**Kumba Africa** - Sampson Ejike Odum 2020-11-03

'KUMBA AFRICA', is a compilation of African Short Stories written as fiction by Sampson Ejike Odum, nostalgically taking our memory back several thousands of years ago in Africa, reminding us about our past heritage. It digs deep into the traditional life style of the Africans of old, their beliefs, their leadership, their courage, their culture, their wars, their defeat and their victories long before the emergence of the white man on the soil of Africa. As a talented writer of rich resource and superior creativity, armed with in-depth knowledge of different cultures and traditions in Africa, the Author throws light on the rich cultural heritage of the people of Africa when civilization was yet unknown to the people. The book reminds the readers that the Africans of old kept their pride and still enjoyed their own lives. They celebrated victories when wars were won, enjoyed their New Yam festivals and villages engaged themselves in seasonal wrestling contest etc; Early morning during Harmattan season, they gathered firewood and made fire inside their small huts to hit up their bodies from the chilling cold of the Harmattan. That was the Africa of old we will always remember. In Africa today, the story has changed. The people now enjoy civilized cultures made possible by the influence of the white man through his scientific and technological process. Yet there are some uncivilized places in Africa whose people haven't tested or felt the impact of civilization. These people still maintain their ancient traditions and culture. In everything, we believe that days when people paraded barefooted in Africa to the swamp to tap palm wine and fetch firewood from their farms are almost fading away. The huts are now gradually being replaced with houses built of blocks and beautiful roofs. Thanks to modern civilization. Donkeys and camels are no longer used for carrying heavy loads for merchants. They are now being replaced by heavy trucks and lorries. African traditional methods of healing are now being substituted by hospitals. In all these, I will always love and remember Africa, the home of my birth and must respect her cultures and traditions as an AFRICAN AUTHOR.

**Social Work in Europe** - Charlotte Williams 2013-09-13

It is an acknowledged if not accepted fact that all European societies are being fundamentally transformed, and indeed perceptively unsettled, by increased migrations across nations and by the asserted presence of established minorities within their borders. The scale and speed at which these transformations have taken place have brought in their wake considerable social impacts and no small measure of fear and anxiety. Encounters with such diversity are part and parcel of the social work task, and learning how to negotiate them should be a de facto aspect of the training and continuous professional development of social workers and other social professions. However, the moral and political dimensions of the role, scope and nature of the social work task in responding appropriately to these changed and changing realities are rather more contested. This volume addresses many dimensions of the response to issues of race and ethnicity in social work practice in Europe. It extends the debates on inter-cultural and race equality practice in social work through a stimulating and innovative collection of contributions. This book was originally published as a special issue of the European Journal of Social Work.

**Change, the Arrow of Time, and Divine Eternity in Light of Relativity Theory** - Daniel Saudek 2020-03-19

This book has two aims; first, to provide a new account of time's arrow in light of relativity theory; second, to explain how God, being eternal, relates to our world, marked as it is by change and time. In part one, Saudek argues that time is not the expansive universal 'wave' that it appears to be, but nor are we living in an unchanging block. Rather, time is real but local: there are infinitely many arrows of time in the universe,

each with their own fixed past and open future. This model is based on the ontology of substances which can exist in different states, marked by different properties. On this basis, a derivation of temporal precedence and of the asymmetry between the fixed past and the open future is provided. Time's arrow is thus 'attached' to substances, and is therefore a local rather than global phenomenon, though by no means an illusory or merely subjective one. In part two, this model is then applied to the perennial questions concerning the relationship between divine eternity and the temporal world: How can my future choices be free if God already knows what I will do? Can God act if He is not in time? Through the lens of relativity theory, such questions are shown to appear in a completely new light. The book combines insights from theoretical physics with ancient and contemporary philosophy into a unique synthesis, broaching a wealth of key issues including the arrow of time, the evolution of the cosmos, and a physics-based defence of eternalism in philosophical theology.

*Blueprint for Black Power* - Amos N. Wilson 1998

African life into the coming millennia is imperiled by White and Asian power. True power must nest in the ownership of the real estate wherever African people dwell. Economic destiny determines biological destiny. 'Blueprint for Black Power' details a master plan for the power revolution necessary for Black survival in the 21st century. White treatment of African Americans, despite a myriad of theories explaining

White behavior, ultimately rests on the fact that they can. They possess the power to do so. Such a power differential must be neutralized if Blacks are to prosper in the 21st century ... Aptly titled, 'Blueprint for Black Power' stops not at critique but prescribes radical, practical theories, frameworks and approaches for true power. It gives a biting look into Black potentiality.
