[Empress Dowager Cixi](#) - Jung Chang 2013-10-29

A New York Times Notable Book Empress Dowager Cixi (1835–1908) is the most important woman in Chinese history. She ruled China for decades and brought a medieval empire into the modern age. At the age of sixteen, in a nationwide selection for royal consorts, Cixi was chosen as one of the emperor's numerous concubines. When he died in 1861, their five-year-old son succeeded to the throne. Cixi at once launched a palace coup against the regents appointed by her husband and made herself the real ruler of China—behind the throne, literally, with a silk screen separating her from her officials who were all male. In this groundbreaking biography, Jung Chang vividly describes how Cixi fought against monumental obstacles to change China. Under her the ancient country attained virtually all the attributes of a modern state: industries, railways, electricity, the telegraph and an army and navy with up-to-date weaponry. It was she who abolished gruesome punishments like “death by a thousand cuts” and put an end to foot-binding. She inaugurated women's liberation and embarked on the path to introduce parliamentary elections to China. Chang comprehensively overturns the conventional view of Cixi as a diehard conservative and cruel despot. Cixi reigned during extraordinary times and had to deal with a host of major national crises: the Taiping and Boxer rebellions, wars with France and Japan—and an invasion by eight allied powers including Britain, Germany, Russia and the United States. Jung Chang not only records the Empress Dowager's conduct of domestic and foreign affairs, but also takes the reader into the depths of her splendid Summer Palace and the harem of Beijing's Forbidden City, where she lived surrounded by eunuchs—one of whom she fell in love, with tragic consequences. The world Chang describes here, in fascinating detail, seems

almost unbelievable in its extraordinary mixture of the very old and the very new. Based on newly available, mostly Chinese, historical documents such as court records, official and private correspondence, diaries and eyewitness accounts, this biography will revolutionize historical thinking about a crucial period in China's—and the world's—history. Packed with drama, fast paced and gripping, it is both a panoramic depiction of the birth of modern China and an intimate portrait of a woman: as the concubine to a monarch, as the absolute ruler of a third of the world's population, and as a unique stateswoman.

**Death by China** - Peter Navarro 2011-05-05

The world's most populous nation and soon-to-be largest economy is rapidly turning into the planet's most efficient assassin. Unscrupulous Chinese entrepreneurs are flooding world markets with lethal products. China's perverse form of capitalism combines illegal mercantilist and protectionist weapons to pick off American industries, job by job. China's emboldened military is racing towards head-on confrontation with the U.S. Meanwhile, America's executives, politicians, and even academics remain silent about the looming threat. Now, best-selling author and noted economist Peter Navarro meticulously exposes every form of "Death by China," drawing on the latest trends and events to show a relationship spiraling out of control. Death by China reveals how thousands of Chinese cyber dissidents are being imprisoned in "Google Gulags"; how Chinese hackers are escalating coordinated cyberattacks on U.S. defense and America's key businesses; how China's undervalued currency is damaging the U.S., Europe, and the global recovery; why American companies are discovering that the risks of operating in China are even worse than they imagined; how China is promoting nuclear proliferation in its pursuit of oil; and how the media distorts the China story--including a "Hall of Shame" of America's worst China apologists. This book doesn't just catalogue China's abuses: It presents a call to action and a survival guide for a critical juncture in America's history--and the world's. Publisher's note - in this book various quotes and viewpoints are attributed to a 'Ron Vara'. Ron Vara is not an actual person, but rather an alias created by Peter Navarro in order to present his views and opinions.

**Oriente Italiano** - Mary Ann McDonald Carolan 2022-09-01

Oriente Italiano explores contemporary Italian filmmakers' fascination with China and the Chinese in both documentary and fictional films. Delineating the contours of this fascination, the book begins with the works of Carlo Lizzani (Behind the Great Wall, 1958) and Michelangelo Antonioni (Chung Kuo—China, 1972), both of whom ventured to China with the aim of documenting new, yet physically and culturally distant, realities. Their documentary investigations yielded to fictional portrayals, from the lavish view of a historical Middle Kingdom by director Bernardo Bertolucci (The Last Emperor, 1987) to the stark consideration of Italian economic exchange with contemporary China by Gianni Amelio (The Missing Star, 2006). The wave of Chinese migration to Italy in the late twentieth century created a new sense of otherness within Italy as Chinese migrants became the subjects of fictional narratives and documentaries in the works of Stefano Incerti (Gorbaciof, 2010) and Andrea Segre (Shun Li and the Poet, 2011) and Riccardo Cremona and Vincenzo De Cecco (Miss Little China, 2009). In the twenty-first century, a new chapter in the relationship between Italy and China has emerged in the form of transnational collaborations in the art and business of filmmaking.

