World History, Culture, and Geography - 1995

This resource book is designed to assist teachers in implementing California's history-social science framework at the 10th grade level. The models support implementation at the local level and may be used to plan topics and select resources for professional development and preservice education. This document provides a link between the framework's course descriptions and teachers' lesson plans by suggesting substantive resources and instructional strategies to be used in conjunction with textbooks and supplementary materials. The resource book is divided into eight units: (1) "Unresolved Problems of the Modern World"; (2) "Connecting with Past Learnings: The Rise of Democratic Ideas"; (3) "The Industrial Revolution"; (4) "The Rise of Imperialism and Colonialism: A Case Study of India"; (5) "World War I and Its Consequences"; (6) "Totalitarianism in the Modern World: Nazi Germany and Stalinist Russia"; (7) "World War II: Its Causes and Consequences"; and (8) "Nationalism in the Contemporary World." Each unit contains references. (EH)

An Unbroken Agony - Randall Robinson 2008-05-06

On February 29, 2004, the first democratically elected president of Haiti, Jean-Bertrand Aristide, was forced to leave his country. The president was kidnapped, along with his Haitian-American wife, by American soldiers and flown to the isolated Central African Republic. In *An Unbroken Agony*, best-selling author and social justice advocate Randall Robinson chronicles his own cross-Atlantic journey to rescue the Haitian president from captivity in Africa while also connecting the fate of Aristide's presidency to the Haitian people's century-long quest for self-determination.

History of Africa - Kevin Shillington 2018-08-28

This fourth edition of this best-selling core history textbook offers a richly illustrated, single volume, narrative introduction to African history, from a hugely respected authority in the field. The market-leading range of illustrated material from prior editions is now further improved, featuring not only additional and redrawn maps and a refreshed selection of photographs, but the addition of full colour to make these even more instructive, evocative and attractive. Already hugely popular on introductory African History courses, the book has been widely praised for its engaging and readable style, and is unrivalled in scope, both geographically and chronologically - while many competitors limit themselves to certain regions or eras, Shillington chronicles the entire continent, from prehistory right up to the present day. For this new edition, both content and layout have been thoroughly refreshed and restructured to make this wealth of material easily navigable, and even more appealing to students unfamiliar with the subject. New to this Edition: - Now in full colour with fresh new design - Part structure and part intros added to help navigation - New and improved online resources include a new testbank, interactive timelines, lecturer slides, debates In African history, essay questions and further readings - Revised and updated in light of recent research *A Discourse Concerning Western Planting* - Richard Hakluyt 1877

Teaching with Documents - United States. National Archives and Records Administration 1989

Guide for social studies teachers in using primary sources, particularly those available from the National Archives, to teach history.

The New Negro - Alain Locke 1925

The Columbian Exchange - Alfred W. Crosby 1972

"The best thing about this book is its overarching thesis, the concept of a Columbian exchange. This provocative device permits Crosby to shape a lot of familiar and seemingly unrelated data into a fresh synthesis. . . . The implications of this interplay between novel biological and social forces are fascinating." *Journal of American History*.

History of the Persian Empire - A. T. Olmstead 2022-08-29

Out of a lifetime of study of the ancient Near East, Professor Olmstead has gathered previously unknown material into the story of the life, times, and thought of the Persians, told for the first time from the Persian rather than the traditional Greek point of view. "The fullest and most reliable presentation of the history of the Persian Empire in existence."—M. Rostovtzeff

A Short History of the World - Geoffrey Blainey 2003-03-08

A superb history of the world's people during the last four million years, beginning before the human race moved out of Africa to explore and settle the other continents. Mr. Blainey explores the development of

technology and skills, the rise of major religions, and the role of geography, considering both the larger patterns and the individual nature of history. A delightful read, gracefully written, and full of odd and interesting pieces of information as well as thoughtful comparisons that span both time and space.

