*Women of the Twelfth Century, Eleanor of Aquitaine and Six Others* - Georges Duby 1997-10-13

This is an engaging account of the lives of high-born women in the Middle Ages, by one of the foremost historians in Europe. Focusing on France in the twelfth century, Duby recreates the image of women that the men of high society made for themselves. Using written evidence from the period - official texts written by men, all intended for public consumption and reading aloud - he tells the story of six very different women. These women - fictional and real, religious and secular - range from famous historical figures such as Eleanor of Aquitaine and Heloise, through Mary Magdalen, whose cult grew throughout the twelfth century, to Soredamors and Fenice, the heroines of Cligès, the romance of Chrétien de Troyes. Duby sets all of these women within their historical context, using their personalities to explore the characteristics of female existence during this period. He discusses relations between the sexes, including marriage and different types of love, and shows how women were feared, mistrusted and, sometimes, admired by men. He vividly reconstructs the French nobility's system of values, examining the place assigned to women within this system. He argues that men's attitudes to women began to change in the twelfth century and that women began imperceptibly to extricate themselves from masculine power. This important book - the first of three volumes on women in the Middle Ages - will be of interest to a wide readership.

*Heroes and Marvels of the Middle Ages* - Jacques Le Goff 2020-09-02

Heroes and Marvels of the Middle Ages is a history like no other: it is a history of the imagination, presented between two celebrated groups of the period. One group consists of heroes: Charlemagne, El Cid, King Arthur, Orlando, Pope Joan, Melusine, Merlin the Wizard, and also the fox and the unicorn. The other is the miraculous, represented here by three forms of power that dominated medieval society: the cathedral, the castle, and the cloister. Roaming between the boundaries of the natural and the supernatural, between earth and the heavens, the medieval universe is illustrated by a shared iconography, covering a vast geographical span. This imaginative history is also a continuing story, which presents the

heroes and marvels of the Middle Ages as the times defined them: venerated, then bequeathed to future centuries where they have continued to live and transform through remembrance of the past, adaptation to the present, and openness to the future.

**Il cielo sceso in terra** - Jacques Le Goff 2013-05-30T00:00:00+02:00

Un'appassionata ricerca delle comuni radici culturali firmata da uno dei medievisti più illustri al mondo e senza alcun dubbio il più famoso. Nel suo *Il cielo sceso in terra* Jacques Le Goff accetta la tesi di quegli storici che considerano non tanto Carlomagno come 'il padre della patria europea', quanto piuttosto il mondo carolingio come una 'falsa partenza', un'Europa abortita. È stato semmai a partire dal X-XI secolo che il continente ha preso forma. Ed eccola, l'Europa della quale Le Goff è innamorato, la 'bella Europa' delle città, delle cattedrali, delle università. Una risposta sensibile, articolata e autorevole a un tema che a ogni piè sospinto riemerge ai tempi nostri: perché il Medioevo, magari malinteso, reinventato e tradito, va tanto di moda? Perché, risponde Le Goff, il Medioevo siamo noi. Franco Cardini, "Il Sole 24 Ore"

**Money and the Middle Ages** - Jacques Le Goff 2012-10-15

Jacques Le Goff sets out in this book to explain the role of money, or rather of the various types of money, in the economy, life and mentalities of the Middle Ages. He seeks also to explain how, in a society dominated by religion, the Church viewed money, and how it taught Christians what attitudes they should adopt towards it and towards the uses to which it could be put. He shows that, although money played an important role in the rise of towns and trade and in state formation, there was no capitalism but only a pre-capitalism in the Middle Ages, even by their end, in the absence of a truly global market. This is why economic development remained slow and limited, in spite of some remarkable success stories. It was a period in which it was as important to give money as it was to earn it. True wealth was not yet the wealth of this world, even though money played an increasingly large role in reality and in mentalities. No similar discussion of this subject, aimed at a wide readership, has previously been published. Written by one of the greatest medievalists, this book will be recognized as a standard work on the topic.