**China** - Edward Burtynsky 2005

"In this book, Edward Burtynsky presents photographs of the remnant and newly established zones of Chinese industrialization - those places created while realizing the "glory" of wealth for a powerful civilization yearning to move forward and join the ranks of modern nations. Using diplomatic channels, Burtynsky has gained rare access to these sites, creating images that are at once arresting and unsettling. These photographs afford us privileged glimpses of the vast social and economic transformation currently underway in China." "Burtynsky casts a watchful eye over the extreme expressions of Chinese industry. His subjects include the Three Gorges Dam, at present the world's largest engineering project and Bao Steel,

China's biggest steel producer. He explores the vanishing dinosaurs of old industrial complexes in the north eastern "rust belt" and shipyards at Qiligang, the single most concentrated area of shipbuilding in the country."--BOOK JACKET.

*Red Carpet* - Erich Schwartzel 2022-02-08

"This is a fascinating book. It will educate you. Schwartzel has done some extraordinary reporting." — The New York Times Book Review "In this highly entertaining but deeply disturbing book, Erich Schwartzel demonstrates the extent of our cultural thrall to China. His depiction of the craven characters, American and Chinese, who have enabled this situation represents a significant feat of investigative journalism. His narrative is about not merely the movie business, but the new world order." —Andrew Solomon, author of *Far from the Tree* and *The Noonday Demon* An eye-opening and deeply reported narrative that details the surprising role of the movie business in the high-stakes contest between the U.S. and China From trade to technology to military might, competition between the United States and China dominates the foreign policy landscape. But this battle for global influence is also playing out in a strange and unexpected arena: the movies. The film industry, Wall Street Journal reporter Erich Schwartzel explains, is the latest battleground in the tense and complex rivalry between these two world powers. In recent decades, as China has grown into a giant of the international economy, it has become a crucial source of revenue for the American film industry. Hollywood studios are now bending over backward to make movies that will appeal to China's citizens—and gain approval from severe Communist Party censors. At the same time, and with America's unwitting help, China has built its own film industry into an essential arm of its plan to export its national agenda to the rest of the world. The competition between these two movie businesses is a Cold War for this century, a clash that determines whether democratic or authoritarian values will be broadcast most powerfully around the world. *Red Carpet* is packed with memorable characters who have—knowingly or otherwise—played key roles in this tangled industry web: not only A-list stars like Matt Damon, Angelina Jolie, and Richard Gere but also eccentric Chinese billionaires, zany expatriate filmmakers, and starlets who disappear from public life without explanation or trace. Schwartzel combines original reporting, political history, and show-biz intrigue in an exhilarating tour of global entertainment, from propaganda film sets in Beijing to the boardrooms of Hollywood studios to the living rooms in Kenya where families decide whether to watch an American or Chinese movie. Alarming, occasionally absurd, and wildly entertaining, *Red Carpet* will not only alter the way we watch movies but also offer essential new perspective on the power struggle of this century.

The politics of nutrition and the impact of special interest groups in the creation and dissemination of public information are also discussed.

**China, Korea & Japan at War, 1592-1598** - J. Marshall Craig 2020-04-13

The East Asian War of 1592 to 1598 was the only extended war before modern times to involve Japan, Korea, and China. It devastated huge swathes of Korea and led to large population movements across borders. This book draws on surviving letters and diaries to recount the personal experiences of five individuals from different backgrounds who lived through the war and experienced its devastating effects: a Chinese doctor who became a spy; a Japanese samurai on his first foreign expedition; a Korean gentleman turned refugee; a Korean scholar-diplomat; and a Japanese Buddhist monk involved in the atrocities of the invasion. The book outlines the context of the war so that readers can understand the background against which the writers' lives were lived, allows the individual voices of the five men and their reflections on events to come through, and casts much light on prevailing attitudes and conditions, including cultural interaction, identity, cross-border information networks, class conflict, the role of religion in society, and many others aspects of each writer's world.

