Cheap Print and the People - David Atkinson 2019-06-17

In every country across Europe, at some point or other during the last five hundred years, cheap printed materials were the staple diet of ordinary people, providing a rich array of entertainment, education, and information. They came in various forms, but were usually variations on the theme of single sheets or simple booklets, and they were carried far and wide in pedlars' packs and sold in the streets, at fairs and markets and wherever crowds gathered, as well as in backstreet shops. Their content was as broad as can be imagined: news and scandal, crimes and last-dying confessions of murderers, divinations, instructional works, wonder stories, miracles, folktales and legends, love stories, celebrations of national victories and lamentations for the good old days. They were often couched in the form of poetry or song, and included pictures in the form of woodcuts and engravings to add to their appeal. In every country across Europe, governments and local and religious authorities tried at times to suppress or control these cheap printed materials. Sometimes, too, the authorities would adopt the format of cheap print to spread their own moral and conformist messages. The educated elites almost always treated cheap print with disdain, but the people continued to buy these items in their tens of thousands, and the printers knew exactly what they wanted. Neglected and reviled for centuries, cheap print shines a light on the culture and lives of ordinary people. This is the first volume to take a pan-European perspective, with each chapter detailing the experience of a particular country or region, offering the reader the opportunity to progress from the particular to a continent-wide overview. This combination of the ubiquity of the materials and overarching themes with the variations wrought by local circumstances can be summed up in the phrase always the same, but everywhere different.

From Traditional Attire to Modern Dress - Constanța Vintilă-Ghițulescu 2011-07-12

The essays in this volume discuss the visible elements, such as clothing, jewellery, the opulence of the elite, fashion and styles, but they also inform the reader about the manner in which these were connected to political and social developments. The articles in this volume highlight important themes regarding the history of textiles, the shifting of trading and manufacturing centres, the professionalization of the various fields in the history of fashion, and the connection with the introduction and proliferation of steam-powered machines and later of electrical equipment. Clothes and garments are also part of the social and political transformations brought about by the multiple modernisations of the various Balkan societies. Fabrics, colours, threads, barrels and buttons, lace and jewellery are marvellous documents that bring to life details of the remote worlds of our ancestors, helping us understand the complex

meanings of sartorial appearances. The Balkans and the Orient are regions that offer promising avenues of multidisciplinary research concerning clothes and fashion as indicators of social status and political change.

Camille Silvy - Mark Haworth-Booth 1992

The subject of this book, which is the first to be devoted to a single photograph, is Camille Silvy's remarkable River Scene. Hailed as a masterpiece when it was first exhibited in France in 1859, the photograph is accompanied here by newly commissioned color photographs by noted photographer Stephen Shore. In a provocative essay, Haworth-Booth discusses the history of the photograph in the context of attitudes of the day toward photography and photographic exhibitions, outlines the influences on Silvy, and examines his eventual influence on others. This is the third book in the Getty Museum Studies on Art (GMSA) series.

French in Action - Pierre J. Capretz 2015-06-28

Since it was first published, French in Action: A Beginning Course in Language and Culture—The Capretz Method has been widely recognized in the field as a model for video-based foreign-language instructional materials. The third edition, revised by Pierre Capretz and Barry Lydgate, includes new, contemporary illustrations throughout and, in the Documents section of each lesson, more-relevant information for today's students. A completely new feature is a journal by the popular character Marie-Laure, who observes and comments humorously on the political, cultural, and technological changes in the world between 1985 and today. The new edition also incorporates more content about the entire Francophone world. In use by hundreds of colleges, universities, and high schools, French in Action remains a powerful educational resource that this third edition updates for a new generation of learners. Part 2 gives students at the intermediate level the tools they need to communicate effectively in French and to understand and appreciate French and Francophone cultures.

Rhythms of Revolt: European Traditions and Memories of Social Conflict in Oral Culture - Éva Guillorel 2017-10-23

The culture of insurgents in early modern Europe was primarily an oral one; memories of social conflicts in the communities affected were passed on through oral forms such as songs and legends. This popular history continued to influence political choices and actions through and after the early modern period. The chapters in this book examine numerous examples from across Europe of how memories of revolt were perpetuated in oral cultures, and they analyse how traditions were used. From the German Peasants' War of 1525 to the counter-revolutionary guerrillas of the 1790s, oral traditions can offer radically different interpretations of familiar events. This is a 'history from below', and a history from song, which challenges existing historiographies of early modern revolts.

Metro 4 Foundation Student Book Revised Edition - Gill Ramage 2001

Focuses on grammar and offers coverage of topics required for the AQA GCSE French exam. With an emphasis on exam preparation, this title provides students with the opportunity to practice and revise what they have learnt. It contains 'primer' sections that cover what has already been done at key stage 3, and offer practice on the four main skills.

Fishes with Funny French Names - Debra Kelly 2021-12-02

This book tells the story of what happens when an essentially Parisian institution travels and establishes itself in its neighbour's capital city, bringing with it French food culture and culinary practices. The arrival and evolution of the French restaurant in the British capital is a tale of culinary and cultural exchange and of continuity and change in the development of London's dining-out culture. Although the main character of this story is the French restaurant, this cultural history also necessarily engages with the people who produce, purvey, purchase and consume that food culture, in many different ways and in many different settings, in London over a period of some one hundred and fifty years. British references to France and to the French are littered with associations with food, whether it is desired, rejected, admired, loathed, envied, disdained, from the status of haute cuisine and the restaurants and chefs associated with it to contemporary concerns about food poverty and food waste, to dietary habits and the politicisation of food, and at every level in between. However, thinking about the place of the French restaurant in London restaurant and food culture over a long time span, in many and varied places and spaces in the capital, creates a more nuanced picture than that which may at first seem obvious.

Fighting the British - Bernard Wilkin 2018-01-30

The British army during the Napoleonic Wars is often studied using English sources and the British view of their French opponents has been covered in exhaustive detail. However, the French view of the British has been less often studied and is frequently misunderstood. This book, based on hundreds of letters, memoirs, and reports of French officers and soldiers of the Napoleonic armies, adds to the existing literature by exploring the British army from the French side of the battle line. Each chapter looks at a specific campaign involving the French and the British. Extensive quotes from the French soldiers who were there are complemented by detailed notes describing the context of the war and the career of the eyewitness. Throughout the emphasis is on the voices of the lower ranks, the conscripts and the noncommissioned and junior officers. They describe in their own words the full range of warfare during the period not only land battles but battles at sea, including the Nile and Trafalgar and accounts of captivity in England are included too. This original and revealing material gives a fascinating insight into

the attitudes and concerns of the French soldiers of the period and their views about their British enemy.
