The Dare - Harley Laroux 2021-01-26

Warning: This erotica contains scenes and elements that may be disturbing to some readers. Please review the full content warning below. Jessica Martin is not a nice girl. As Prom Queen and Captain of the cheer squad, she'd ruled her school mercilessly, looking down her nose at everyone she deemed unworthy. The most unworthy of them all? The "freak," Manson Reed: her favorite victim. But a lot changes after high school. A freak like him never should have ended up at the same Halloween party as her. He never should have been able to beat her at a game of Drink or Dare. He never should have been able to humiliate her in front of everyone. Losing the game means taking the dare: a dare to serve Manson for the entire night as his slave. It's a dare that Jessica's pride - and curiosity - won't allow her to refuse. What ensues is a dark game of pleasure and pain, fear and desire. Is it only a game? Only revenge? Only a dare? Or is it something more? This book contains intense fantasy scenes of hard kinks/edgeplay, graphic sex, and harsh language. It is intended only for an adult audience. Beware: this is a dark, weird, kinky read. The activities depicted therein are dangerous and are not

meant to be an example of realistic BDSM. Reader discretion is advised. Asian Development Outlook 2019 - Asian Development Bank
2019-04-01

The annual Asian Development Outlook, now in its 30th year, analyzes economic performance in the past year and forecasts performance in the next 2 years for the 45 economies in Asia and the Pacific that make up developing Asia. Growth prospects in developing Asia remain strong despite persistent external headwinds responsible for moderating expansion since 2017. Global trade and economic activity weakened toward the end of 2018, slowing growth in many economies in the region. The outlook is cloudy with risks that tilt to the downside. A drawn-out trade conflict could undermine trade and investment in the region, and US fiscal policy and the consequences of a disorderly Brexit could weigh on growth in the advanced economies and the People's

Republic of China. Though the risk of sharp increases in US interest rates has subsided, policy makers must stay vigilant. Disasters are shaped by natural hazards and the dynamics of the economy, society, and environment in which they occur. They pose a growing threat to development and prosperity in the region, their consequences disproportionately severe in developing countries, especially for the poor and marginalized. As developing Asia is home to more than four-fifths of the people affected by disasters globally in the past 2 decades, the region must strengthen its disaster resilience. This means integrating disaster risk reduction into national development and investment plans, spending more on prevention for a better balance with spending on rescue and recovery, and pooling risk through insurance and reinsurance.

Bibliographical Survey of Contemporary Sources for the Economic and Social History of the War - Mildred Emily Bulkley 1922

The EU VAT System and the Internal Market - Rita de La Feria 2009

This thesis focuses upon VAT in the context of the Community's internal market. Its central aim is to prove that the current EU VAT system is incompatible with the concept of internal market as set out in the EC Treaty and interpreted by the Court of Justice. The study commences with an analysis of the concept of internal market, the main objective of which is to establish the basic legal framework for the proposed thesis. As part of this examination, it is demonstrated that the EC Treaty creates a temporally unlimited obligation for the Community to approve legislation with the aim of establishing and improving the functioning of the internal market. By analysis of existing EU VAT jurisprudence, it is argued that obstacles cannot be overcome through incremental developments emerging from the Court of Justice, but can only be resolved by fundamental and substantive legislative amendment.

Adolescents - Michael Fitzgerald 2006-02-15

This vital new book presents effective strategies to tackle the specific difficulties in social interaction and communication that are experienced by adolescents with Asperger Syndrome (AS). Focusing on the development of interaction skills through teaching social competence, the authors explain how to design an effective social skills intervention programme whose primary objective is successful peer interaction. They describe the methodology, philosophy and science underpinning their approach and include a template for a sample course currently administered over six months. Guidance is given on what resources to choose from the wide range of available intervention programmes, and many case study examples are also provided. The authors outline session formats, possible problems and solutions, and emphasise the significance of the therapist's attitude and the role of parents in building social confidence. Frailty in the Elderly - Sara Palermo 2021-03-31

The progressive growth in the number of older adults worldwide has led to a modification of the current healthcare scenario and a parallel increase in the use of public resources. In this book, we propose a conceptual framework within which aging, frailty, and care are analyzed

through the lens of complexity medicine. Therefore, we present a multidimensional perspective that takes into account biomedical, (neuro)psychological, and socio-ecological vulnerability. The theses presented are the result of an inductive approach, based on many years of experience in the field, which has made it possible to identify strategies for frailty recognition and effective responses even in complicated clinical settings. The book is intended to be a tool of concrete and easy consultation, rich in reflections and suggestions.

