So Long, and Thanks for All the Fish - Douglas Adams 2008-12-30
Now celebrating the 42nd anniversary of *The Hitchhiker's Guide to the Galaxy*, soon to be a Hulu original series! "A madcap adventure . . . Adams's writing teeters on the fringe of inspired lunacy."—United Press International
Back on Earth with nothing more to show for his long, strange trip through time and space than a ratty towel and a plastic shopping bag, Arthur Dent is ready to believe that the past eight years were all just a figment of his stressed-out imagination. But a gift-wrapped fishbowl with a cryptic inscription, the mysterious disappearance of Earth's dolphins, and the discovery of his battered copy of *The Hitchhiker's Guide to the Galaxy* all conspire to give Arthur the sneaking suspicion that something otherworldly is indeed going on. God only knows what it all means. Fortunately, He left behind a Final Message of explanation. But since it's light-years away from Earth, on a star surrounded by souvenir booths, finding out what it is will mean hitching a ride to the far reaches of space aboard a UFO with a giant robot. What else is new? "The most ridiculously exaggerated situation comedy known to created beings . . . Adams is irresistible."—The Boston Globe

This beautifully illustrated edition of the New York Times bestselling classic celebrates the 42nd anniversary of the original publication—with all-new art by award-winning illustrator Chris Riddell. SOON TO BE A HULU SERIES • "An astonishing comic writer."—Neil Gaiman
Nominated as one of America's best-loved novels by PBS's *The Great American Read* It's an ordinary Thursday morning for Arthur Dent . . . until his house gets demolished. The Earth follows shortly after to make way for a new hyperspace express route, and Arthur's best friend has just announced that he's an alien. After that, things get much, much worse. With just a towel, a small yellow fish, and a book, Arthur has to navigate through a very hostile universe in the company of a gang of unreliable aliens. Luckily the fish is quite good at languages. And the book is *The Hitchhiker's Guide to the Galaxy* . . . which helpfully has the words DON'T PANIC inscribed in large, friendly letters on its cover. Douglas Adams's mega-selling pop-culture classic sends logic into orbit, plays havoc with both time and physics, offers up pithy commentary on such things as ballpoint pens, potted plants, and digital watches . . . and, most important, reveals the ultimate answer to life, the universe, and everything. Now, if you could only figure out the question. . . .

The Invention of Childhood - Hugh Cunningham 2012-10-31

The Invention of Childhood will paint a vivid picture of the lives of children in Britain from pagan Anglo-Saxon times to the present day. Drawing heavily on primary sources, such as diaries, autobiographies, paintings, photographs and letters, the book will present a complete chronological history of the experience of children in Britain during the past 1500 years. We will learn the key elements that have shaped their lives down the ages and how this has differed as a result of gender, geography and ethnicity. The book will also relate children's lives to larger events in national and international history. Written by Hugh Cunningham the Professor of History at the University of Kent at Canterbury, and an expert on childhood history - the book will accompany the Radio 4 series presented by the highly respected children's author Michael Morpurgo. Michael is contributing a lengthy foreword to the book. 'The Invention of Childhood' will expand on a number of key themes from the radio series, including the idea of childhood as a distinct stage of life. Opinions on when childhood should start and end, and how it differs from adulthood have changed considerably down the centuries. And these inventions and reinventions of childhood (hence the title) have had a profound effect on children's lives. The prolonged childhood we enjoy in Britain today was a luxury few could afford in the past. This fascinating study will draw attention to the ways in which we may find childhood and children in the past quite similar to the present and to ways in which children's lives from the past seem to differ sharply from the lives children lead today.

There's a strange new guest at the Mermaid Hotel -- a very old lady with a growly voice, bags stuffed with jewelry and coins and curiosities, and a beady-eyed pet tortoise. Mabel, whose parents run the hotel, is suspicious. Who is this "Madame Badobedah" (it rhymes with "Oo la la") who has come to stay indefinitely and never has any visitors? To find out, Mabel puts on her spy costume and observes the new guest. Conclusion? She must be a secret supervillain hiding out from the law. The grown-ups think Madame Badobedah is a bit rude -- and sad -- but when she invites "dahlink" Mabel for a cup of forbidden tea and a game of pirates, the two begin a series of imaginary adventures together, and Mabel realizes that first impressions can sometimes be very wrong. Conjuring two quirky heroines that young readers will love, Sophie Dahl adds her talented voice to a grand tradition of books that celebrate the alliance of the old and young in the face of humdrum adults, while Lauren O'Hara's illustrations are as packed with intriguing details as Madame Badobedah's suitcases.

Children and Childhood in Western Society Since 1500 - Hugh Cunningham 2014-07-10

This book investigates the relationship between ideas about childhood and the actual experience of being a child, and assesses how it has changed over the span of five hundred years. Hugh Cunningham tells an engaging story of the development of ideas about childhood from the Renaissance to the present, taking in Locke, Rousseau, Wordsworth and Freud, revealing considerable differences in the way western societies have understood and valued childhood over time. His survey of parent/child relationships uncovers evidence of parental love, care and, in the frequent cases of child death, grief throughout the period, concluding that there was as much continuity as change in the actual relations of children and adults across these five centuries. For undergraduate courses in History of the Family, European Social History, History of Children and Gender History.