—William L. O'Neill

The Passing of the Great Race - Madison Grant 1922

King Leopold's Ghost - Adam Hochschild 2019-05-14

With an introduction by award-winning novelist Barbara Kingsolver In the late nineteenth century, when the great powers in Europe were tearing Africa apart and seizing ownership of land for themselves, King Leopold of Belgium took hold of the vast and mostly unexplored territory surrounding the Congo River. In his devastatingly barbarous colonization of this area, Leopold stole its rubber and ivory, pummeled its people and set up a ruthless regime that would reduce the population by half. . While he did all this, he carefully constructed an image of himself as a deeply feeling humanitarian. Winner of the Duff Cooper Prize in 1999, King Leopold's Ghost is the true and haunting account of this man's brutal regime and its lasting effect on a ruined nation. It is also the inspiring and deeply moving account of a handful of missionaries and other idealists who travelled to Africa and unwittingly found themselves in the middle of a gruesome holocaust. Instead of turning away, these brave few chose to stand up against Leopold. Adam Hochschild brings life to this largely untold story and, crucially, casts blame on those responsible for this atrocity.

The Colored Patriots of the American Revolution - William Cooper Nell 2010-07-01

In "Colored Patriots of the American Revolution," William Cooper Nell documents the important and oft-forgotten contributions of black Americans who fought during the Revolutionary War. While most history books focus on white heroes such as George Washington, Paul Revere, and Ethan Allen, "Colored Patriots" focuses on the black Americans who fought bravely and heroically for freedom and independence in the American Revolution. When the Revolution started, the American colonies had a population of about two and a half million people, one fifth of whom were black, mostly slaves. The courage and bravery demonstrated by blacks during the Revolution influenced legal decisions in the northern states to abolish slavery, leading to freedom for about 60,000 slaves. Yet for the most part, acts of heroism and the contributions of blacks during the Revolution either went unrecorded or were not widely publicized.

"Colored Patriots of the American Revolution" is organized by state, with many historical names mentioned and an account given of the African American involvement state-by-state.

Through African Eyes - 1971

1491 (Second Edition) - Charles C. Mann 2006-10-10

NATIONAL BESTSELLER • A groundbreaking work of science, history, and archaeology that radically alters our understanding of the Americas before the arrival of Columbus in 1492—from “a remarkably engaging writer” (The New York Times Book Review). Contrary to what so many Americans learn in school, the pre-Columbian Indians were not sparsely settled in a pristine wilderness; rather, there were huge numbers of Indians who actively molded and influenced the land around them. The astonishing Aztec capital of Tenochtitlan had running water and immaculately clean streets, and was larger than any contemporary European city. Mexican cultures created corn in a specialized breeding process that it has been called man's first feat of genetic engineering. Indeed, Indians were not living lightly on the land but were landscaping and manipulating their world in ways that we are only now beginning to understand. Challenging and surprising, this a transformative new look at a rich and fascinating world we only thought we knew.

Letter of Christopher Columbus to Rafael Sanchez - Christopher Columbus 1893

The Atlantic Slave Trade - Philip D. Curtin 1972-03-01

Curtin combines modern research and statistical methods with his broad knowledge of the field to present the first book-length quantitative analysis of the Atlantic slave trade. Its basic evidence suggests revision of currently held opinions concerning the place of the slave trade in the economies of the Old World nations and their American colonies. “Curtin’s work will not only be the starting point for all future research on the slave trade and comparative slavery, but will become an indispensable reference for anyone interested in Afro-American studies.”—Journal of American History “Curtin has produced a stimulating monograph, the product of immaculate scholarship, against which all past and future studies will have to be judged.”—Journal of American Studies “Professor Curtin’s new book is up to his customary standard of performance: within the limits he set for himself, *The Atlantic Slave Trade* could hardly be a better or more important book.”—American Historical Review

Edible Insects - Arnold van Huis 2013

Edible insects have always been a part of human diets, but in some societies there remains a degree of disdain and disgust for their consumption. Insects offer a significant opportunity to merge traditional knowledge and modern science to improve human food security worldwide. This publication describes the contribution of insects to food security and examines future prospects for raising insects at a commercial scale to improve food and feed production, diversify diets, and support livelihoods in both developing and developed countries. Edible insects are a promising alternative to the conventional production of meat, either for direct human consumption or for indirect use as feedstock. This publication will boost awareness of the many valuable roles that insects play in sustaining nature and human life, and it will stimulate debate on the expansion of the use of insects as food and feed.