*This Woven Kingdom* - Tahereh Mafi 2022-02-01

New York Times, USA Today, and Publishers Weekly bestseller! Clashing empires, forbidden romance, and a long-forgotten queen destined to save her people—Tahereh Mafi's first in an epic, romantic trilogy inspired by Persian mythology. To all the world, Alizeh is a disposable servant, not the long-lost heir to an ancient Jinn kingdom forced to hide in plain sight. The crown prince, Kamran, has heard the prophecies foretelling the death of his king. But he could never have imagined that the servant girl with the strange eyes, the girl he can't put out of his mind, would one day soon uproot his kingdom—and the world. Perfect for fans of Leigh Bardugo, Tomi Adeyemi, and Sabaa Tahir, this is the explosive first book in a new fantasy trilogy from the New York Times bestselling and National Book Award-nominated author Tahereh Mafi. "In a tale as exquisitely crafted as one of Alizeh's own garments, Mafi weaves a spell of destiny and danger, forbidden love and courtly intrigue, magic and revolution."—Cassandra Clare, #1 New York Times bestselling author of *The Last Hours* "This Woven Kingdom is an exquisite fantasy. Rich with clever prose, delicious twists, and breathtaking world building. Prepare to be destroyed—this one will wrench at your heart and make it pound, and in the end it will leave you entirely speechless."—Stephanie Garber, #1 New York Times bestselling author of the *Caraval* series

**The Birth of Europe** - Jacques Le Goff 2009-02-04

In this ground-breaking new study, Jacques Le Goff, arguably the leading medievalist of his generation, presents his view of the primacy of the Middle Ages in the development of European history. "[A] superb and necessary book. This provocative assessment from a lifetime of scholarship might help us to place ourselves, not just territorially, but in that other precious element of history: time." The Guardian "A book that never fails to be informative, readable and provocative. Le Goff... has been the bravest and best of champions for medieval history. This book... is in every sense an inspiration." BBC History Magazine Praised by prominent figures in Europe and history including: Rt Hon Christopher Patten, CH, Former Member of the European Commission, and Neil Kinnock, Vice-President, European Commission.

**The Medieval Imagination** - Jacques Le Goff 1992-12-15

To write this history of the imagination, Le Goff has recreated the mental structures of medieval men and women by analyzing the images of man as microcosm and the Church as mystical body; the symbols of power such as flags and oriflammes; and the contradictory world of dreams, marvels, devils, and wild forests. "Le Goff is one of the most distinguished of the French medieval historians of his generation . . . he has exercised immense influence."—Maurice Keen, *New York Review of Books* "The whole book turns on a fascinating blend of the brutally materialistic and the generously imaginative."—Tom Shippey, *London Review of Books* "The richness, imaginativeness and sheer learning of Le Goff's work . . . demand to be experienced."—M. T. Clanchy, *Times Literary Supplement*

**Must We Divide History Into Periods?** - Jacques Le Goff 2015-09-08

We have long thought of the Renaissance as a luminous era that marked a decisive break with the past, but the idea of the Renaissance as a distinct period arose only during the nineteenth century. Though the view

of the Middle Ages as a dark age of unreason has softened somewhat, we still locate the advent of modern rationality in the Italian thought and culture of the fifteenth and sixteenth centuries. Jacques Le Goff pleads for a strikingly different view. In this, his last book, he argues persuasively that many of the innovations we associate with the Renaissance have medieval roots, and that many of the most deplorable aspects of medieval society continued to flourish during the Renaissance. We should instead view Western civilization as undergoing several "renaissances" following the fall of Rome, over the course of a long Middle Ages that lasted until the mid-eighteenth century. While it is indeed necessary to divide history into periods, Le Goff maintains, the meaningful continuities of human development only become clear when historians adopt a long perspective. Genuine revolutions—the shifts that signal the end of one period and the beginning of the next—are much rarer than we think.

**Medieval Callings** - Jacques Le Goff 1995-12-18

These essays by eleven internationally renowned historians present nuanced profiles of the major social and professional groups—the callings—of the Middle Ages. The contributors focus on attitudes of medieval men and women toward their own society. Through a variety of techniques, from a reading of the *Song of Roland* to a reading of administrative records, they identify characteristic viewpoints of members of the fighting class, the clergy, and the peasantry. Along with vivid descriptions of what life was like for warrior knights, monks, high churchmen, criminals, lepers, shepherds, and prostitutes, this innovative approach offers a valuable new perspective on the complex social dynamics of feudal Europe. "Very useful discussions of texts, both learned and literary."—Christopher Dyer, *Times Literary Supplement* Contributors: Maria Teresa Fumagalli Beonio Brocchieri, Franco Cardini, Enrico Castelnuovo, Giovanni Cherubini, Bronislaw Geremek, Aron Ja. Gurevich, Christiane Klapisch-Zuber, Jacques Le Goff, Giovanni Miccoli, Jacques Rossiaud, and André Vauchez.

