Pakistan and Human Rights - Satvinder Juss 2022-02-14

All too often the law in Pakistan interacts with the country's socio-cultural and religious norms. This together with the War on Terror, has led to the increased use of the death penalty, enforced disappearances, the use of Special Criminal Courts, 'honor crimes' and minority rights violations in a way that jeopardizes human rights.

Holy Blood - Paul Overby 1993

Overby has a firsthand account of the Afghan war set against an extensive and thoroughly researched background of political history. In order to fix the personal experience in the broader historical context Overby has drawn on leading Afghan scholars like Louis Dupree, Olivier Roy, Bahanudin Majrooh, Eqbal Ahmad, Jan-Heeren Grevemeyer and Barnett Rubin. He sees the war growing from the angry tension over modernization in Afghanistan and sets it in its context as an expression of Islamism--the most modern and dynamic version of Islamic fundamentalism.

The Pakistan Paradox - Christophe Jaffrelot

2016-06-16

The idea of Pakistan stands riddled with tensions. Initiated by a small group of select Urdu-speaking Muslims who envisioned a unified Islamic state, today Pakistan suffers the divisive forces of various separatist movements and religious fundamentalism. A small entrenched elite continue to dominate the country's corridors of power, and democratic forces and legal institutions remain weak. But despite these seemingly insurmountable problems, the Islamic Republic of Pakistan continues to endure. The Pakistan Paradox is the definitive history of democracy in Pakistan, and its survival despite ethnic strife, Islamism and deepseated elitism. This edition focuses on three kinds of tensions that are as old as Pakistan itself. The tension between the unitary definition of the nation inherited from Jinnah and centrifugal ethnic forces; between civilians and army officers who are not always in favour of or against democracy; and between the Islamists and those

who define Islam only as a cultural identity marker.

Thomas Jefferson's Qur'an - Denise Spellberg 2014-07-01

In this original and illuminating book, Denise A. Spellberg reveals a little-known but crucial dimension of the story of American religious freedom—a drama in which Islam played a surprising role. In 1765, eleven years before composing the Declaration of Independence, Thomas Jefferson bought a Qur'an. This marked only the beginning of his lifelong interest in Islam, and he would go on to acquire numerous books on Middle Eastern languages, history, and travel, taking extensive notes on Islam as it relates to English common law. Jefferson sought to understand Islam notwithstanding his personal disdain for the faith, a sentiment prevalent among his Protestant contemporaries in England and America. But unlike most of them, by 1776 Jefferson could imagine Muslims as future citizens of his new country. Based on groundbreaking research, Spellberg compellingly recounts how a handful of the

Founders, Jefferson foremost among them, drew upon Enlightenment ideas about the toleration of Muslims (then deemed the ultimate outsiders in Western society) to fashion out of what had been a purely speculative debate a practical foundation for governance in America. In this way, Muslims, who were not even known to exist in the colonies, became the imaginary outer limit for an unprecedented, uniquely American religious pluralism that would also encompass the actual despised minorities of Jews and Catholics. The rancorous public dispute concerning the inclusion of Muslims, for which principle Jefferson's political foes would vilify him to the end of his life, thus became decisive in the Founders' ultimate judgment not to establish a Protestant nation, as they might well have done. As popular suspicions about Islam persist and the numbers of American Muslim citizenry grow into the millions, Spellberg's revelatory understanding of this radical notion of the Founders is more urgent than ever. Thomas Jefferson's Qur'an is a timely look at the ideals that existed at our country's creation, and their fundamental implications for our present and future.

The Meaning of the Glorious Koran - Marmaduke William Pickthall 1953

A translation of the Koran into English by a native English speaker. Pickthall meant the work to convey the meaning of the Koran rather than to serve as a replacement for reading it in Arabic. He believed that "the Koran cannot be translated". The structure includes a short introduction summarizing the life of Mohammed and explaining the organization of the surahs (in the order that Mohammed preferred them rather than by chronological revelation or by consistent theme). The copy of the Koran that Pickthall used was written in 1246 C.E. by Al-Hajj Muhammad Shakarzâdeh from Turkey.

The Application of Islamic Criminal Law in Pakistan - Tahir Wasti 2009

No legal system in the world has aroused as much public interest as Sharia. However, the discourse around Sharia law is largely focussed on its development and the theories, principles and rules that inform it. Less attention has been given to studying the consequences of its operation, particularly in the area of Islamic criminal law. Even fewer studies explore the

actual practice of Islamic criminal law in contemporary societies. This book aims to fill these gaps in our understanding of Sharia law in practice. It deals specifically with the consequences of enforcing Islamic criminal law in Pakistan, providing an in-depth and critical analysis of the application of the Islamic law of Qisas and Diyat (retribution and blood money) in the Muslim world today. The empirical evidence adduced more broadly demonstrates the complications of applying traditional Sharia in a modern state.