Corpus of Early Arabic Sources for West African History - Nehemia Levtzion 1981-01

The World Revolution of Westernization - Theodore H. Von Laue 1987

Theodore H. Von Laue's stunningly original and controversial book approaches the dynamics of twentieth-century history from an entirely new perspective by proposing that the little-understood historic process known as the world revolution of Westernization has caused the global violence and warfare of this century. Accounting for world wars, the rise of communism and fascism, decolonization, Third World dictatorships, and contemporary terrorism, Von Laue describes the twin processes of the expansion of Western power and the emergence of global interdependence. His journey through the twentieth century begins in the 1870s with the British raj in India; includes the colonization of Africa, the communist and fascist "counter-revolutions," the Great Depression, Stalinism and Hitler's unleashing of World War II, and the post-war emergence of the United States as the foremost superpower; and ends with the nuclear arms race, the most dangerous of all global tensions. As a challenging history of the contemporary age, this book will make readers think more globally and compassionately about the complex issues that threaten our peace and survival as we prepare to enter the twenty-first century.

The Black Man's Burden - Edmund Dene Morel 1920

WHITE MAN'S BURDEN - Rudyard Kipling 2020-11-05

This book re-presents the poetry of Rudyard Kipling in the form of bold slogans, the better for us to reappraise the meaning and import of his words and his art. Each line or phrase is thrust at the reader in a manner that may be inspirational or controversial... it is for the modern consumer of this recontextualization to decide. They are words to provoke: to action. To inspire. To recite. To revile. To reconcile or reconsider the legacy and benefits of colonialism. Compiled and presented by sloganist Dick Robinson, three poems are included, complete and uncut: 'White Man's Burden', 'Fuzzy-Wuzzy' and 'If'.

Rethinking Columbus - Bill Bigelow 1998

Guide presents a collection of essays which offer a new view of Columbus and the impact of his arrival in the Americas. A list of resources is included. Elementary through high school.

The Oxford History of Islam - John L. Esposito 2000-04-06

Lavishly illustrated with over 300 pictures, including more than 200 in full color, The Oxford History of Islam offers the most wide-ranging and authoritative account available of the second largest--and fastest growing--religion in the world. John L. Esposito, Editor-in-Chief of the four-volume Oxford Encyclopedia of the Modern Islamic World, has gathered together sixteen leading scholars, both Muslim and non-Muslim, to examine the origins and historical development of Islam--its faith, community, institutions, sciences, and arts. Beginning in the pre-Islamic Arab world, the chapters range from the story of Muhammad and his Companions, to the development of Islamic religion and culture and the empires that grew from it, to the influence that Islam has on today's world. The book covers a wide array of subjects, casting light on topics such as the historical encounter of Islam and Christianity, the role of Islam in the Mughal and Ottoman empires, the growth of Islam in Southeast Asia, China, and Africa, the political, economic, and religious challenges of European imperialism in the nineteenth and twentieth centuries, and Islamic communities in the modern Western world. In addition, the book offers excellent articles on Islamic religion, art and architecture, and sciences as well as bibliographies. Events in the contemporary world have led to an explosion of interest and scholarly work on Islam. Written for the general reader but also appealing to specialists, The Oxford History of Islam offers the best of that recent scholarship, presented in a readable style and complemented by a rich variety of illustrations.

Europe in 12 Lessons - Pascal Fontaine 2018

What purpose does the EU serve? Why and how was it set up? How does it work? What has it already achieved for its citizens, and what new challenges does it face today? In a globalised world, can the EU compete successfully with other major economies while maintaining its social standards? How can immigration be managed? What will Europe's role be on the world stage in the years ahead? Where will the EU's boundaries be drawn? And what future is there for the euro? These are just some of the questions explored by EU expert Pascal Fontaine in this 2017 edition of his popular booklet *Europe in 12 lessons*. Pascal Fontaine is a former assistant to Jean Monnet and former professor at the Institut d'Études Politiques, Paris.

