Contract - H G Beale 2008

This casebook on contract comprises a wide selection of cases and materials that illustrate the substantive law and places it in its legal and commercial context. It demonstrates how the rules work both inside and outside the courtroom.

Contract Theory - Stephen A. Smith 2004-03-25

This book is both an examination of, and a contribution to, our understanding of the theoretical foundations of the common law of contract. Focusing on contemporary debates in contract theory, Contract Theory aims to help readers better understand the nature and justification of the general idea of contractual obligation, as well as the nature and justification

of the particular rules that make up the law of contract. The book is in three parts. Part I introduces the idea of 'contract theory', and presents a framework for identifying, classifying, and evaluating contract theories. Part II describes and evaluates the most important general theories of contract; examples include promissory theories, reliance-based theories, and economic theories. In Part III, the theoretical issues raised by the various specific doctrines that make up the law of contract (e.g., offer and acceptance, consideration, mistake, remedies, etc.) are examined in separate chapters. The legal focus of the book is the common law of the United Kingdom, but the theoretical literature discussed is international in origin; the arguments discussed are thus relevant to understanding the law of other common law jurisdictions and, in many instances, to understanding the law of civil law jurisdictions as well.

Treitel on the Law of Contract - Edwin Peel

2015-09-23

Now in its 14th edition, this book explains and analyses the law of contract, and provides a detailed and clear examination of many areas of controversy and difficulty.

Powell-Smith and Furmston's Building Contract Casebook - Michael Furmston 2008-04-15

This well established reference book brings together leading cases on building contracts to illustrate legal principles. It provides a statement of the principle established, a summary of the facts and the decision and, for most cases, a verbatim extract of the judgment. The latest edition includes a number of new cases since the last edition was published in 1999.

Philosophical Foundations of Contract Law - Gregory Klass 2014-12-18

In recent years there has been a revival of interest in the philosophical study of contract law. In 1981 Charles Fried claimed that contract law is based on the philosophy of promise and

this has generated what is today known as 'the contract and promise debate'. Cutting to the heart of contemporary discussions, this volume brings together leading philosophers, legal theorists, and contract lawyers to debate the philosophical foundations of this area of law. Divided into two parts, the first explores general themes in the contract theory literature, including the philosophy of promising, the nature of contractual obligation, economic accounts of contract law, and the relationship between contract law and moral values such as personal autonomy and distributive justice. The second part uses these philosophical ideas to make progress in doctrinal debates, relating for example to contract interpretation, unfair terms, good faith, vitiating factors, and remedies. Together, the essays provide a picture of the current state of research in this revitalized area of law, and pave the way for future study and debate.

Anson's Law of Contract - Sir William Reynell

Anson 2010-08-19

This edition provides an authoritative and detailed account of contract law. It is essential reading for any student of contract law, and a valuable source of reference for practitioners and academics.

Cheshire, Fifoot and Furmston's Law of Contract - M. P. Furmston 2001

Cheshire, Fifoot and Furmston's Law of Contract remains the leading textbook on the law of contract more than 50 years after the publication of its first edition. Unrivalled in its clarity and comprehensiveness, it provides a clear account in narrative form of the principles of the English law of contract and is fully updated to include all the latest developments in case law and legislation.

Atiyah's Introduction to the Law of Contract - Stephen A. Smith 2006-02-09

Atiyah's Introduction to the Law of Contract is a well-known text through which thousands of university students have first encountered the

law of contract, and the new edition has long been eagerly awaited by university teachers and students. This sixth edition, updated by Stephen Smith, continues to provide readers with an introduction to the theories, policies, and ideas that underlie the law, placing an equal emphasis on the law and critical analysis. In particular, the discussion of recent cases and legislation is centred on why contract law is the way it is, whether it can be justified, and, if not, what should be done to improve it. The sixth edition has been revised to place the law of contract in a modern context and to account for recent developments in the law, as well as those in academic thinking and writing. Addressing European influences and including perspectives from comparative law, this remains a stimulating and authoritative exposition of the modern law of contract.

