*Visible Learning and the Science of How We Learn* - John Hattie 2013-10-08  
On publication in 2009 John Hattie's Visible

Learning presented the biggest ever collection of research into what actually work in schools to improve children's learning. Not what was

fashionable, not what political and educational vested interests wanted to champion, but what actually produced the best results in terms of improving learning and educational outcomes. It became an instant bestseller and was described by the TES as revealing education's 'holy grail'. Now in this latest book, John Hattie has joined forces with cognitive psychologist Greg Yates to build on the original data and legacy of the Visible Learning project, showing how it's underlying ideas and the cutting edge of cognitive science can form a powerful and complimentary framework for shaping learning in the classroom and beyond. Visible Learning and the Science of How We Learn explains the major principles and strategies of learning, outlining why it can be so hard sometimes, and yet easy on other occasions. Aimed at teachers and students, it is written in an accessible and engaging style and can be read cover to cover, or used on a chapter-by-chapter basis for essay writing or staff development. The book is

structured in three parts - 'learning within classrooms', 'learning foundations', which explains the cognitive building blocks of knowledge acquisition and 'know thyself' which explores, confidence and self-knowledge. It also features extensive interactive appendices containing study guide questions to encourage critical thinking, annotated bibliographic entries with recommendations for further reading, links to relevant websites and YouTube clips. Throughout, the authors draw upon the latest international research into how the learning process works and how to maximise impact on students, covering such topics as: teacher personality; expertise and teacher-student relationships; how knowledge is stored and the impact of cognitive load; thinking fast and thinking slow; the psychology of self-control; the role of conversation at school and at home; invisible gorillas and the IKEA effect; digital native theory; myths and fallacies about how people learn. This fascinating book is aimed at

any student, teacher or parent requiring an up-to-date commentary on how research into human learning processes can inform our teaching and what goes on in our schools. It takes a broad sweep through findings stemming mainly from social and cognitive psychology and presents them in a useable format for students and teachers at all levels, from preschool to tertiary training institutes.

**The Fall** - Marga Minco 1990

A story of love, death and cruel fate set in the Netherlands after the war.

**Separate Lives** - Judy Dunn 1990-10-29

Explores the reasons for differences in behavior, personality, and achievements among siblings, arguing that children experience their family environment differently

*Being the Other One* - Kate Strohm 2018-03-27

When there's a disabled child in the family, how are normally developing siblings affected?

According to Kate Strohm, a counselor and health educator, siblings of the disabled face

particular emotional challenges that are often overlooked. Able siblings commonly struggle with feelings of isolation, grief, anger, and anxiety—and these and other emotional issues can have lifelong effects. *Being the Other One* is based on the author's own experience (as a sibling of a sister with cerebral palsy) and on extensive interviews she conducted with siblings of all ages. In clear and compassionate terms, Strohm explores the often secret feelings of siblings and offers valuable strategies for coping with the challenges they face. *Being the Other One* reveals the difficulties faced by siblings at all stages of life, from early childhood through adulthood, when siblings must often assume responsibility for the care of their disabled brothers and sisters. Though the book looks honestly at the many challenges that siblings face, it is full of encouragement and practical strategies. Strohm emphasizes that when siblings are able to clearly identify and openly express their feelings and concerns—and when

parents and health professionals offer the needed support—siblings can thrive. This book includes writing exercises for personal exploration and a substantial resources section listing helpful books, organizations, and websites.

**Worry and its Psychological Disorders** -

Graham C. Davey 2006-02-22

Anxiety-based disorders are among the most common mental health problems experienced in the population today. Worry is a prominent feature of most anxiety-based disorders including generalized anxiety disorder, specific phobias, obsessive-compulsive disorder, panic disorder, and post-traumatic stress disorder. Written by international experts, *Worry and its Psychological Disorders* offers an up-to-date and complete overview of worry in a single volume. Divided into four sections, the book explores the nature of worry, the assessment of worry, contemporary theories of chronic and pathological worry, and the most recently developed treatment methods. It includes in-

depth reviews of new assessment instruments and covers treatment methods such as Cognitive Behavioural Therapy and Metacognitive Therapy. Useful case studies are also included. This important volume provides an invaluable resource for clinical practitioners and researchers. It will also be of relevance to those studying clinical or abnormal psychology at advanced level.

