Positive Pedagogy for Sport Coaching - Richard Light 2016-11-25

The concept of positive pedagogy has transformed the way we understand learning and coaching in sport. Presenting examples of positive pedagogy in action, this book is the first to apply its basic principles to individual sports such as swimming, athletics, gymnastics and karate. Using the game based approach (GBA) (an athlete-centred, inquiry-based method that involves game-like activities), this book demonstrates how positive pedagogy can be successfully employed across a range of sports and levels of performance, while also providing insight into coaches' experiences of this approach. Divided into three sections that focus on the development, characteristics and applications of positive pedagogy, it fills a gap in coaching literature by extending the latest developments of GBA to activities beyond team sports. It pioneers a way of coaching that is both efficient in improving performance and effective in promoting positive experiences of learning across all ages and abilities. Positive Pedagogy for Sport Coaching: Athlete-centred coaching for individual sports is invaluable reading for all sports coaching students as well as any practising coach or physical education teacher looking for inspiration.