Document-based Assessment Activities for U.S. History Classes - Kenneth Hilton 1999

1493 - Charles C. Mann 2012-07-24

NATIONAL BESTSELLER • A deeply engaging history of how European settlements in the post-Columbian Americas shaped the world—from the highly acclaimed author of *1491*. • "Fascinating...Lively...A convincing explanation of why our world is the way it is." —The New York Times Book Review Presenting the latest research by biologists, anthropologists, archaeologists, and historians, Mann shows how the post-Columbian network of ecological and economic exchange fostered the rise of Europe, devastated imperial China, convulsed Africa, and for two centuries made Mexico City—where Asia, Europe, and the new frontier of the Americas dynamically interacted—the center of the world. In this history, Mann uncovers the germ of today's fiercest political disputes, from immigration to trade policy to culture wars. In 1493, Mann has

again given readers an eye-opening scientific interpretation of our past, unequalled in its authority and fascination.

The European Union - Kristin Archick 2019-09-15

The European Union (EU) is a political and economic partnership that represents a unique form of cooperation among sovereign countries. The EU is the latest stage in a process of integration begun after World War II, initially by six Western European countries, to foster interdependence and make another war in Europe unthinkable. The EU currently consists of 28 member states, including most of the countries of Central and Eastern Europe, and has helped to promote peace, stability, and economic prosperity throughout the European continent. The EU has been built through a series of binding treaties. Over the years, EU member states have sought to harmonize laws and adopt common policies on an increasing number of economic, social, and political issues. EU member states share a customs union; a single market in which capital, goods, services, and people move freely; a common trade policy; and a common agricultural policy. Nineteen EU member states use a common currency (the euro), and 22 member states participate in the Schengen area of free movement in which internal border controls have been eliminated. In addition, the EU has been developing a Common Foreign and Security Policy (CFSP), which includes a Common Security and Defense Policy (CSDP), and pursuing cooperation in the area of Justice and Home Affairs (JHA) to forge common internal security measures. Member states work together through several EU institutions to set policy and to promote their collective interests. In recent years, however, the EU has faced a number of internal and external crises. Most notably, in a June 2016 public referendum, voters in the United Kingdom (UK) backed leaving the EU. The pending British exit from the EU (dubbed "Brexit") comes amid multiple other challenges, including the rise of populist and to some extent anti-EU political parties, concerns about democratic backsliding in some member states (including Poland and Hungary), ongoing pressures related to migration, a heightened terrorism threat, and a resurgent Russia. The United States has supported the European integration project since its inception in the 1950s as a means to prevent another catastrophic conflict on the European continent and foster democratic allies and strong trading partners. Today, the United States and the EU have a dynamic political partnership and share a huge trade and investment relationship. Despite periodic tensions in U.S.-EU relations over the years, U.S. and EU policymakers alike have viewed the partnership as serving both sides' overall strategic and economic interests. EU leaders are anxious about the Trump Administration's commitment to the EU project, the transatlantic partnership, and an open international trading system—especially amid the Administration's imposition of tariffs on EU steel and aluminum products since 2018 and the prospects of future auto tariffs. In July 2018, President Trump reportedly called the EU a "foe" on trade but the Administration subsequently sought to de-escalate U.S.-EU tensions and signaled its intention to launch new U.S.-EU trade negotiations. Concerns also linger in Brussels about the implications of the Trump Administration's "America First" foreign policy and its positions on a range of international issues, including Russia, Iran, the Israeli-Palestinian conflict, climate change, and the role of multilateral institutions. This report serves as a primer on the EU. Despite the UK's vote to leave the EU, the UK remains a full member of the bloc until it officially exits the EU (which is scheduled to occur by October 31, 2019, but may be further delayed). As such, this report largely addresses the EU and its institutions as they currently exist. It also briefly describes U.S.-EU political and economic relations that may be of interest.