**Going to the Mountain** - Ndaba Mandela  
2018-06-26

The first-ever book to tell Nelson Mandela's life through the eyes of the grandson who was raised by him, chronicling Ndaba Mandela's life living with, and learning from, one of the greatest leaders and humanitarians the world has ever known. To the rest of the world, Nelson Mandela was a giant: an anti-apartheid revolutionary, a world-renowned humanitarian, and South Africa's first black president. To Ndaba Mandela, he was simply "Granddad." In *Going to the Mountain*, Ndaba tells how he came to live with Mandela shortly after he turned eleven--having met each other only once, years before, when Mandela was imprisoned at Victor Verster Prison--and how the two of them slowly,

cautiously built a relationship that would affect both their lives in extraordinary ways. It wasn't an easy transition. Mandela had high expectations for those around him, especially his family, and Ndaba chafed at the strict rules and exacting guidelines in his grandfather's home. But at the same time--through overheard calls from foreign dignitaries as well as the Xhosa folk wisdom that his grandfather shared with him at every opportunity--Ndaba was learning how to be a man. On a scale both personal and epic, Ndaba's extraordinary journey mirrors that of South Africa's coming of age--from the segregated Soweto ghettos into which he was born to the privileged life in which he grew up and the turbulent yet exciting times in which he carries on his grandfather's legacy. Going to the Mountain is, in the end, a story about unlocking the power within each of us. It's a cautionary tale about how a child's life can go one way or the other, depending upon the intervention of a caring soul--and about the awesome power of

love to serve as a catalyst for change.

This Is All - Aidan Chambers 2020-05-05

“The masterpiece of one of young-adult literature’s greatest living writers.†?—Booklist, starred review Using a pillow book as her form, nineteen-year-old Cordelia Kenn sets out to write her life for her unborn daughter. What emerges is a portrait of an extraordinary girl who writes frankly of love, sex, poetry, nature, and, most of all, of herself in the world. As she attempts to capture “all†? of herself on paper, Cordelia maddens, fascinates, and ultimately seduces the reader in this tour de force from a writer who has helped redefine literature for young adults. A book not to be missed by any serious reader.

**Language and Ideology in Children's Fiction**

- John Stephens 1992

When children read fiction they are exposed to the beliefs which inform and structure their society. The books encourage child readers to internalise particular ways of seeing the world and help shape their development as individuals. Although this process forms a key part of their education, it remains largely invisible. As well as a story, fictions impart a significance to readers - often without revealing its presence or ground - and therefore have considerable potential to socialize their audience. John Stephens analyses this process and shows how fictions can work to constrain or liberate audience responses. He explores picture books as well as historical, realistic and fantastic fictions to show how both a character within the narrative and the implied reader are positioned within ideology. The

author considers areas of ideology not previously examined and offers new perspectives on realism and fantasy. The book will be of interest to linguists and teachers as well as to the general reader.

Maximize Your Coaching Effectiveness with Acceptance and Commitment Therapy - Richard Blonna 2011-05-01

As a life coach, you help people live purposeful lives that are driven by their deepest values. And

although your clients may not have diagnosable mental health disorders, it's likely that many of them encounter mental roadblocks such as fear, stress, anxiety, and worry that keep them from reaching their goals and developing their full potential. Thousands of cognitive behavioral psychologists from around the world rely on a method called acceptance and commitment therapy (ACT) to help their therapeutic clients get ""unstuck"" from these barriers and improve their level of functioning. In Maximize Your Coaching Effectiveness with Acceptance and Commitment Therapy, you'll learn to help your coaching clients harness these powerful psychological techniques to identify their passions, set values-based professional and personal goals, and realize their full potential. By guiding your clients through ACT-based exercises in mindfulness training and values clarification, you'll help them accept aspects of their situations that can't be changed, coexist with fear and other painful emotions, and

commit to taking the actions that will lead them to success. Maximize your coaching effectiveness by: Adapting powerful psychological techniques to fit your life-coaching practice Learning simple exercises you can do with clients to help them get unstuck Getting tips for assessing clients, assigning homework, and sparking motivation Helping clients master mindfulness to overcome fear, worry, and procrastination

