Rural Rides - William Cobbett
2020-04-09

Rural Rides is the book for which the English journalist, agriculturist and political reformer William Cobbett is best known. At the time of writing *Rural Rides*, in the early 1820s, Cobbett was a radical anti-Corn Law campaigner. He embarked on a series of journeys by horseback through the countryside of Southeast England and the English Midlands. He wrote down what he saw from the points of view both of a farmer and a social reformer. The result documents the early 19th-century countryside and its people as well as giving free vent to Cobbett's opinions

Future State: Teen Titans (2021-2021) #1 - Tim

Sheridan 2021-01-12

When the original New Teen Titans formed a school to mentor and train young heroes, they wanted to help save the world. Years later, Titans Tower is a monument to a

graveyard of pupils lost in a terrible battle. Returning to the site of their greatest failure, Nightwing, Starfire, Beast Boy, and Cyborg join Raven to plot a course to face off against the evil that destroyed their team and school. Loyalties are questioned and motives are suspect as the former teen heroes must turn to the mysterious Red X—a former student—for help. Don't miss the first comics appearance of this Red X, previously seen only in the hit animated TV series *Teen Titans Go!*

What If? 2 - Randall Munroe
2022-09-13

AN INSTANT NEW YORK TIMES BESTSELLER! "The questions throughout *What If? 2* are equal parts brilliant, gross, and wonderfully absurd and the answers are thorough, deeply researched, and great fun. . . . Science isn't easy, but in Munroe's capable hands, it surely can be fun." —TIME The #1 New York Times bestselling author of *What If?* and *How To* answers more of the weirdest questions you never thought to ask The millions of people

around the world who read and loved What If? still have questions, and those questions are getting stranger. Thank goodness xkcd creator Randall Munroe is here to help. Planning to ride a fire pole from the Moon back to Earth? The hardest part is sticking the landing. Hoping to cool the atmosphere by opening everyone's freezer door at the same time? Maybe it's time for a brief introduction to thermodynamics. Want to know what would happen if you rode a helicopter blade, built a billion-story building, made a lava lamp out of lava, or jumped on a geyser as it erupted? Okay, if you insist. Before you go on a cosmic road trip, feed the residents of New York City to a T. rex, or fill every church with bananas, be sure to consult this practical guide for impractical ideas. Unfazed by absurdity, Munroe consults the latest research on everything from swing-set physics to airliner catapult-design to answer his readers' questions, clearly and concisely, with illuminating and

occasionally terrifying illustrations. As he consistently demonstrates, you can learn a lot from examining how the world might work in very specific extreme circumstances.

Tree of Life - Nigel Shindler
2015-01-14

A man named Jesus, whom is considered the Christ by countless people around the world to this day, lost his life at the hands of barbarians while residing in Canaan, where he devoted his life to making those around him aware they had the potential to become gods. Despite the accumulation of so many technological innovations over the past two millennium that were supposed to ease the daily hardship of people everywhere, so more time could be devoted to pursuits that cultivate the mind, evidence indicates that the size of the Homo-sapien brain, male and female alike, has persistently decreased over this passage of time. The pain, and suffering, endured by Jesus was supposed to serve as a wake up call to the savages in his midst, and the generations to follow, that they had much to learn about what he means to be civilized, as we see amply evidence of to this very day.
