Billions of Drops in Millions of Buckets - Steven H. Goldberg  
2009-07-07

Praise for BILLIONS OF DROPS in MILLIONS OF BUCKETS "Billions of Drops in Millions of Buckets provides a bracing and original look at philanthropy that offers a much-needed corrective to conventional wisdom. Steve Goldberg combines a resolve to understand why so much philanthropy accomplishes so little enduring social change with a timely and serious proposal to reinvigorate nonprofit capital markets through the simplest of insights: getting more of the money to where it can do the most good. This book will change how forward-looking philanthropists, foundations, and policymakers think about the relationship between charitable giving and the transformative capacity of

social entrepreneurs." —Jerr Boschee, founder and Executive Director, The Institute for Social Entrepreneurs; Visiting Professor of the Practice in Social Enterprise, Carnegie Mellon University "Goldberg's arguments are logical next steps in the rapidly evolving discussion of social capital markets. He offers ambitious proposals informed by the reality of current practices and focused on an achievable set of goals. He fully recognizes the potential for restructuring that is inherent in this time of financial hardship. Real change relies on big ideas, and Steve Goldberg offers us several."

—Lucy Bernholz, author of *Creating Philanthropic Capital Markets: The Deliberate Evolution* "When I first heard about 'evidence-based medicine,' I thought: 'you mean it isn't?' Read this book and that's how you'll feel about 'performance-based philanthropy.' Goldberg takes some of the best current management thinking and applies it to social enterprise,

illuminating both the encouraging successes of social entrepreneurs and the barriers they face. Even better, he presents compelling ideas for making the social sector vastly more effective."

—Christopher Meyer, Chief Executive, Monitor Networks "Goldberg calls for more 'performance-driven philanthropy,' where nonprofits are rewarded based on their results, in place of the current dysfunction. It is an important call and a valuable contribution to discussions about how to improve nonprofits in the U.S. and internationally." —Martin Brookes, Chief Executive, New Philanthropy Capital "Billions of Drops... is a must-read romp through emerging fields of social entrepreneurship and nonprofit capital markets."

budget. While studying food policy as a master's candidate at NYU, Leanne Brown asked a simple yet critical question: How well can a person eat on the \$4 a day given by SNAP, the U.S. government's Supplemental Nutrition Assistance Program informally known as food stamps? The answer is surprisingly well: Broiled Tilapia with Lime, Spicy Pulled Pork, Green Chile and Cheddar Quesadillas, Vegetable Jambalaya, Beet and Chickpea Salad—even desserts like Coconut Chocolate Cookies and Peach Coffee Cake. In addition to creating nutritious recipes that maximize every ingredient and use economical cooking methods, Ms. Brown gives tips on shopping; on creating pantry basics; on mastering certain staples—pizza dough, flour tortillas—and saucy extras that make everything taste better, like spice oil and tzatziki; and how to make fundamentally smart, healthful food choices. The idea for Good and Cheap is already proving itself. The author launched a Kickstarter

campaign to self-publish and fund the buy one/give one model. Hundreds of thousands of viewers watched her video and donated \$145,000, and national media are paying attention. Even high-profile chefs and food writers have taken note—like Mark Bittman, who retweeted the link to the campaign; Francis Lam, who called it “Terrific!”; and Michael Pollan, who cited it as a “cool kickstarter.” In the same way that TOMS turned inexpensive, stylish shoes into a larger do-good movement, Good and Cheap is poised to become a cookbook that every food lover with a conscience will embrace.

