experience all the ups, downs, and all arounds. SAD - Helene didn't like to dwell in the SAD of life, but she knew it was unavoidable on this human journey. She focused on learning from any lesson that brought with it sorrow. MAD - Helene wasn't interested in existing. She wanted to LIVE. Have adventures. Savor every moment of her life. She was fighting MAD when and if anyone tried to take that away from her. Messengers and miracles. Self-awareness and soul contracts. Points to ponder and past lives. Thought forms and telepathy. Synchronicity and sermons. Yes! Helene had experienced all of these antics and more! In the 80+ years, Helene was in a physical body on planet earth; she had one daring adventure after another.

**The Encyclopedia of Strikes in American History** - Aaron Brenner 2015-01-28

Strikes have been part of American labor relations from colonial days to the present, reflecting the widespread class conflict that has run throughout the nation's history. Against employers and their goons, against the police, the National Guard, local, state, and national officials, against racist vigilantes, against their union leaders, and against each other, American workers have walked off the job for higher wages, better benefits, bargaining rights, legislation, job control, and just plain dignity. At times, their actions have motivated

groundbreaking legislation, defining new rights for all citizens; at other times they have led to loss of workers' lives. This comprehensive encyclopedia is the first detailed collection of historical research on strikes in America. To provide the analytical tools for understanding strikes, the volume includes two types of essays - those focused on an industry or economic sector, and those focused on a theme. Each industry essay introduces a group of workers and their employers and places them in their economic, political, and community contexts. The essay then describes the industry's various strikes, including the main issues involved and outcomes achieved, and assesses the impact of the strikes on the industry over time. Thematic essays address questions that can only be answered by looking at a variety of strikes across industries, groups of workers, and time, such as, why the number of strikes has declined since the 1970s, or why there was a strike wave in 1946. The contributors include historians, sociologists, anthropologists, and philosophers, as well as current and past activists from unions and other social movement organizations. Photos, a Topic Finder, a bibliography, and name and subject indexes add to the works appeal.

*Expect Miracles* - Joe Vitale 2013-12-17

We all want success, but oftentimes don't know where to start. *Expect Miracles* can teach you where to start looking for success, starting with learning to help yourself through your perception of the world. Manifesting your dreams and wishes is easier than we think it is. Vitale's practical, easy to apply psychology involves attracting your life desires by understanding and accepting them. We all struggle against the paradox of wanting wealth, but believing that it is evil. This book enables readers to see through that facade, showing results on their own quickly and easily. Miracles are neither impossible to experience nor difficult to achieve if we allow ourselves to make them possible. With an interesting and unique take on spirituality and an aggressive edge to keep the reader motivated, it asks more out of us than any other of its kind, and if anyone knows about going from poverty to world-renowned success, it's Dr. Joe Vitale. No matter what it is that holds you back from success, whether you are afraid of your own success, whether your beliefs are

holding you back, or even if you simply don't believe that success is possible for you, *Expect Miracles* can teach anyone how to live a better life by simply changing their perspective.

*A History of Cornell* - Morris Bishop 2014-10-15

Cornell University is fortunate to have as its historian a man of Morris Bishop's talents and devotion. As an accurate record and a work of art possessing form and personality, his book at once conveys the unique character of the early university—reflected in its vigorous founder, its first scholarly president, a brilliant and eccentric faculty, the hardy student body, and, sometimes unfortunately, its early architecture—and establishes Cornell's wider significance as a case history in the development of higher education. Cornell began in rebellion against the obscurantism of college education a century ago. Its record, claims the author, makes a social and cultural history of modern America. This story will undoubtedly entrance Cornellians; it will also charm a wider public. Dr. Allan Nevins, historian, wrote: "I anticipated that this book would meet the sternest tests of scholarship, insight, and literary finish. I find that it not only does this, but that it has other high merits. It shows grasp of ideas and forces. It is graphic in its presentation of character and idiosyncrasy. It lights up its story by a delightful play of humor, felicitously expressed. Its emphasis on fundamentals, without pomposity or platitude, is refreshing. Perhaps most important of all, it achieves one goal that in the history of a living university is both extremely difficult and extremely valuable: it recreates the changing atmosphere of time and place. It is written, very plainly, by a man who has known and loved Cornell and Ithaca for a long time, who has steeped himself in the traditions and spirit of the institution, and who possesses the enthusiasm and skill to convey his understanding of these