Rethinking Case Study Research - Lesley Bartlett 2016-11-10

Comparative case studies are an effective qualitative tool for researching the impact of policy and practice in various fields of social research, including education. Developed in response to the inadequacy of traditional case study approaches, comparative case studies are highly effective because of their ability to synthesize information across time and space. In *Rethinking Case Study Research: A Comparative Approach*, the authors describe, explain, and illustrate the horizontal, vertical, and transversal axes of comparative case studies in order to help readers develop their own comparative case study research designs. In six concise chapters, two experts employ geographically distinct case studies—from Tanzania to Guatemala to the U.S.—to show how this innovative approach applies to the operation of policy and practice across multiple social fields. With examples and activities from anthropology, development studies, and policy studies, this volume is written for researchers, especially graduate students, in the fields of education and the interpretive social sciences.

Frank Films - Brigitta Burger-Utzer 2009

Robert Frank turned to filmmaking at the end of the 1950s. Although he has made 27 films, the work is largely a wellkept secret. Frank approaches each film project as a new experience, challenging the medium and its possibilities at every turn. He has amalgamated documentary, fiction, and autobiography, cutting across genres. This book offers a visually unique approach to Frank's films: only new stills taken from videotapes have been used and they add up to a visual essay on Frank's cinema that establishes an engaging dialogue with his photographic work. Each film is introduced with detailed analysis, discussing the history and the aesthetics of Frank's film work. An interview with Allen Ginsberg provides an insider view. Together the texts and images offer an innovative and in-depth approach to the oeuvre of one of the greatest and most restless artists of the 20th century. Robert Frank was born in Zurich, Switzerland in 1924 and went to the United States in 1947. He is best known for his seminal book *The Americans* (1958), which gave rise to a distinct new art form in the photo-book, and his experimental film *Pull My Daisy* (1959) both reproduced by Steidl within The Robert Frank Project.

Frontiers of Justice - Martha C. NUSSBAUM 2009-06-30

Theories of social justice, addressing the world and its problems, must respond to the real and changing dilemmas of the day. A brilliant work of practical philosophy, *Frontiers of Justice* is dedicated to this proposition. Taking up three urgent problems of social justice--those with physical and mental disabilities, all citizens of the world, and nonhuman animals--neglected by current theories and thus harder to tackle in practical terms and everyday life, Martha Nussbaum seeks a theory of social justice that can guide us to a richer, more responsive approach to social cooperation.

In the Beginning...Was the Command Line - Neal Stephenson 2009-10-13

This is "the Word" -- one man's word, certainly -- about the art (and artifice) of the state of our computer-centric existence. And considering that the "one man" is Neal Stephenson, "the hacker Hemingway" (*Newsweek*) -- acclaimed novelist, pragmatist, seer, nerd-friendly philosopher, and nationally bestselling author of groundbreaking literary works (*Snow Crash*, *Cryptonomicon*, etc., etc.) -- the word is well worth hearing. Mostly well-reasoned examination and partial rant, Stephenson's *In the Beginning... was the Command Line* is a thoughtful, irreverent, hilarious treatise on the cyber-culture past and present; on operating system tyrannies and downloaded popular revolutions; on the Internet, Disney World, Big Bangs, not to mention the meaning of life itself.

La Misère Du Monde - Pierre Bourdieu 1999

This book can be read like a series of short stories - the story of a steel worker who was laid off after twenty years in the same factory and who

now struggles to support his family on unemployment benefits and a part-time job; the story of a trade unionist who finds his goals undermined by the changing nature of work; the story of a family from Algeria living in a housing estate in the outskirts of Paris whose members have to cope with pervasive, everyday forms of racism; the story of a

school teacher confronted with urban violence; and many others as well. Reading these stories enables one to understand these people's lives and the forms of social suffering which are part of them. And the reader will see that this book offers not only a distinctive method for analysing social life, but also another way of practising politics.