Vitiating of Contracts - Gareth Spark 2013-01-03
Vitiating of Contracts proposes a new theory to explain the rationale of general vitiating factors

in English contract law. It provides a clear link to voluntariness as the foundation of contractual liability and compares the English position, in light of this theory, with the Principles of International Commercial Contracts (PICC), the Principles of European Contract Law (PECL), the Draft Common Frame of Reference (DCFR) and the US Restatement (Second) of Contracts.

The Modern Law of Evidence - Adrian Keane (LL.B.) 1996-01-01

The Modern Law of Evidence is a lucid treatment of the contemporary law of evidence and is recognised as an unusually clear and comprehensive account of a complex subject.

This fifth edition again examines the theory of the law of evidence as well as its practical application, placing the emphasis, wherever possible, on recent discussion and modern aspects of the subject.

Exploring Private Law - Elise Bant 2010-09-02

Inspired by recent debate, the purpose of this collection of essays on private law doctrines, remedies and methods is to celebrate and illustrate the contribution that both 'top-down' and 'bottom-up' methods of reasoning make to the development of private law. The contributors explore a variety of topical subjects, including judicial approaches to 'top-down' and 'bottom-up' methods; teaching trusts law; the protection of privacy in private law; the development of the law of unjust enrichment; the private law consequences of theft; equity's jurisdiction to relieve against forfeiture; the nature of fiduciary relationships and obligations; the duties of trustees; compensation and disgorgement remedies; partial rescission; the role of

unconscionability in proprietary estoppel; and the nature of registered title to land.

Law of Contract in Uganda - D. J. Bakibinga 2001

This book focuses on the Ugandan legal position of contract and the relevant literature on the subject. The history of contract and law applicable in Uganda are examined and the ingredients of forming the contract in the form of offer, acceptance, consideration, contractual intention, and capacity. The book then analyses the form and terms of a contract taking into account developments in the UK in relation to exemption clauses and fundamental breach, It

also examines the vital elements of a contract namely mistake, misrepresentation, duress, undue influence, and illegality and analyses the concept of privity which is extended to agency and assignment. The concluding chapters deal with discharge of the contract and remedies for breach of contract.

The Future of the Law of Contract - Michael Furmston 2020-05-10

The Future of the Law of Contract brings together an impressive collection of essays on contract law. Taking a comparative approach, the aim of the book is to address how the law of contract will develop over the next 25 years, as well as considering the ways in which changes to the way that contracts are made will affect the law. Topics include good faith; objectivity; exclusion clauses; economic duress; variation of contract; contract and privacy law in a digital environment; technological change; Choice of Court Agreements; and Islamic finance contracts. The chapters are written by leading

academics from England, Australia, Canada, the United States, Singapore and Malaysia. As such, this collection will be of global interest and importance to professionals, academics and students of contract law.

Law for Non-Law Students - Keith Owens 2001-10-30

Law for Non-Law Students is written in a clear and readable style and aims to make the law understandable for readers at undergraduate or comparable level. It explains the practical influences under which the law has been formed, so that the student will be better able to understand why the law has developed in the way that it has. It gives lots of straightforward examples as to how the law works in practice and aims to equip students with the ability to appraise the effectiveness of the law in a particular circumstance rather than simply providing a list of rules for the student to regurgitate at exam time. The facts of the more important cases are given in some detail to

enable the student to appreciate the range of factors which the court may have taken into account in reaching its decision. The new edition has been updated to take account of all recent developments, both in relation to statute and to case law. Certain chapters, particularly in the area of sale of goods, have been substantially rewritten and expanded in an attempt to give more detail, while at the same time remaining student-friendly. New chapters on Agency and Negligence have been added. This new edition should be suitable for most courses which have a law element.

