The Black Star Passes - Jr. John W. Campbell 2016-01-21

INTRODUCTION These stories were written nearly a quarter of a century ago, for the old Amazing Stories magazine. The essence of any magazine is not its name, but its philosophy, its purpose. That old Amazing Stories is long since gone; the magazine of the same name today is as different as the times today are different from the world of 1930. Science-fiction was new, in 1930; atomic energy was a dream we believed in, and space-travel was something we tried to understand better. Today, science-fiction has become a broad field, atomic energy—despite the feelings of many present adults!—is no dream. (Nor is it a nightmare; it is simply a fact, and calling it a nightmare is another form of effort to push it out of reality.) In 1930, the only audience for science-fiction was among those who were still young enough in spirit to be willing to hope and speculate on a new and wider future—and in 1930 that meant almost nothing but teen-agers. It meant the brightest group of teen-agers, youngsters who were willing to play with ideas and understandings of physics and chemistry and astronomy that most of their contemporaries considered “too hard work.” I grew up with that

group; the stories I wrote over the years, and, later, the stories I bought for Astounding Science Fiction changed and grew more mature too. Astounding Science Fiction today has many of the audience that read those early stories; they're not high school and college students any more, of course, but professional engineers, technologists and researchers now. Naturally, for them we need a totally different kind of story. In growing with them, I and my work had to lose much of the enthusiastic scope that went with the earlier science fiction.

Stonecavern - Laura Woodward 2011-03-11

In the silent aftermath he heard a gurgle of water. He was dusty and dirty from the rock explosion and the splashing of the water beckoned him. Water emerged from an opening high overhead and gently cascaded down the rocks to form a pool. He leaned over and splashed the water over his face letting its refreshing coolness linger. A few drops fell from his hands and formed rings in the water. Sliding his hands down his face he peered into the clear pool. Whats this? At first he thought his eyes played a trick on him and then he looked again. Gradually the entire valley below came into focus as if he possessed the sight of a dragon. He could clearly see every farm down to the trees planted in the orchards! He stepped back and his eyes went to the golden throne elevated above the pool of water. One could sit upon the throne and look into the water

surveying the land below. He walked over to admire its workmanship. Gently his long thin fingers touched the markings etched into its massive arms; the same mysterious symbols that covered Stonecaverns walls. The embedded gems sparkled in the fire light invitingly. He stepped onto the stone platform and sat down. It fit him perfectly. Rubbing his hands over the arm rests he marveled at how seamlessly his gems blended into the gold. Master craftsmanship or dragon power? Either way he felt an unequalled power of transformation radiate from the magnificent piece. Could he use this power to transform his thoughts to his evil intent?

Coughing the Distance - Walter van Praag 2009-10

Walter's life is a struggle to survive, there are times when he has to fight for every breath. This book will impress, inspire and enlighten readers on how extreme obstacles can be overcome by sheer guts and determination in the face of a chronic illness. It is also an entertaining travelogue of parts of Eastern Europe that few of us would visit, and certainly not on a 4,000 Km journey by bicycle with a less than 50% lung capacity. The story covers the planning and execution of an amazing journey by a small band of people, some of whom had not met each other before and who are thrown together in funny, poignant, and sometimes almost unendurable and frustrating circumstances. Central is the author, Walter who is 42 and has cystic fibrosis, which as many will know is a chronic and debilitating condition from which most people are lucky to survive into their 30's.

[The Ultimate Collection of Adventure All Time Bestsellers](#) - Arthur Conan Doyle; Oscar Wilde; Richard Connell; Henry David Thoreau

The Ultimate Collection of Adventure All Time Bestsellers: The Adventures of Sherlock Holmes/ The Importance of Being Earnest/ The Most Dangerous Game/ Walden by Henry. In this Collection, we have created HTML Tables of Contents that will make reading a real pleasure! The first table of contents (at the very beginning of the eBook) lists the titles of all Collections included in this volume. By clicking on one of those titles you will be redirected to the beginning of that work, where you'll find a new TOC that lists all the chapters and sub-chapters of that specific work. --- About Anthology: ---- The Adventures of Sherlock Holmes by Arthur Conan Doyle The Adventures of Sherlock Holmes is a collection of twelve short stories by Arthur Conan Doyle, first published on 14 October 1892. It contains the earliest short stories featuring the consulting detective Sherlock Holmes, which had been published in twelve monthly issues of The Strand Magazine from July 1891 to June 1892. The stories are collected in the same sequence, which is not supported by any fictional chronology. The only characters common to all twelve are Holmes and Dr. Watson and all are related in the first-person narrative from Watson's point of view. In general, the stories in The Adventures of Sherlock Holmes identify and try to correct social injustices. Holmes is portrayed as offering a new, fairer sense of justice.

The stories were well received, and boosted the subscriptions figures of The Strand Magazine, prompting Doyle to be able to demand more money for his next set of stories. The first story, "A Scandal in Bohemia", includes the character of Irene Adler, who, despite being featured only within this one story by Doyle, is a prominent character in modern Sherlock Holmes adaptations, generally as a love interest for Holmes. Doyle included four of the twelve stories from this collection in his twelve favorite Sherlock Holmes stories, picking "The Adventure of the Speckled Band" as his overall favorite. --- The Importance of Being Earnest Oscar Wilde's madcap farce about mistaken identities, secret engagements and lovers' entanglements still delights readers more than a century after its 1895 publication and premiere performance. The rapid-fire wit and eccentric characters of The Importance of Being Earnest have made it a mainstay of --- The Most Dangerous Game The Most Dangerous Game, also published as The Hounds of Zaroff, is a short story by Richard

Connell first published in Collier's magazine on January 19, 1924. It features a big-game hunter from New York who falls off a yacht and swims to an isolated island in the Caribbean where he is hunted by a Cossack aristocrat. The story is an adaptation of the big-game hunting safaris in Africa and South America that were fashionable among wealthy Americans in the 1920s. --- Walden Walden (also known as Life in the Woods) by Henry David Thoreau is one of the best-known non-fiction books written by an American. Published in 1854, it details Thoreau's life for two years and two months in a second-growth forest around the shores of Walden Pond, not far from his friends and family in Concord, Massachusetts. Walden was written so that the stay appears to be a year, with expressed seasonal divisions. Thoreau called it an experiment in simple living. Walden is neither a novel nor a true autobiography, but a social critique of the Western World, with each chapter heralding some aspect of humanity that needed to be either renounced or praised.