intangibles to the reader." The distinct personalities of Ezra Cornell and first president Andrew Dickson White dominate the early chapters. For a vignette of the founder, see Bishop's description of "his" first buildings (Cascadilla, Morrill, McGraw, White, Sibley): "At best," he writes, "they embody the character of Ezra Cornell, grim, gray, sturdy, and economical." To the English historian, James Anthony Froude, Mr. Cornell was "the most surprising and venerable object I have seen in America." The first faculty, chosen by President White, reflected his character: "his idealism, his faith in social emancipation by education, his dislike of dogmatism, confinement, and inherited orthodoxy"; while the "romantic upstate gothic" architecture of such buildings as the President's house (now Andrew D. White Center for the Humanities), Sage Chapel, and Franklin Hall may be said to "portray the taste and Soul of Andrew Dickson White." Other memorable characters are Louis Fuertes, the beloved naturalist; his student, Hugh Troy, who once borrowed Fuertes' rhinoceros-foot wastebasket for illicit if hilarious purposes; the more noteworthy and the more eccentric among the faculty of succeeding presidential eras; and of course Napoleon, the campus dog, whose talent for hailing streetcars brought him home safely—and alone—from the Penn game. The humor in A History of Cornell is at times kindly, at times caustic, and always illuminating.

**Lincoln Highway** - United States. National Park Service 2004

**The Oxford Handbook of Gender and Conflict** - Fionnuala Ní Aoláin 2018

The authors focus on the multidimensionality of gender in conflict, yet they also prioritise the experience of women given both the changing nature of war and the historical de-emphasis on women's experiences.

The Handbook of Theological Education in World Christianity is the first attempt to map and analyze developments in theological education on a global scale. This volume, with contributions from 98 leaders in theological education from around the world, provides a comprehensive introduction to the major themes and contexts in the international discourse on theological education, surveys of the issues and challenges faced in different regions, and introductory essays on the developments in the major denominational families in World Christianity. The editors are Dietrich Werner, World Council of Churches, Geneva; David Esterline, McCormick Theological Seminary, Chicago; Namsoon Kang, Brite Divinity School, Fort Worth; and Joshva Raja, Queen's Foundation, Birmingham.

**Urban Informatics** - Wenzhong Shi 2021-04-06

This open access book is the first to systematically introduce the principles of urban informatics and its application to every aspect of the city that involves its functioning, control, management, and future planning. It introduces new models and tools being developed to understand and implement these technologies that enable cities to function more efficiently - to become 'smart' and 'sustainable'. The smart city has quickly emerged as computers have become ever smaller to the point where they can be embedded into the very fabric of the city, as well as being central to new ways in which the population can communicate and act. When cities are wired in this way, they have the potential to become sentient and responsive, generating massive streams of 'big' data in real time as well as providing immense opportunities for extracting new forms of urban data through crowdsourcing. This book offers a comprehensive review of the methods that form the core of urban informatics from various kinds of urban remote sensing to new approaches to machine learning and statistical modelling. It provides a detailed technical introduction to the wide array of tools information scientists need to

develop the key urban analytics that are fundamental to learning about the smart city, and it outlines ways in which these tools can be used to inform design and policy so that cities can become more efficient with a greater concern for environment and equity.

You're Not Old Until You're Ninety - Rebecca H. Latimer 1997

**The Hero and the Outlaw: Building Extraordinary Brands Through the Power of Archetypes** - Margaret Mark 2001-02-06

A brand's meaning—how it resonates in the public heart and mind—is a company's most valuable competitive advantage. Yet, few companies really know how brand meaning works, how to manage it, and how to use brand meaning strategically. Written by best-selling author Carol S. Pearson (*The Hero Within*) and branding guru Margaret Mark, this groundbreaking book provides the illusive and compelling answer. Using studies drawn from the experiences of Nike, Marlboro, Ivory and other powerhouse brands, the authors show that the most successful brands are those that most effectively correspond to fundamental patterns in the unconscious mind known as archetypes. The book provides tools and strategies to:

