helicopter parent in America. Children are taken from their parents because they are obese. Parents are arrested for letting their children play outside alone. Sledding and swaddling are banned. From games to school to breast-feeding to daycare, the overbearing bureaucratic state keeps getting between kids and their parents. The state's safety, hygiene, and health regulations rule, and the government's judgment may not coincide with yours. Which foods and drinks to send to school, what toys to buy, whether to breast- or bottle-feed babies are all choices that used to be left to you and me. Not anymore. As a mom to four kids, I should be used to it, but I'm not. All the government-mandated parenting gets under my skin. And I'm not alone. No Child Left Alone explores the growing problem of an intrusive, interfering government and highlights those parents—all the Captain Mommies and Captain Daddies across America—fighting to take back control over their

**52%** - Wright Aloba 2021-09-24

The book is a roadmap of how to become a middle class and at the earliest time possible. The road to the middle class is so easy to achieve, like a child's play. The book uniquely provides interactions with readers by incorporating various quizzes and discussion questions to measure the level of reader's understanding and comprehension of the subject matter discussed. The book also contains narratives and case studies that parents, guardians, leaders, teachers

and groups can use as discussion questions/points in homes, classrooms, public engagements and organizations. The book is a guide on how to raise children as early in life as possible. It is a book written for all ages and highly recommended especially for the youths, where the preparation and mindset to be a middle class elite should begin. The author strongly believe that regardless of race, color, religion, birthplace, social economic level and environment any individual can achieve the middle class status and beyond. To be a middle class elite does not require a degree in rocket science, rather, it requires a simple commitment to basic fundamentals of life responsibilities. It requires discipline and commitment to the keys that open the doors of success to the middle class. What we become in life is left to every individual and how far we go or excel in life depends on our efforts and sacrifice. If 52 percent of Americans are already in the middle class,