*The End of My Addiction* - Olivier Ameisen, M.D. 2008-12-23

"After years of battling uncontrollable addiction, I have achieved the supposedly impossible: complete freedom from craving." Dr. Olivier Ameisen was a brilliant cardiologist on the staff

at one of America's top teaching hospitals and running his own successful practice when he developed a profound addiction to alcohol. He broke bones with no memory of falling; he nearly lost his kidneys; he almost died from massive seizures during acute withdrawal. He gave up his flourishing practice and, fearing for his life, immersed himself in Alcoholics Anonymous, rehab, therapy, and a variety of medications. Nothing worked. So he did the only thing he could: he took his treatment into his own hands. Searching for a cure for his deadly disease, he happened upon baclofen, a muscle relaxant that had been used safely for years as a treatment for various types of muscle spasticity, but had more recently shown promising results in studies with laboratory animals addicted to a wide variety of substances. Dr. Ameisen prescribed himself the drug and experimented with increasingly higher dosages until he finally reached a level high enough to leave him free of any craving for alcohol. That was more than five years ago.

Alcoholism claims three hundred lives per day in the United States alone; one in four U.S. deaths is attributable to alcohol, tobacco, or illegal drugs. Baclofen, as prescribed under a doctor's care, could possibly free many addicts from tragic and debilitating illness. But as long as the medical and research establishments continue to ignore a cure for one of the most deadly diseases in the world, we won't be able to understand baclofen's full addiction-treatment potential. *The End of My Addiction* is both a memoir of Dr. Ameisen's own struggle and a groundbreaking call to action—an urgent plea for research that can rescue millions from the scourge of addiction and spare their loved ones the collateral damage of the disease.

*Global Features of Constitutional Law* - F. Venter 2010

What are the implications of globalization for the understanding of, research within, and practice of constitutional law as an increasingly comparative field? What method(s) are appropriate for doing constitutional comparison? Why should constitutional judges engage in comparison? How do constitutional States deal with common problems exacerbated by globalization? Partly shackled by superannuated terminology, where is the world of constitutionalism heading? This book confronts these questions. The discussion goes well beyond an introduction: the multi-jurisdictional analysis represents a contribution to the advancement of comparative constitutional law. Although the material is sourced primarily from the constitutional law of the US, Canada, South Africa, and Germany, there are also substantial references to the EU, the UK, and the Netherlands. The considerations brought

forward are relevant to virtually every jurisdiction which is part of the global community of the early 21st century. The book has been subject to double blind peer review. One reviewer wrote: "The author comes to balanced and reasonable conclusions in studying the globalisation of constitutional law. The work is richly composed of comparative material and examples from various systems. The author also does not neglect to study the thought of leading comparative lawyers.... It is commendable that abstract questions and problems of law are addressed with reference to concrete examples, thereby bringing difficult problems to life. This is especially true given the many references to case law.... In essence, the work reads well, is well researched and is a worthy addition to comparative law and thought on the problems in this field."

*Introduction to Sociology* - Frank van Tubergen 2020-02-25

Comprehensive and engaging, this textbook introduces students not only to foundational sociological work, but also to insights from

contemporary sociological theory and research. This combined approach ensures that students become familiar with the core of sociology: key concepts, theories, perspectives, methods, and findings. Students will acquire the ability to think like a sociologist, investigate and understand complex social phenomena. This text presents a complete sociological toolkit, guiding students in the art of asking good sociological questions, devising a sophisticated theory and developing methodologies to observe social phenomena. The chapters of this book build cumulatively to equip students with the tools to quickly understand any new sociological topic or contemporary social problem. The textbook also applies the sociological toolkit to selected key sociological issues, showing how specific sociological topics can be easily investigated and understood using this approach. Taking a global and comparative perspective, the book covers a rich diversity of sociological topics and social problems, such as crime, immigration, race and