**Fill a Bucket** - Carol McCloud  
2018-10-01

"Here's a delightful little book to warm the hearts of young children and teach them how to experience the joy of giving and receiving. Just think of all the little buckets this book will

fill with love and encouragement." —Dr. Kevin Leman, author of *Have a New Kid by Friday* The day you were born was a very happy day. You are a special gift. Everyone was so happy to see you. But, there was one part of you that they could not see. It was your bucket, your invisible bucket. While using a simple metaphor of a bucket full of hearts and stars, authors Carol McCloud and Katherine Martin, M.A. illustrate, in the sweetest of ways, that we are all born with an invisible bucket and that our bucket holds all of our good thoughts and feelings. This book highlights the many ways that families and caregivers use to fill the buckets of children but also gives young children simple ideas on how to BE a bucket filler as well. This 24-page picture book is perfect for children, parents, grandparents, teachers and people that want to teach empathy, nurture kindness and create a positive environment in their home, classroom, workplace and community.

the adults they become. A wise and brilliant guide to transforming the self and our society. In her powerful new book, critically acclaimed author Melissa Febos examines the narratives women are told about what it means to be female and what it takes to free oneself from them. When her body began to change at eleven years old, Febos understood immediately that her meaning to other people had changed with it. By her teens, she defined herself based on these perceptions and by the romantic relationships she threw herself into headlong. Over time, Febos increasingly questioned the stories she'd been told about herself and the habits and defenses she'd developed over years of trying to meet others' expectations. The values she and so many other women had learned in girlhood did not prioritize their personal safety, happiness, or freedom, and she set out to reframe those values and beliefs. Blending investigative reporting, memoir, and scholarship, Febos charts how

she and others like her have reimagined relationships and made room for the anger, grief, power, and pleasure women have long been taught to deny. Written with Febos' characteristic precision, lyricism, and insight, *Girlhood* is a philosophical treatise, an anthem for women, and a searing study of the transitions into and away from girlhood, toward a chosen self.

Learn to communicate with your dog—using their language “Good reading for dog lovers and an immensely useful manual for dog owners.”—The Washington Post An Applied Animal Behaviorist and dog trainer with more than twenty years’ experience, Dr. Patricia McConnell reveals a

revolutionary new perspective on our relationship with dogs—sharing insights on how “man’s best friend” might interpret our behavior, as well as essential advice on how to interact with our four-legged friends in ways that bring out the best in them. After all, humans and dogs are two entirely different species, each shaped by its individual evolutionary heritage. Quite simply, humans are primates and dogs are canids (as are wolves, coyotes, and foxes). Since we each speak a different native tongue, a lot gets lost in the translation. This marvelous guide demonstrates how even the slightest changes in our voices and in the ways we stand can help dogs understand what we want.

Inside you will discover:

- How you can get your dog to come when called by acting less like a primate and more like a dog
- Why the advice to “get dominance” over your dog can cause problems
- Why “rough and tumble primate play” can lead to trouble—and how to play with your dog in ways that

2020-06-23

Hiroshima is the story of six people—a clerk, a widowed seamstress, a physician, a Methodist minister, a young surgeon, and a German Catholic priest—who lived through the greatest single manmade disaster in history. In vivid and indelible prose, Pulitzer Prize-winner John Hersey traces the stories of these half-dozen individuals from 8:15 a.m. on August 6, 1945, when Hiroshima was destroyed by the first atomic bomb ever dropped on a city, through the hours and days that followed. Almost four decades after the original publication of this celebrated book, Hersey went back to Hiroshima in search of the people whose stories he had told, and his account of what he discovered is now the

**Moon Pops** - Heena Baek  
2021-08-15

A witty, weird, and wonderful spin on a classic Korean folktale, the first book to be published in English by internationally acclaimed Astrid Lindgren Memorial Award winner Heena Baek One sweltering summer night, while the many residents of one apartment building are struggling to fall asleep, the moon begins to melt. Granny hears it dripping and runs out to catch the moon drops in a bucket. At first unsure what do with the drops, she is soon inspired to turn them into popsicles--moon pops!--to help cool down her neighbors. But

as everyone drifts off to sleep, a new problem arises. The fabled rabbits who, according to folklore live on the moon, have lost their home! With the last of the moon drops, Granny grows a new moon from the potted plant in her window. As the moon ascends to the starry sky above, the rabbits return to their home, and Granny returns to her bed. Illustrated in otherworldly mixed-media 3D shoebox dioramas that use unique and exquisite collage art, this quirky and colorful picture book spins a new story from the common East Asian fable of the rabbit in the moon.
