A Senior Moment - Line Grenier 2020-06-30

Ageing and Memory are two cultural processes that establish their own relationships with time. They affect our ways of living, in the present, and for a future, as we move through life. This book focuses on the cultural mediations of ageing and memory, teasing out their complex and largely unpredictable relationships and interconnections. Its overall purpose is to explore different practices, commodities, daily routines, sounds, images and technologies that configure memory and ageing and shape our experiences of living in time and with time. By covering a variety of phenomena, from biopics, music by elderly, and artefacts among other, this edited collection considers the cultural stuff that ageing and memory are made of and interconnected in singular ways, for and by particular people, in specific socio-historical locations.

Broadcasting Policy in Canada, Second Edition - Robert Armstrong 2016-01-27

Where do Canadian content requirements come from? What is the difference between an over-the-top (OTP) service provider and a broadcast distribution undertaking (BDU)? How is broadcast regulation changing in response to the rise of new media? The second edition of *Broadcasting Policy in Canada* answers these questions by tracing the development of Canada's broadcasting legislation and analysing the roles and responsibilities of the key players in the broadcasting system, particularly those of the Canadian Radio-television and Telecommunications Commission (CRTC). Revised and updated to reflect the impact of digital media on the broadcasting industry and subsequent developments in the regulatory framework, the second edition of *Broadcasting Policy in Canada* offers a comprehensive overview of the policies that provide the foundation for the Canadian broadcasting system, including discussion of topics such as Canadian content, media regulation, and program financing. The book continues to provide a valuable resource for students, policymakers, and broadcasting industry members who are affected by the CRTC's policies and decisions.

**Communities Of Innovation: How Organizations Harness Collective Creativity And Build Resilience** - Patrick Cohendet

2021-04-12

This book describes the important role played by communities in innovation processes and how organizations can benefit from it. A community brings together individuals who share a common passion for a given area of knowledge and can contribute to innovation at different levels:

capitalization of good practices, problem solving, sharing of expertise, or development of new and creative ideas. The literature has progressively identified many variants of communities such as communities of practice, epistemic communities, communities of interest, virtual communities, etc. These forms of communities differ regarding the type of the specialized activities of knowledge on which they focus. As practitioners and academics increasingly emphasized the needs of collaborative approaches in innovation, they progressively challenged the traditional idea that innovation is mainly generated by hierarchical corporate departments and highlighted the active role that communities play in innovation processes. The aim of this book is to shed light, using multiple examples, on the proactive and fundamental role of communities in the new innovation practices of organizations.