Electronic Contracts, 2nd Edition - S. Blount
2015-07-28

In this new edition, Dr Blount continues his scholarly and very valuable contribution to this emerging area of the law. The significance of a text like this, that synthesises the law and categorises issues that arise in an area vital to our daily lives, cannot be understated. From the foreword to the first edition by In his forward to the book, the Honourable Justice Steven Rares J. This book identifies issues of contract law that are uniquely problematic for electronic contracts, such as whether clicking an "I agree" (tm) box is really an acceptance of the terms of a contract, whether acceptance of an offer by email or text message attracts the postal acceptance rule, whether notice of terms can be

given by hyperlink, and whether a term of o~fit for purposeo(tm) can be implied at common law for the download of software. In addition to considering the when, where and how of electronic contract formation and the incorporation and vitiation of webpage terms, the book analyses a large number of important common law appellate and superior court decisions to predict the likely law of electronic contracts for all common law jurisdictions, including Australia. Expanded to cover the new developments in this area this second edition includes a new chapter on international conventions and model laws. This book will be of immeasurable assistance to legal practitioners litigating and drafting electronic contracts, as well as to practitioners, academics, and students interested in the legal problems arising from the new information technologies. Features o Detailed and scholarly coverage of the topic o Applies a comparative approach o Author considers over 150 common law

electronic contract cases at appellate level

A Conflict Of Laws Companion -

Andrew Dickinson 2021-06-17

A Conflict of Laws Companion brings together a group of expert authors to write essays in honour of Professor Adrian Briggs QC. Professor Briggs has been teaching in Oxford since 1980, and throughout that period, he has been an instrumental figure in shaping the conflict of

laws in the UK and elsewhere and has inspired generations of students (future practitioners and judges) to take a close interest in the subject. His books, including *Agreements on Jurisdiction and Choice of Law* (OUP, 2008), *The Conflict of Laws* (4th edn, Clarendon, 2019), and *Private International Law in English Courts* (OUP, 2015), are among the most widely used and cited texts on the subject. The book is divided into four sections, exploring conflict of laws issues of different kinds and engaging with Professor Briggs' work on a diverse range of topics. Contributions by Professor Briggs' former colleagues build on his work in the conflict of laws and his immeasurable contributions as a teacher and researcher at the University of Oxford, not only to undergraduate teaching, but to his college (St Edmund Hall), the Law faculty, and the university. The book includes short personal submissions from each of the authors, all of whom studied alongside, have been taught or supervised by, or worked closely with

Professor Briggs.

The Common European Sales Law in Context - Gerhard Dannemann 2013-03-21

European Contract Law unification projects have recently advanced from the Draft Common Frame of Reference (2009) to a European Commission proposal for an optional Common European Sales Law (2011) which is to facilitate cross-border marketing. This book investigates for the first time how CESL and DCFR rules would interact with various aspects of domestic law, represented by English and German law. Nineteen chapters, co-authored by British and German scholars, examine such interface issues for eg pre-contractual relationships, notions of contract, formation, interpretation, and remedies, extending to non-discrimination, third parties, transfers or rights, aspects of property law, and collective proceedings. They go beyond a critical analysis of CESL and DCFR rules by

demonstrating where and how CESL rules would interact with neighbouring areas of English and German law before English and German courts, how domestic traditions might influence the application, which aspects might motivate sellers and buyers to choose or reject CESL, and which might serve as model for national legislators. The findings are summarized in the final two chapters.

Cheshire and Fifoot's Law of Contract - Joseph Gabriel Starke 1992

A Restatement of the English Law of Contract - Andrew (hon) Burrows FBA 2016-04-28

A Restatement of the English Law of Contract is the second Restatement of English law

undertaken by Andrew Burrows following on the success of A Restatement of the English Law of Unjust Enrichment (OUP, 2012). Designed to enhance the accessibility of the common law the Restatement comprises a number of clear succinct rules, fully explained by a supporting commentary, which set out the general law of contract in England and Wales. Written by one of the leading authorities in this area, in collaboration with an advisory group of senior judges, academics, and legal practitioners, the Restatement offers a novel and powerfully persuasive statement of the law in this central area of English law. All lawyers dealing with the English law of contract, whether as practitioners, judges, academics, or law students, cannot but benefit from this Restatement. The English law of contract is one of the most respected systems of contract law in the world and by the device of a 'choice of law' clause is often chosen by foreign commercial parties as the applicable law to govern their

contract. One of the aims of the Restatement is for the reader, including those from civil law jurisdictions, to see quickly and easily how the different elements of the English law of contract fit together.
