Sacred Cows and Chicken

Manchurian - James Staples
2020-09-18

Bovine politics exposes fault
lines within contemporary
Indian society, where eating
beef is simultaneously a
violation of sacred taboos, an
expression of marginalized
identities, and a route to
cosmopolitan sophistication.
The recent rise of Hindu

nationalism has further polarized traditional views: Dalits, Muslims, and Christians protest threats to their beef-eating heritage while Hindu fundamentalists rally against those who eat the sacred cow. Yet close observation of what people do and do not eat, the styles and contexts within which they do so, and the disparities between rhetoric and everyday action overturns this simplistic binary opposition. Understanding how a food can be implicated in riots, vigilante attacks, and even murders demands that we look beyond immediate politics to wider contexts. Drawing on decades of ethnographic research in South India, James Staples charts how cattle owners, brokers, butchers, cooks, and occasional beef eaters navigate the contemporary political and cultural climate. *Sacred Cows and Chicken Manchurian* offers a fine-grained exploration of the current situation, locating it within the wider anthropology of food and eating in the region and

revealing critical aspects of what it is to be Indian in the early twenty-first century.

Sacred Cow - Diana Rodgers 2020-07-14

We're told that if we care about our health—or our planet—eliminating red meat from our diets is crucial. That beef is bad for us and cattle farming is horrible for the environment. But science says otherwise. Beef is framed as the most environmentally destructive and least healthy of meats. We're often told that the only solution is to reduce or quit red meat entirely. But despite what anti-meat groups, vegan celebrities, and some health experts say, plant-based agriculture is far from a perfect solution. In *Sacred Cow*, registered dietitian Diana Rodgers and former research biochemist and New York Times bestselling author Robb Wolf explore the quandaries we face in raising and eating animals—focusing on the largest (and most maligned) of farmed animals, the cow. Taking a critical look at the assumptions and misinformation about meat, *Sacred Cow* points out the flaws in our current food system and in the proposed "solutions." Inside, Rodgers

and Wolf reveal contrarian but science-based findings, such as:

- Meat and animal fat are essential for our bodies.
- A sustainable food system cannot exist without animals.
- A vegan diet may destroy more life than sustainable cattle farming.
- Regenerative cattle ranching is one of our best tools at mitigating climate change.

You'll also find practical guidance on how to support sustainable farms and a 30-day challenge to help you transition to a healthful and conscientious diet. With scientific rigor, deep compassion, and wit, Rodgers and Wolf argue unequivocally that meat (done right) should have a place on the table. It's not the cow, it's the how!

The Red Pony - Literature Kit Gr. 7-8 - Nat Reed

2007-02-01

In this State Standards-aligned Literature Kit™, we divide the novel by chapters or sections and feature reading comprehension and vocabulary questions. In every chapter, we include Before You Read and After You Read questions. The Before You Read activities prepare students for reading by setting a purpose for reading. They stimulate background knowledge and experience, and guide students to make connections between what they know and what they will learn. The After You Read activities check students' comprehension and extend their learning. Students are asked to give thoughtful consideration of the text through creative and evaluative short-answer questions and journal prompts. Also included are writing tasks, graphic organizers, comprehension

quiz, test prep, word search, and crossword to further develop students' critical thinking and writing skills, and analysis of the text. About the Novel: Steinbeck recalls four loosely connected episodes from his own childhood, weaving them together into an unforgettable classic. Growing up on a remote ranch in California, ten-year-old Jody Tiflin's life is forever changed when his father gives him a beautiful red pony. With the help of his father's hired hand, Billy Buck, Jody commits himself whole-heartedly to the raising of this wonderful colt. When the colt grows ill and dies, Jody's world is shattered, as is his faith in Billy Buck, who had assured the boy that the pony would recover. Jody's father promises him a colt which will soon be born to their mare that dies at the birth. The stories weave together in effortless fashion, chronicling the coming of age story of young Jody Tiflin. All of our content is aligned to your State Standards and are written to Bloom's Taxonomy.

Cattle on a Thousand Hills - Connell J. Brown 1996-01-01 "Cattle on a Thousand Hills presents a history of cattle in Arkansas from the period of European exploration and settlement to the present day, when some of the finest beef herds in the country are found in the state. Dr. Brown focuses on the ranchers' and farmers' ways of life, explores the development of the various breeds, and describes how technological advances and the evolution of cattle marketing affected beef production in Arkansas." "Dr. Brown tells the story of the state's cattle industry in terms of the people who introduced new varieties of cattle to Arkansas, raised them, and led the associated supporting organizations. Included are chronicles of the Arkansas Cattlemen's Association and other organizations that have had significance in Arkansas's growing and dynamic cattle business: the Arkansas