ethnicity, media, education, family, organizations, gender, poverty, modernization and religion. The book presents a range of helpful pedagogical features throughout, such as: Chapter overview and learning goals summaries at the start of every chapter; Thinking like a sociologist boxes, encouraging students to reflect critically on learning points; Principle boxes, summarizing key sociological principles; Theory schema boxes, presenting sociological theories in a clear, understandable manner; Stylized facts highlighting key empirical findings and patterns; Key concepts and summary sections at the end of every chapter; and Companion website providing additional material for every chapter for both instructors and students, including PowerPoint lecture notes, discussion questions and answers, multiple-choice questions, further reading and a full glossary of terms. This clear and accessible text is essential reading for students taking introductory courses in sociology. It will also be

useful for undergraduate and graduate courses in other social science disciplines, such as psychology, economics, human geography, demography, communication studies, education sciences, political science and criminology.

*One Minute Mentoring* - Ken Blanchard  
2017-05-02

The bestselling co-author of the legendary *The One Minute Manager*® and a former Twitter executive join forces to create the ultimate guide to creating powerful mentoring relationships. While most people agree that having a mentor is a good thing, they don't know how to find one or use one. And despite widespread approval for the idea of being a mentor, most people don't think they have the time or skills to do so. Positive mentoring relationships can change the way we lead and help us succeed. In *One Minute Mentoring*, legendary management guru Ken Blanchard and Claire Diaz-Ortiz, a former Twitter executive and early employee, combine their knowledge to provide a systematic

approach to intergenerational mentoring, giving readers great insight into the power and influence of mentoring and encouraging them to pursue their own mentoring relationships. Using his classic parable format, Blanchard explains why developing effective communication and relationships across generations can be a tremendous opportunity for companies and individuals alike. One Minute Mentoring is the go-to source for learning why mentoring is the secret ingredient to professional and personal success.

**Reports of Judgments and Decisions / Recueil Des Arrêts Et Decisions Index 2011** - European Court Of 2014-05-01

The European Court of Human Rights is an international court based in Strasbourg and is part of the Council of Europe. The Court rules on individual or inter-State applications alleging violations of the rights and freedoms set out in the European Convention on Human Rights by any of the Council's 47 Member States. The Court's case-law makes the Convention a

powerful living instrument for consolidating the rule of law and democracy in Europe. Reports of Judgments and Decisions is the official series of leading cases selected by the most senior judges at the Court because of their high jurisprudential interest. Each judgment and decision is published in English and French and is preceded by a summary - including case description, keywords, and key notions - for ease of reference. The Reports are primarily designed for legal professionals, libraries, and academics. Wolf Legal Publishers is proud to present the Reports of Judgments and Decisions series, formerly published by Carl Heymanns Verlag. Each volume contains a series of cases or extracts of cases, preceded by a summary prepared by the Registry. Each summary contains a case description, keywords, and key notions, in addition to the facts of the case and the Court's main findings. Cases will continue to be presented in five or six volumes published every year, accompanied by an index listing

them, both alphabetically (by applicant and by respondent State) and analytically (by Article(s) of the European Convention on Human Rights). \*\*\* The 2011 Index is a companion volume to the six individual volumes of the select reports/cases collected for the year 2011. **Een nagelaten bekentenis** - Marcellus Emants 1951

Language Proficiency in Native and Non-native Speakers - Jan H. Hulstijn 2015-02-15

This book, written for both seasoned and novice

researchers, presents a theory of what is called Basic and Higher Language Cognition (BLC and HLC), a theory aimed at making some fundamental issues concerning first and second language learning and bilingualism (more) empirical. The first part of the book provides background for and explication of the theory as well as an agenda for future research, while the second part reports on selected studies of language proficiency in native speakers, as well as non-native speakers, and studies of the relationship between literacy in a first and second language. Conceptual and methodological problems in measuring language proficiency in research on second language acquisition and bilingualism are also discussed. Further, the notion of levels of language proficiency, as rendered by the Common European Framework of Reference for Languages (CEFR), is critically examined, suggesting ways of empirically investigating a number of questions that the CEFR raises but is

not capable of answering.