**The Crusader Armies** - Steve Tibble 2018-08-21

A major new history of the Crusades that illuminates the strength and sophistication of the Western and Muslim armies During the Crusades, the Western and Muslim armies developed various highly sophisticated strategies of both attack and defense, which evolved during the course of the battles. In this ambitious new work, Steve Tibble draws on a wide range of Muslim texts and archaeological evidence as well as more commonly cited Western sources to analyze the respective armies' strategy, adaptation, evolution, and cultural diversity and show just how sophisticated the Crusader armies were even by today's standards. In the first comprehensive account of the subject in sixty years, Tibble takes a fresh approach to Templars, Hospitallers, and other key Orders and makes the controversial proposition that the Crusades were driven as much by sedentary versus nomadic tribal concerns as by religious conflict. This fluently written, broad-ranging narrative provides a crucial missing piece in the study of the West's attempts to colonize the Middle East during the Middle Ages.

L'Europa raccontata da Jacques Le Goff - Jacques Le Goff 2015-06-30T00:00:00+02:00

Possiamo educare i più giovani all'Europa e ai suoi valori di pace e multiculturalità? «Scaviamo all'interno

dell'Europa. Da ogni periodo della storia noi europei moderni abbiamo ricevuto qualcosa in eredità. Trasformiamoci in archeologi dell'Europa, scavando prima il sottosuolo e poi tra i libri, le iscrizioni, gli archivi, i musei e, sulla superficie, andiamo alla ricerca dei monumenti, delle abitazioni, degli oggetti che testimoniano tecniche e stili di epoche differenti.» Jacques Le Goff ripercorre tappa dopo tappa l'eccitante sfida dell'Europa, il più piccolo dei continenti, che ha conquistato mezzo mondo, ha innescato la miccia di tante rivoluzioni, ha trasformato il pianeta.

**Saint Louis** - Jacques Le Goff 2009

"Life of a king, life of a saint, life of a man. In this work, Jacques LeGoff, one of the truly great medieval historians of our times, masterially plumbs the depths of the fundamental contradiction of Saint Louis: is it possible to be both a king and a saint? St. Louis lies at the intersection of reasons of state and divine reason; he is an individual around whom LeGoff turns like a detective searching for an ever-elusive truth, that of a life and a legend inextricably intertwined. A fine, eminently readable translation. " --Robert J. Morrissey, University of Chicago Canonized in 1297 as Saint Louis, King Louis IX of France (1214-1270) was the central figure of Christendom in the thirteenth century. He ruled when France was at the height of power; he commanded the largest army in Europe and controlled the wealthiest kingdom. Renowned for his

patronage of the arts, Louis was equally famous for his decision to imitate the suffering Christ as a humbly attired, bearded penitent. Armed with the considerable resources of the *nouvel historien*, Jacques Le Goff mines existing materials about Saint Louis to forge a new historical biography of the king. Part of his ambitious project is to reconstruct the mental universe of the thirteenth century: Le Goff describes the scholastic and intellectual background of Louis' reign and, most importantly, he discusses methodology and the interpretation of written sources--their composition, provenance, and reliability. Le Goff divides his unconventional biography into three parts. In the first, he gives us the contours of Louis' life from birth to death in the usual context of family dynamics and genealogy, courtly and regional politics, and shifts in economic, social, and cultural life. In sifting through the historical accounts of the king's life, Le Goff determines that it is Louis IX's profound sense of moral and religious purpose--his desire to become the ideal Christian ruler--that colors his every action from boyhood on; it is also, for Le Goff, what renders contemporary accounts problematic and what necessitates further scrutiny. That dissection of sources occupies the second part. Le Goff's intention is to pare away the layers of homily and anecdote produced by the king's early biographers to discover the true Saint Louis. Questioning whether Saint Louis was merely the invention of his eulogists, Le Goff penetrates beyond the literary and hagiographical evidence to the human behind the legend. He brilliantly analyzes Louis' progress toward his unique self-creation and its subsequent mythologizing. In the third part, Le Goff highlights the contradictions within Louis and his historical image that previous chroniclers have elided or overlooked. In the end, he leaves us with the saint, rather than the king, with all the paradoxes embedded in that role.