*The Oxford Handbook of Chinese Cinemas* - Carlos Rojas 2013-04-25

What does it mean for a cinematic work to be "Chinese"? Does it refer specifically to a work's subject, or does it also reflect considerations of language, ethnicity, nationality, ideology, or political orientation? Such questions make any single approach to a vast field like "Chinese cinema" difficult at best. Accordingly, *The Oxford Handbook of Chinese Cinemas* situates the term more broadly among various different phases, genres, and distinct national configurations, while taking care to address the consequences of grouping together so many disparate histories under a single banner. Offering both a platform for cross-disciplinary dialogue and a mapping of Chinese cinema as an expanded field, this Handbook presents thirty-three essays by leading researchers and scholars intent on yielding new insights and new analyses using three different methodologies. Chapters in Part I investigate the historical periodizations of the field through changing notions of national and political identity — all the way from the industry's beginnings in the 1920s up to its current forms in contemporary Hong Kong, Taiwan, and the global diaspora. Chapters in Part II feature studies centered on the field's taxonomical formalities, including such topics as the role of the Chinese opera in technological innovation, the political logic of the "Maoist film," and the psychoanalytic formula of the kung fu action film. Finally, in Part III, focus is given to the structural elements that comprise a work's production, distribution, and reception to reveal the broader cinematic apparatuses

within which these works are positioned. Taken together, the multipronged approach supports a wider platform beyond the geopolitical and linguistic limitations in existing scholarship. Expertly edited to illustrate a representative set of up to date topics and approaches, The Oxford Handbook of Chinese Cinemas provides a vital addition to a burgeoning field still in its formative stages.

*Contesting Citizenship* - Birte Siim 2014-01-02

This new book shows how citizenship, and its meaning and form, has become a vital site of contestation. It clearly demonstrates how whilst minority groups struggle to redefine the rights of citizenship in more pluralized forms, the responsibilities of citizenship are being reaffirmed by democratic governments concerned to maintain the common political culture underpinning the nation. In this context, one of the central questions confronting contemporary state and their citizens is how recognition of socio-cultural 'differences' can be integrated into a universal conception of citizenship that aims to secure equality for all. Equality policies have become a central aspect of contemporary European public policy. The 'equality/difference' debate has been a central concern of recent feminist theory. The need to recognize diversity amongst women, and to work with the concept of 'intersectionality' has become widespread amongst political theory. Meanwhile European states have each been negotiating the demands of ethnicity, disability, sexuality, religion, age and gender in ways shaped by their own institutional and cultural histories. This book was previously published as a special issue of Critical Review of International Social & Political Philosophy (CRISPP).

*Sex in China* - Fang Fu Ruan 2013-11-22

China today is sexually (and in many other ways) a very repressive society, yet ancient China was very different. Some of the earliest surviving literature of China is devoted to discussions of sexual topics, and the sexual implications of the Ym and Yang theories common in ancient China continue to influence Tantric and esoteric sexual practices today far distant from their Chinese origins. In recent years, a number of books have been written exploring the history of sexual practices and ideas in China, but most have ended the discussion with ancient China and have not continued up to the present time. Fang Fu Ruan first surveys the ancient assumptions and beliefs, then carries the story to present-day China with brief descriptions of homosexuality, lesbianism, transvestism, transsexualism, and prostitution, and ends with a chapter on changing attitudes toward sex in China today. Dr. Ruan is well qualified to give such an overview. Until he left China in the 1980s, he was a leader in attempting to change the repressive attitudes of the government toward human sexuality. He wrote a best selling book on sex in China, and had written to and corresponded with a number of people in China who considered him as confidant and advisor about their sex problems. A physician and medical historian, Dr. Ruan's doctoral dissertation was a study of the history of sex in China.