ASAP World History: Modern, 2nd Edition: a Quick-Review Study Guide for the AP Exam - The Princeton Review 2019-11-05

The AP World History course and test are being overhauled in 2019-2020. This revised edition captures the latest College Board test changes, which include a reduction in the time range covered by the exam (now 1200 CE to present; was previously 8000 BCE to present.) For students specifically looking to brush up on AP World History content right before the exam--or to cram in a course's worth of topic review in a short time--our ASAP Exam book is a perfect fit! This book includes a brief structure and tips overview, but the real emphasis is on need-to-know content review, not strategy or practice. With key topic lessons and lots of

charts, timelines, outlines, mnemonics, call-out boxes, and critical terms & dates lists, it's also perfectly positioned for visual learners.

The Immortal Life of Henrietta Lacks - Rebecca Skloot 2010-02-02

#1 NEW YORK TIMES BESTSELLER • “The story of modern medicine and bioethics—and, indeed, race relations—is refracted beautifully, and movingly.”—Entertainment Weekly NOW A MAJOR MOTION PICTURE FROM HBO® STARRING OPRAH WINFREY AND ROSE BYRNE • ONE OF THE “MOST INFLUENTIAL” (CNN), “DEFINING” (LITHUB), AND “BEST” (THE PHILADELPHIA INQUIRER) BOOKS OF THE DECADE • ONE OF ESSENCE’S 50 MOST IMPACTFUL BLACK BOOKS OF THE PAST 50 YEARS • WINNER OF THE CHICAGO TRIBUNE HEARTLAND PRIZE FOR NONFICTION NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The New York Times Book Review • Entertainment Weekly • O: The Oprah Magazine • NPR • Financial Times • New York • Independent (U.K.) • Times (U.K.) • Publishers Weekly • Library Journal • Kirkus Reviews • Booklist • Globe and Mail Her name was Henrietta Lacks, but scientists know her as HeLa. She was a poor Southern tobacco farmer who worked the same land as her slave ancestors, yet her cells—taken without her knowledge—became one of the most important tools in medicine: The first “immortal” human cells grown in culture, which are still alive today, though she has been dead for more than sixty years. HeLa cells were vital for developing the polio vaccine; uncovered secrets of cancer, viruses, and the atom bomb’s effects; helped lead to important advances like in vitro fertilization, cloning, and gene mapping; and have been bought and sold by the billions. Yet Henrietta Lacks remains virtually unknown, buried in an unmarked grave. Henrietta’s family did not learn of her “immortality” until more than twenty years after her death, when scientists investigating HeLa began using

her husband and children in research without informed consent. And though the cells had launched a multimillion-dollar industry that sells human biological materials, her family never saw any of the profits. As Rebecca Skloot so brilliantly shows, the story of the Lacks family—past and present—is inextricably connected to the dark history of experimentation on African Americans, the birth of bioethics, and the legal battles over whether we control the stuff we are made of. Over the decade it took to uncover this story, Rebecca became enmeshed in the lives of the Lacks family—especially Henrietta’s daughter Deborah. Deborah was consumed with questions: Had scientists cloned her mother? Had they killed her to harvest her cells? And if her mother was so important to medicine, why couldn’t her children afford health insurance? Intimate in feeling, astonishing in scope, and impossible to put down, *The Immortal Life of Henrietta Lacks* captures the beauty and drama of scientific discovery, as well as its human consequences. *Toward the African Revolution* - Frantz Fanon 1988

U.S. History - P. Scott Corbett 2017-12-19

Published by OpenStax College, U.S. History covers the breadth of the chronological history of the United States and also provides the necessary depth to ensure the course is manageable for instructors and students alike. U.S. History is designed to meet the scope and sequence requirements of most courses. The authors introduce key forces and major developments that together form the American experience, with particular attention paid to considering issues of race, class and gender. The text provides a balanced approach to U.S. history, considering the people, events and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience).