Enduring Freedom, Enduring Voices - Michael G. Walling 2015-01-20

"Michael Walling has honored the American men and women who served in Operation Enduring Freedom by helping them tell their own stories. This is the war in Afghanistan as experienced by the people who fought it." General Tommy R. Franks, Ret. The war in Afghanistan has seen men and women thrown into America's longest sustained combat operation. For over 13 years, US military personnel have been embroiled in a conflict unlike any other, in a hostile country where danger and death lurk at every turn. The nature of the fighting has transformed not only the entire structure of the US military, but the lives of every soldier, sailor, marine, coast guardsman, and airman who served there. There have been many tales told of this most recent Afghan war, but until now no single work has combined the strategic view of high-level commanders with the perspective of soldiers on the ground. This book places the first-hand accounts of serving men and women into the context of the military operations. Drawing on gripping oral histories from theater commanders, Special Forces troops, reconstruction teams, and everyday soldiers, Michael G. Walling analyzes operations as they were experienced by individuals, from those immediately following 9/11 through to those in 2014 as US troops prepared to withdraw. He

also charts the evolution of US military structure as it was forced to adapt to cope with the non-conventional, but nonetheless deadly threats of asymmetric warfare, as well as detailing covert ops, infrastructure rebuilding, and the training of Afghan forces. Resonating across gender, age, nationality, and ethnicity, this book is not just a document of US fortunes in a far-flung conflict. It is a tribute to the determination, heroism, sacrifice, and the strength of the human spirit.

I Am Malala - Malala Yousafzai 2013-10-08
A MEMOIR BY THE YOUNGEST RECIPIENT OF THE NOBEL PEACE PRIZE As seen on Netflix with David Letterman "I come from a country that was created at midnight. When I almost died it was just after midday." When the Taliban took control of the Swat Valley in Pakistan, one girl spoke out. Malala Yousafzai refused to be silenced and fought for her right to an education. On Tuesday, October 9, 2012, when she was fifteen, she almost paid the ultimate price. She was shot in the head at point-blank range while riding the bus home from school, and few expected her to survive. Instead, Malala's miraculous recovery has taken her on an extraordinary journey from a remote valley in northern Pakistan to the halls of the United Nations in New York. At sixteen, she became a global symbol of peaceful protest and the youngest nominee ever for the Nobel Peace Prize. I AM MALALA is the remarkable tale of a family uprooted by global terrorism, of the fight for girls' education, of a father who, himself a school owner, championed and encouraged his daughter to write and attend school, and of brave parents who have a fierce love for their daughter in a society that prizes sons. I AM MALALA will make you believe in the power of one person's voice to inspire change in the world.

Making Peace with Faith - Michelle Garred 2018-01-15

Although religion is almost never a root cause, it often gets pulled into conflict as a powerful element, especially where conflicting parties have different religious identities. Every faith tradition offers resources for peace, and secular policy makers are more and more acknowledging the influence of faith-based actors, even though there remains a tendency to associate religion more with conflict than peace. In this text, practitioners from different faiths relate and explore the many challenges they face in their peacebuilding work, which their secular partners may be unaware of. The contributors are all practitioners whose faith or religious experience motivates their work for peace and justice in such a way that it influences their actions. Their roles are diverse, as some work for faith-based institutions, while others engage in secular contexts. The multiple perspectives featured represent multiple faiths (Muslim, Christian, Hindu, Buddhist, Jewish), diverse scopes of practice, different geographic regions. Each chapter follows a similar template to address specific challenges, such as dealing with extremist views, addressing negative stereotypes about one's faith, endorsing violence, developing relations with other faith-based or secular groups, confronting gender-based violence, and working with people who hold different beliefs. In this text, practitioners from different faiths relate and explore the many challenges they face in their peacebuilding work, which their secular partners may be unaware of. They provide a comprehensive view of the practice of peacebuilding in its many challenging aspects, for both professionals and those studying religion and peacebuilding alike.

Fragile Frontiers - Saroj Kumar Rath 2015-06-03
Critical questions remain unanswered on the events of the cold-blooded and devastating terror attacks in Mumbai on 26 November 2008. Investigative and introspective, this book offers a lucid and graphic account of the ill-fated day and traces the changing dynamics of terror in South Asia. Using new insights, it explores South Asia's regional dynamics of antagonism, the ever-present challenge to the frontiers of India, Pakistan and the terrorism question, the strife in Afghanistan and the self-serving selective US

'war on terror'. This will be an engaging read for those interested in defence, security and strategic studies, politics, international relations, peace and conflict studies, and South Asian studies as well as the general reader.