- Implement a proven system for identifying the most appropriate and leverageable archetypes for any company and/or brand
- Harness the power of the archetype to align corporate strategy to sustain competitive advantage

*Transforming Fate Into Destiny* - Robert Ohotto 2008-03-01

In this penetrating book, renowned intuitive, speaker, and teacher Robert Ohotto guides us on an investigation of the Heroic Journey of the Soul. Exploring three modern-day manifestations of Fate, he shows how psychic energy from family patterns, cultural influences, generational legacy, and global evolution inform our self-concept every day, and how they often block our highest potential and "Fate" us to challenging circumstances and relationships. But, he reveals, these Fated encounters are actually the keys to our unlived life. Each chapter maps our psyche and unravels the mysterious connections of Fate, Free Will, and Destiny, transforming our Fate into Destiny and our limitations into gifts.

Through this seminal work based on years of experience, discover how we've made two fundamental agreements with the Universe as part of our Heroic Journey—one with Fate and the other with Destiny. As we learn to dance with these two forces, they become two voices challenging and beckoning us to discover our ultimate purpose—the primary task of the modern-day Hero and Heroine; and in the process, serve to unleash the power of our Soul in delivering grace to the world.

**The Disciplined Trader** - Mark Douglas 1990-04-01

The classic book that introduced the investment industry to the concept of trading psychology.

With rare insight based on his firsthand commodity trading experience, author Mark Douglas demonstrates how the mental matters that allow us function effectively in society are often psychological barriers in trading. After examining how we develop losing attitudes, this book prepares you for a thorough “mental housecleaning” of deeply rooted thought processes. And then it shows the reader how to develop and apply attitudes and behaviors that transcend psychological obstacles and lead to success. The Disciplined Trader helps you join the elite few who have learned how to control their trading behavior (the few traders who consistently take the greatest percentage of profits out of the market) by developing a systematic, step-by-step approach to winning week after week, month after month. The book is divided into three parts: • An overview of the psychological requirements of the trading environment • A definition of the problems and challenges of becoming a successful trader • Basic insights into what behavior may need to be changed, and how to build a framework for accomplishing this goal • How to develop specific trading skills based on a clear, objective perspective on market action “A groundbreaking work published in 1990 examining as to why most traders cannot raise their equity on a consistent basis, bringing the reader to practical conclusions to go about changing any limiting mindset.”—Larry Pesavento, TradingTutor.com *Building Peace on Earth* - Mathews George Chunakara 2013

The International Ecumenical Peace Convocation (IEPC), organized by the World Council of Churches in May 2011, brought together more than 1,000 participants from more than 100 countries. This historic gathering encouraged individuals and churches to renew their commitment to nonviolence and peace with justice, and it gave impetus for the wider ecumenical family and its related constituencies to pursue their search for peace. This book is the final report of the Convocation, offering an overview of the entire proceedings of the IEPC - from opening plenary, to thematic plenaries, to workshops and side events. With a wealth of ideas and reflections on peace with justice, the book serves not only as a record of this historic event, but also as a helpful toolkit for

peacemakers and an engagement with the issues and themes related to the 2013 WCC assembly theme: "God of life, lead us to justice and peace." *A Genealogy of the Leavenworth Family in the United States* - 1873

**Vanishing Phoenix** - Robert A. Melikian 2009 Lord Darrell Duppa, along with his friend Jack Swilling, suggested the name "Phoenix" for the city he had cofounded because it described a city born from the ruins of a former civilization. Settled on the ancestral lands of the Hohokam Indians, Phoenix was thriving by the early 1920s when craftsmanship and attention to detail were the orders of the day. Buildings were designed to welcome residents and travelers alike. Today the Fox Theater, the Clark Churchill House, the Kon Tiki Hotel, and the Fleming Building exist only in photographs and in the memories of Phoenix residents. The National Register of Historic Places and the Phoenix Historic Property Register have heightened public awareness and appreciation for the community's historic landmarks, but much has been lost already. Remembering these buildings and landmarks is essential to understanding this remarkable city.