A Case of Exploding Mangoes - Mohammed Hanif 2010-10-29

Teasing, provocative, and very funny, Mohammed Hanif's debut novel takes one of the subcontinent's enduring mysteries and out of it spins a tale as rich and colourful as a beggar's dream. Why did a Hercules C130, the world's sturdiest plane, carrying Pakistan's military dictator General Zia ul Haq, go down on 17 August, 1988? Was it because of: 1. Mechanical failure 2. Human error 3. The CIA's impatience 4. A blind woman's curse 5. Generals not happy with their pension plans 6. The mango season Or could it be your narrator, Ali Shigri? Here are the facts: • A military dictator reads the Quran every morning as if it was his daily horoscope. • Under Officer Ali Shigri carries a deadly message on the tip of his sword. • His friend Obaid answers all life's questions with a splash of eau de cologne and a quote from Rilke. • A crow has crossed the Pakistani border illegally. As young Shigri moves from a mosque hall to his military barracks before ending up in a Mughal dungeon, there are questions that haunt him: What does it mean to betray someone and still love them? How many names does Allah really have? Who killed his father, Colonel Shigri? Who will kill his killers? And where the hell has Obaid disappeared to?

Making Sense of Pakistan - Farzana Shaikh 2018-11-08

Pakistan's transformation from supposed model of Muslim enlightenment to a state now threatened by an Islamist takeover has been remarkable. Many account for the change by pointing to Pakistan's controversial partnership with the United States since 9/11; others see it as a consequence of Pakistan's long history of authoritarian rule, which has marginalized liberal opinion and allowed the rise of a religious right. Farzana Shaikh argues the country's decline is rooted primarily in uncertainty about the meaning of Pakistan and the significance of 'being Pakistani'. This has pre-empted a consensus on the role of Islam in the public sphere and encouraged the spread of political

Islam. It has also widened the gap between personal piety and public morality, corrupting the country's economic foundations and tearing apart its social fabric. More ominously still, it has given rise to a new and dangerous symbiosis between the country's powerful armed forces and Muslim extremists. Shaikh demonstrates how the ideology that constrained Indo-Muslim politics in the years leading to Partition in 1947 has left its mark, skillfully deploying insights from history to better understand Pakistan's troubled present.

A History of the Pakistan Army - Brian Cloughley 2016-01-05

The scope of this study of the Pakistan Army must be wide and in-depth, as the army has played a major part in the country's history. The author describes Pakistan's violent internal politics and erratic international relations with a deep knowledge gained through his long association with the country and its armed forces. Pakistan's wars with India are covered vividly, drawing on unpublished material and details from Indian as well as Pakistani sources. The country's resurrection under Zulfikar Ali Bhutto is described, as is the decade of dictatorship that followed his time in power. The story of what occurred after this period of dominance, when Pakistan grappled with unaccustomed democracy and verged on anarchy, is told with the aid of the author's personal knowledge of many of the senior players. This fifth edition incorporates new material covering crucial developments since 2014, including Operation Zarb-e-Azb in Waziristan. Skyhorse Publishing, as well as our Arcade imprint, are proud to publish a broad range of books for readers interested in history--books about World War II, the Third Reich, Hitler and his henchmen, the JFK assassination, conspiracies, the American Civil War, the American Revolution, gladiators, Vikings, ancient Rome, medieval times, the old West, and much more. While not every title we publish becomes a New York Times bestseller or a national bestseller, we are committed to books on subjects that are sometimes overlooked and to authors whose work might not otherwise find a home.

Understanding Insurgent Resilience - Andrew D. Henshaw 2020-07-31

This book examines terrorist and insurgent organisations and seeks to understand how such groups persist for so long, while introducing a new strategic doctrine for countering these organisations. The work discusses whether familial or meritocratic insurgencies are more resilient to counterinsurgency pressures. It argues that it is not the type of organization that determines resilience, but rather the efficiency functions of social capital and trust, which have different natures and forms, within them. It finds that while familial insurgencies can challenge incumbents from the start, they weaken over time, whereas meritocracies will generally strengthen. The book examines four of the most enduring and lethal insurgent organizations: the Haqqani Network in Afghanistan, Lashkar-e-Taiba in Pakistan, Jemaah Islamiyah in Indonesia, and the Abu Sayyaf in the Philippines. The author breaks down each group into its formative strengths and vulnerabilities and presents a bespoke model of strategic counterintelligence that can be used to manipulate, degrade and destroy each organization. This book will be of much interest to students of counterinsurgency, terrorism, intelligence, security and defence studies in general.

The Road To Mecca - Muhammad Asad 1954

Part travelogue, part autobiography, "The Road to Mecca" is the compelling story of a Western journalist and adventurer who converted to Islam in the early twentieth century. A spiritual

and literary counterpart of Wilfred Thesiger and a contemporary of T. E. Lawrence (Lawrence of Arabia), Muhammad Asad journeyed around the Middle East, Afghanistan and India. This is an account of Asad's adventures in Arabia, his inner awakening, and his relationships with nomads and royalty alike, set in the wake of the First World War. It can be read on many levels: as a eulogy to a lost world, and as the poignant account of a man's search for meaning. It is also a love story, defying convention and steeped in loss. With its evocative descriptions and profound insights on the Islamic world, "The Road to Mecca" is a work of immense value today.
